THE TRIBUNE ALMANAC

FOR 1895.

ECLIPSES, 1895.

(Astronomical calculations, tables, etc., made expressly for THE TRIBUNE ALMANAC by Berlin H. Wright, Penn Yan, N. Y.)

There will be five eclipses this year—two of the moon and three of the sun.

I. A total eclipse of the moon March 10, visible in North and South America, Europe and Western Asia. (See table below.) On March 22, 1913, this eclipse returns again, and will be seen on the west coast of America and in Asia.

II. A partial eclipse of the sun March 26, of 4¼ digits, not visible in the United States; visible in Arctic America and N. E. of Hudson's Bay, Greenland, England, and the Northern Pacific Ocean. This eclipse returns again April 6, 1913, and will then be seen in British America and Alaska.

III. A partial eclipse of the sun August 20, of 3 1-5 digits, invisible in North or South America; visible in N. W. Asia and N. E. Europe. It returns again August 31, 1913, but smaller, and will be seen in Greenland and the eastern part of British America.

IV. A total eclipse of the moon September 3 and 4, visible in North and South America, Western Europe and Africa. (See table below.) This eclipse returns again September 15, 1913, and will be seen on the western coast of America (the moon setting while eclipsed), also in Asia.

V. A partial eclipse of the sun September 18, of nearly 9 digits; visible in the South Pacific Ocean and Northern Australia. It returns again September 29, 1913, larger, and will be seen in the South Pacific Ocean and in New-Zealand.

TO FIND THE TIME OF GREATEST ELONGATION OF POLARIS.

By adding the numbers in the annexed table for any given latitude to the time of meridian passage of Polaris (the Pole Star), given in another table, the time of its greatest western elongation is found. If the same number be subtracted instead of added, we get the time of greatest eastern elongation. At the time of either

elongation the magnetic bearing may be taken with the compass, using that elongation which occurs at night. The eastern elongations occur at night from April 1 to October 11, and the western elongations occur at night all the rest of the year. Correct local time is to be used, and bearings taken on the star promptly on time; but an error of half a minute or even a minute in the timepiece will not invalidate the bearing, as Polaris then moves nearly vertically.

Explanatory Note.—The Dominical Letter indicates the day of the year on which the first Sunday occurs; F is the 6th letter, and the 6th of January will be Sunday. The Golden Number is the number in a cycle of 19 years, which shows how many years have passed since New Moon fell on January 1. This and (1) are chiefly used in fixing the date of Easter. No. (4) indicates the number of years that have elapsed since the current cycle of 28 years began. The first cycle began with the year 10 and is used to find (1.) Roman Indiction is a cycle of 15 years, and is of no utility except to chronologers. Julian Period is a cycle of 7980 years, and is the product of (3), (4) and (5), and when completed (3), (4) and (5) will coincide or begin at the

same time. Dionysian Period is a cycle of 532 years, and is called the Great Paschal Cycle, being the product of the Solar and Lunar Cycles. This and (6) are chiefly used in chronology. The Jewish Lunar Cycle is always three less than (3); used only by the Jews in fixing the time of their festivals.

PLANETS BRIGHTEST OR BEST SEEN.

MERCURY,* February 5 and October 8, in the West soon after sunset; also March 17, in the east before sunrise.

VENUS, August 14, in the west after sunset, and October 26 in the east before sunrise.

MARS and **JUPITER** not this year. Jupiter at the beginning and end of the year will be nearly at its brightest aspect.

SATURN, April 24; **URANUS,** May 8; **NEPTUNE** in December.

*Mercury will be theoretically brightest at several other times in the year, but then having a low altitude may not be seen.

A GRAPHIC EXHIBIT OF THE DURATION OF EVENING AND MORNING STARS, ADAPTED TO THE EQUATOR AND APPROXIMATELY ESTIMATED.

(Copyrighted by Berlin H. Wright.)

The vertical line under the sign of each planet is a 6 o'clock line for evening stars, and a midnight line for morning stars. From the diagram it appears that Venus will be seen in the evening until September 18; will be morning star after September 18. Mars will be both morning and evening star until February 5, and then evening star only until October 10, when it becomes morning star. Jupiter is both morning and evening star until March 17, and then evening star only until July 10, then morning star the rest of the year, and also evening star after October 31. Saturn will be morning star only until January 26, and then both morning and evening star until July 23; then evening star only to November 2, when it became morning star, and on the 24th of April it becomes an all-night star, from 6 p. m. to 6 a. m.

A Table of One Hundred and Thirteen Bright Stars.

To ascertain when any Star or constellation found in the following Table will be on the upper meridian, add the numbers opposite in the left-hand column of figures to the time of "Sidereal Noon" found in these pages. For the rising of a Star, subtract the number opposite in the right-hand column of figures from its meridian passage. For the setting of a star, add the same number to its meridian passage. Those marked (....) revolve in a circle of perpetual apparition, and do not rise or set north of the latitude of New York (40° 42' 40"), for which latitude the semi-diurnal arcs are calculated. The civil day begins at midnight, and consequently 24 hours after midnight, or 12 hours from noon, is morning of the succeeding day; and more than 24 hours from noon, is evening of the next day. This table is arranged in the order of culmination.

Stars having an asterisk (*) in the last column are seen only in Florida and Texas, when passing the meridian. Computed by S. Hart Wright, Ph.D., Penn Yan, N. Y.

EXAMPLE.—The Seven Stars will be on the meridian for Jan. 1, 1895, at 8 h. 56 m. evening, and will set at 4 h. 25 m. in the morning of Jan. 2d, and would rise on the 1st at 1 h. 27 m. in the afternoon, and would not of course be seen then.

TIMES OF UPPER MERIDIAN PASSAGE OF POLARIS, OR NORTH STAR, 1895.

Surveyors and civil engineers may obtain the variation of the magnetic needle for any place in the United States by directing their compass to the North Star (Polaris) when it is upon the meridian, as given in the table below, for the upper culmination; or 11 hours 58 minutes before or after, when the star is on the lower meridian. Exact local time is used in the table, and the timepiece used must be correct, and the bearing of the star taken promptly on time, and that bearing will be the true variation of the needle. An error of only a few seconds in the timepiece will vitiate the bearing found; therefore, it will be much better to take the bearing when the star is furthest east or west, or at its greatest elongation, as observations made upon it then are not affected materially by small errors of timepieces. To use this table for places west of the Washington meridian, subtract 10 seconds for each hour of longitude west of Washington. When the upper culmination occurs in the daytime from February 1 to August 1, use the lower culmination.

AZIMUTH TABLE OF POLARIS, OR NORTH STAR, 1895.

The azimuths in the annexed table, applied properly to the magnetic bearing of Polaris at the time of its greatest elongation east or west, will give the true variation of the magnetic needle from a true north direction, and will be of great use to all surveyors and engineers. When the elongation is east the azimuth will be east and vice versa. At the present time, the line of "No Variation" of the needle runs south-easterly from near Toledo, Ohio, to a point on the Atlantic coast about fifty miles southwest of Cape Fear, N. C. East of that line the north end of the needle points west of a true north, and west of that line east of the true north. The country may therefore be divided into eastern and western magnetic regions. In the "Eastern Region" the bearing of Polaris at its western elongation, if eastward, added to the azimuth, gives the desired variation west; but if westward, the bearing taken from the azimuth gives the variation west. The bearing of Polaris at its eastern elongation will be eastward, and the azimuth subtracted gives the variation west. In the "Western Region" the bearing of Polaris at its eastern elongation, if westward, added to the azimuth, gives the variation east; but if eastward, the bearing taken from the azimuth gives the variation east. The bearing of Polaris at its western elongation will be westward, and diminished by the azimuth gives the variation east. The azimuths in the table, given for two degree zones, are practically sufficient for all the United States except Alaska. For intermediate latitudes, or dates, the azimuths may be found by proportion sufficiently correct, or exactly by the formula, log-sine azimuth equal log-sine Polar Distance of Polaris, minus log-cosine latitude. The surveyor or engineer is on the line of "No Variation" when the bearing of Polaris at greatest elongation is the same as the azimuth.

PERPETUAL CALENDAR.

Showing the Day of the Week of any Date, Old Style or New, Before or After Christ.

EXPLANATION.—Under or over each month will be found the names or abbreviations for the days of the week, arranged in seven different orders or sequences, reading from left to right.

These are marked as sequence A, sequence B, and so on. At the right or left of each sequence is given the centennial

year of the century for which that sequence may be used—old style dates, or reckonings under the Julian Calendar, marked at the left; new style dates, according to the Gregorian Calendar, at the right; thus 16 at left of sequence D shows that this sequence is to be used for all old style dates from 1600 to 1699, as the date

of landing of Pilgrims, Dec. 11, O. S., 1620. At the right of sequence F, 16 shows that this is the sequence for all new style dates in the same period, as the landing of Pilgrims, Dec. 21, 1620. The 18 at right of sequence D indicates this as the one to use for the present century, 1800 to 1899.

Above or beneath those sequences are given, for each month, the odd years of the century, from 00 to 99, reading from left to right and so arranged that all the years of a century in which the first of the month falls on a certain day of the week are in the same column. Thus, take the table for January and the sequence for the present century, D, all the years in the first column, 4, 9, 15, 26, etc., are over Sunday in the sequence named; so the 1st of January in all these years is Sunday. In the second column are all the years in which the 1st falls on Monday, and so on. If we bear in mind that the 8th, 15th, 22d and 29th of any month will come on the same day of the week as the 1st, this arrangement gives at once the day of the week of five dates in any month, and from these the day of any other date in that month can easily be found.

Now with a given date to find the day of the week, as Aug. 23, 1841. In the table for August find the given year 41; take the sequence in line with the centesimal year 18, D, and in this sequence above 41 we find Sunday. The August 1 in that year was Sunday, and the 8th, 15th and 22d must have fallen on Sunday also; and if the 22d was Sunday, the 23d was Monday. What day of the week was Dec. 11, O. S., 1620? Use sequence D for 1600s O. S. and in this above 20 in December find Friday. Then the 1st and the 8th came on Friday, and the 11th must have been Monday.

Take the same date as given, new style, Dec. 21, 1620. Use sequence F for the 1600s N. S. and above 20 find Tuesday, which was the 1st and the 22d, and the 21st was Monday. Then the Pilgrims landed on Monday.

If the last Thursday in November, 1885, be Thanksgiving Day, what will be the date? We find that in 1885 the 1st, and therefore the 29th, of November comes on Sunday; then the preceding Thursday, or Nov. 26th, is the last Thursday, or Thanksgiving Day.

This arrangement involves no comparison or distinction further than this: For the months of January and February of centesimal leap years only, as 1600, 2000, etc., by the Gregorian Calendar, the heavy-faced 00s in the first column are to be used, but for centesimal years not leap years the 00s in the second column are required. By the Julian Calendar every centesimal year was leap year; by the Gregorian Calendar only every fourth centesimal year is a leap year. 1700 O. S. then should be regarded as a leap year, while 1700 N. S. is not.

As to the intervals between the times when a given day of the month falls on a certain week day, as Jan. 1st on Saturday, this occurred in 1803-14-20-25-31, and so on at intervals of 11, 6, 5 and 6 years, which intervals are repeated and would continue without interruption but for the omission of leap year in 1900, which will

cause an irregularity of 12 years, either in one period, or in two intervals of 6 years each, or in one of 7 and another of 5 years, after which the regular intervals will be successively repeated again. But notice the difference in the grouping of the years under January and February, and that of the other ten months. Take the years in the column in which we find 3 under any other month, and the calendar for those months repeats as follows: 3, 8, 14, 25, 31, showing that the order for an entire year recurs less frequently, as in 3, 14, 25, 31. The order for any leap year is repeated at intervals of 28 years; thus the calendar for 1856 corresponds with that for 1884, and this order would obtain again in 1912 but for the omission of leap year in 1900, by which the interval is extended 12 years, and the 29th of February will not fall on Friday again until 1924. The order for any year next succeeding a leap year will be repeated in 6 years, while the orders for the second and third years following a leap year will be repeated in 11 years. Then the calendar for '81 will be repeated in '87; the order that obtained in '82 will occur again in '93, but that for '83 corresponds with '94.

What has been shown as to leap year dates, as Feb. 29th, recurring on the same day of the week, is of course true of Inauguration Day, March 4th, of every fourth year. This came on Sunday in 1821, 1819 and 1877, and if 1900 were a leap year it would occur again in 1908, but owing to that omission it will not recur until 1917. The irregular interval caused by the omission of leap year is sometimes 40 and sometimes 12 days. Under the Julian Calendar, established 40 B. C. by Julius Caesar, the calendar for an entire century was repeated every 700 years, and therefore the sequence of days given here for 1700 O. S., G., answers also for the time 700 years earlier, i. e., the century 1000 to 1099; also for the years 300 to 399. In this way the sequences given may cover the time back to the beginning of the Christian Era. Under the Gregorian Calendar the orders are repeated every 400 years, and only four of the sequences are required, viz., C, D, E and F; F serving alike for 1600 and 2000, E for 1700 and 2100, etc.

Pope Gregory XIII in 1582 undertook to reform the Julian Calendar. To correct the errors that had accumulated and to guard against future inaccuracies, he suppressed ten days and provided for the omission of leap year every centesimal year, excepting every fourth centesimal year. Under the Gregorian Calendar 1700, 1800 and 1900 are not counted as leap years, but 1600 and 2000 are. This calendar was adopted by Germany in 1700 and by England not until 1752, by which time, as 1700 had passed as leap year, the difference amounted to 11 days, and Parliament rectified the error by suppressing 11 days in September of that year. The Julian Calendar still prevails in Russia, and as 1800 has passed with them as leap year, the difference between their reckoning and ours is 12 days, so that August 7 in Russia is the same as August 19 with us.

ARMY, NAVY AND MARINE CORPS.

WEARING THE BADGE OF THE ARMY AND NAVY UNION.

The act of May 11, 1894, provides that the distinctive badge adopted by the Regular Army and Navy Union of the United States may be worn, in their own right, upon all public occasions of ceremony by officers and enlisted men of the Army and

Navy of the United States who are members of said organization.

TO REGULATE ENLISTMENTS IN THE ARMY.

The act of August 1, 1894, repeals so much of the act of February 7, 1893, as provides that "no private shall be re-enlisted who has served ten years or more, or who is over thirty-five years of age, except such as have already served as en-

listed men for twenty years or upward." It also enacts that hereafter all enlistments in the Army shall be for the term of three years, and no soldier shall be again enlisted in the Army whose service during his last preceding term of enlistment has not been honest and faithful; and in time of peace no person (except an Indian) who is not a citizen of the United States, or who has not made legal declaration of his intention to become a citizen of the United States, or who can not speak, read, and write the English language, or who is over thirty years of age, shall be enlisted for the first enlistment in the Army: Provided, That any soldier discharged since January 27, 1893, who has been prevented from re-enlisting by the operations of the Act of Congress approved February 27, 1893, and who may enlist after November 1, 1894, shall be considered to have re-enlisted and shall be entitled to receive while serving subsequent to such enlistment the same pay, service pay, and allowances as if he had re-enlisted within thirty days from his latest discharge. It further provides that the period within which soldiers may re-enlist with the benefits conferred by sections 1,282 and 1,284 of the Revised Statutes, is extended to three months; and hereafter every enlisted man in the Army, excepting general service clerks and general service messengers, shall be entitled to all the benefits conferred by sections 1,281 and 1,282 of the Revised Statutes: Provided, That to entitle them to the additional pay authorized by section 1,281, for men serving in the third, fourth and fifth years, the service must have been continuous within the meaning of this section.

LOAN OF VESSELS TO STATES.

The act of August 3, 1894, authorizes and empowers the Secretary of the Navy to loan temporarily to any State, upon the written application of the Governor thereof, a vessel of the Navy, to be selected from such vessels as are not suitable or required for general service, together with such of her apparel, charts, books and instruments of navigation as he may deem proper; said vessel to be used only by the regularly organized naval militia of the State for the purposes of drill and instruction: Provided, That when the organization of the naval militia of such State shall be abandoned, or when the interests of the naval service shall so require, such vessel and equipments, together with her apparel, charts, books and instruments of navigation, shall be immediately restored to the Secretary of the Navy. The Secretary of the Navy is authorized to detail from the enlisted force of the Navy a sufficient number of men, not exceeding six for any vessel, as ship-keepers, preference to be given to those men who have served twenty years or more in the Navy.

NATURALIZATION OF ALIENS SERVING FIVE CONSECUTIVE YEARS IN THE NAVY, OR ONE ENLISTMENT IN THE MARINE CORPS.

The Naval Appropriation act of July 26, 1894, provides that any alien of the

age of twenty-one years and upward who has enlisted or may enlist in the United States Navy or Marine Corps, and has served or may hereafter serve five consecutive years in the United States Navy or one enlistment in the United States Marine Corps, and has been or may hereafter be honorably discharged, shall be admitted to become a citizen of the United States upon his petition, without any previous declaration of his intention to become such; and the court admitting such alien shall, in addition to proof of good moral character, be satisfied by competent proof of such person's service in and honorable discharge from the United States Navy or Marine Corps.

INCREASE OF THE NAVY.

The Naval Appropriation act appropriated \$4,000,000 for the armament and armor of vessels previously authorized in 1886, 1888, 1889, 1890, 1891 and 1893 to be built; \$5,955,025 on account of the hulls and outfits of vessels and steam machinery of vessels heretofore authorized; and authorized the Secretary of the Navy to use the \$450,000 appropriated March 2, 1889, for the construction of one additional cruiser of the Vesuvius type, or so much thereof as may be necessary, for the construction, armament, and equipment of three torpedo boats, to cost, all together, not more than the said sum of \$450,000. Authority was also given to transform the Vesuvius into a torpedo cruiser if, in the opinion of the Secretary of the Navy, such transformation will add to "the efficiency of this vessel for naval purposes."

THE BEHRING SEA ARBITRATION AWARD.

The act of April 6, 1894, giving effect to the award rendered by the Tribunal of Arbitration at Paris under the treaty between the United States and Great Britain of February 29, 1892 (for which award see the Almanac for 1894, pp. 198-200), enacted: That no citizen of the United States, or person owing the duty of obedience to the laws or the treaties of the United States, nor any person belonging to or on board of a vessel of the United States, shall kill, capture, or pursue, at any time, or in any manner whatever, outside of territorial waters, any fur seal in the waters surrounding the Pribiloff Islands within a zone of sixty geographical miles (sixty to a degree of latitude) around said islands,* inclusive of the territorial waters.

Sec. 2. That no citizen of the United States, or person above described in Section 1 of this act, nor any person belonging to or on board of a vessel of the United States, shall kill, capture, or pursue, in any manner whatever, during the season extending from the first day of May to the thirty-first day of July, both inclusive, in each year, any fur seal on the high seas outside of the zone mentioned in Section 1, and in that part of the Pacific Ocean, including Behring Sea, which is situated to the north of the 35th degree of north latitude and to the east of the 180th degree of longitude from Greenwich till it strikes the water boundary described in Article 1 of the treaty

of 1867 between the United States and Russia, and following that line up to Behring Straits.

Sec. 3. No citizen of the United States or person above described, in the first section of this act, shall, during the period and in the waters in which by Section 2 of this act the killing of fur seals is not prohibited, use or employ any vessel, nor shall any vessel of the United States be used or employed, in carrying on or taking part in fur seal fishing operations, other than a sailing vessel propelled by sails exclusively, and such canoes or undecked boats, propelled by paddles, oars or sails as may belong to, and be used in connection with, such sailing vessel; nor shall any sailing vessel carry on or take part in such operations without a special license obtained from the Government for that purpose, and without carrying a distinctive flag prescribed by the Government for the same purpose.

Sec. 4. That every master of a vessel licensed under this act to engage in fur seal fishing operations shall accurately enter in his official log book the date and place of every operation, and also the number and sex of the seals captured each day; and on coming into port, and before landing cargo, the master shall verify, on oath, such official log book as containing a full and true statement of the number and character of his fur seal fishing operations, including the number and sex of seals captured; and for any false statement wilfully made by a person so licensed by the United States in this behalf he shall be subject to the penalties of perjury; and any seal skins found in excess of the statement in the official log book shall be forfeited to the United States.

Sec. 5. That no person or vessel engaging in fur seal fishing operations under this act shall use or employ in any such operations, any net, firearm, airgun or explosive: Provided however, That this prohibition shall not apply to the use of shotguns in such operations outside of Behring Sea during the season when the killing of fur seals is not there prohibited by this act.

Sec. 6. That the foregoing section of this act shall not apply to Indians dwelling on the coast of the United States, and taking fur seals in canoes or undecked boats propelled wholly by paddles, oars or sails, and not transported by or used in connection with other vessels, or manned by more than five persons, in the manner heretofore practised by the said Indians: Provided, however, That the exception made in this section shall not apply to Indians in the employment of other persons, or who shall kill, capture or pursue fur seals outside of territorial waters under contract to deliver the skins to other persons, nor to the waters of Behring Sea or of the passes between the Aleutian Islands.

Sec. 7. That the President shall have power to make regulations respecting the special license and the distinctive flag mentioned in this act and regulations otherwise suitable to secure the due execution of the provisions of this act, and

from time to time to add to, modify, amend or revoke such regulations, as in his judgment may seem expedient.

Sec. 8. That, except in the case of a master making a false statement under oath in violation of the provisions of the fourth section of this act, every person guilty of a violation of the provisions of this act, or of the regulations made thereunder, shall for each offence be fined not less than \$200, or imprisoned not more than six months, or both; and all vessels, their tackle, apparel, furniture and cargo, at any time used or employed in violation of this act, or of the regulations made thereunder, shall be forfeited to the United States.

Sec. 9. That any violation of this act, or of the regulations made thereunder, may be prosecuted either in the district court of Alaska or in any district court of the United States in California, Oregon, or Washington.

Sec. 10. That if any unlicensed vessel of the United States shall be found within the waters to which this act applies, and at a time when the killing of fur seals is by this act there prohibited, having on board sealskins or bodies of seals, or apparatus or implements suitable for killing or taking seals; or if any licensed vessel shall be found in the waters to which this act applies, having on board apparatus or implements suitable for taking seals, but forbidden then and there to be used, it shall be presumed that the vessel in the one case and the apparatus or implements in the other was or were used in violation of this act until it is otherwise sufficiently proved.

Sec. 11. That it shall be the duty of the President to cause a sufficient naval force to cruise in the waters to which this act is applicable to enforce its provisions, and it shall be the duty of the commanding officer of any vessel belonging to the naval or revenue service of the United States, when so instructed by the President, to seize and arrest all vessels of the United States found by him to be engaged, used, or employed in the waters last aforesaid in violation of any of the prohibitions of this act, or of any regulations made thereunder, and to take the same, with all persons on board thereof, to the most convenient port in any district of the United States mentioned in this act, there to be dealt with according to law.

Sec. 12. That any vessel or citizen of the United States, or person described in the first section of this act, offending against the prohibitions of this act or the regulations thereunder, may be seized and detained by the naval or other duly commissioned officers of Her Majesty the Queen of Great Britain, but when so seized and detained they shall be delivered as soon as practicable, with any witnesses and proofs on board, to any naval or revenue officer or other authorities of the United States, whose courts alone shall have jurisdiction to try the offence and impose the penalties for the same: Provided, however, That British officers shall arrest and detain vessels and persons as in this section specified only after, by appropriate legislation,

Great Britain shall have authorized officers of the United States duly commissioned and instructed by the President to that end to arrest, detain and deliver to the authorities of Great Britain vessels and subjects of that Government offending against any statutes or regulations of Great Britain enacted or made to enforce the award of the treaty mentioned in the title of this act.

*An act of April 24, 1894, corrected an error in the act of April 6 by substituting the word "inclusive" for the word "exclusive," used in the original act.—Editor.

An act of June 25, 1894, made the additional provision that the procedure and penalties provided by said act, in case of the violation of the provisions of said regulations, are hereby made applicable to and shall be enforced against any citizen of the United States, or person owing the duty of obedience to the laws or the treaties of the United States, or person belonging to or on board of a vessel of the United States who shall kill, capture or pursue, at any time or in any manner whatever, as well as to and against any vessel of the United States used or employed in killing, capturing or pursuing, at any time or in any manner whatever, any fur seal or other marine fur-bearing animal, in violation of the provisions of any treaty or convention into which the United States may have entered or may hereafter enter with any other Power for the purpose of protecting fur seals or other marine fur-bearing animals, or in violation of any regulations which the President may make for the due execution of such treaty or convention.

THE ELEVENTH CENSUS.

The Deficiency act of April 21, 1894, extended the time for completing the Eleventh Census from June 30, 1894, to March 4, 1895.

REPEAL OF ALL U. S. ELECTION LAWS.

The act of February 8, 1894, "An act to repeal all statutes relating to supervisors of elections and special deputy marshals, and for other purposes," provides that the following sections and parts of sections of the Revised Statutes of the United States be, and the same are hereby, repealed; that is to say of title "Elective Franchise," sections 2,002 and 2,005 to 2,020 inclusive, relating to the appointment, qualification, power, duties and compensation of supervisors of election; and also sections 2,021 to 2,031 inclusive, of the same title, relating to the appointment, qualification, power, duties and compensation of special deputies; and also of title "Crimes," sections 5,506, 5,511, 5,512, 5,513, 5,514, 5,515, 5,520, 5,521, 5,522, 5,523, but the repeal of the sections hereinbefore mentioned shall not operate so as to affect any prosecutions now pending, if any, for a violation of any of the provisions of said sections; and also part of section 643, as follows: "Or is commenced against any officer of the United States or other person on account of any act done under the provisions of title twenty-six, The Elective Franchise, or on account of any right,

title or authority claimed by any officer or other person under any of said provisions."

All other statutes and parts of statutes relating to supervisors of election and special deputy marshals, were repealed by this act, which went into effect immediately.

In the House, the vote on passage was: Yeas, 201 (Democrats 194, Populists 7); nays, 102 (all Republicans). In the Senate, the bill passed—Yeas, 39 (Democrats 36, Populists 3); nays, 28 (all Republicans).

ELECTRIC MEASURE.

The act of July 12, 1894, establishes the legal units of electrical measure in the United States as follows:

1. The unit of resistance shall be what is known as the international ohm, which is substantially equal to one thousand million units of resistance of the centimeter-gram-second system of electro-magnetic units, and is represented by the resistance offered to an unvarying electric current by a column of mercury at the temperature of melting ice fourteen and four thousand five hundred and twenty-one ten-thousandths grams in mass, of a constant cross-sectional area, and of the length of one hundred and six and three-tenths centimeters.

2. The unit of current shall be what is known as the international ampere, which is one-tenth of a unit of current of the centimeter-gram-second system of electro-magnetic units, and is the practical equivalent of the unvarying current, which, when passed through a solution of nitrate of silver in water in accordance with standard specifications, deposits silver at the rate of one thousand one hundred and eighteen millionths of a gram per second.

3. The unit of electro-motive force shall be what is known as the international volt, which is the electro-motive force that, steadily applied to a conductor whose resistance is one international ohm, will produce a current of an international ampere, and is practically equivalent to one thousand fourteen hundred and thirty-fourths of the electro-motive force between the poles or electrodes of the voltaic cell known as Clark's cell, at a temperature of fifteen degrees centigrade, and prepared in the manner described in the standard specifications.

4. The unit of quantity shall be what is known as the international coulomb, which is the quantity of electricity transferred by a current of one international ampere in one second.

5. The unit of capacity shall be what is known as the international farad, which is the capacity of a condenser charged to a potential of one international volt by one international coulomb of electricity.

6. The unit of work shall be the Joule, which is equal to ten million units of work in the centimeter-gram-second-system, and which is practically equivalent to the energy expended in one second by an international ampere in an international ohm.

7. The unit of power shall be the Watt, which is equal to ten million units of power in the centimeter-gram-second sys-

tem, and which is practically equivalent to the work done at the rate of one Joule per second.

8. The unit of induction shall be the Henry, which is the induction in a circuit when the electro-motive force induced in this circuit is one international volt while the inducing current varies at the rate of one ampere per second.

It shall be the duty of the National Academy of Sciences to prescribe and publish, as soon as possible after the passage of this act, such specifications of details as shall be necessary for the practical application of the definitions of the ampere and volt hereinbefore given, and such specifications shall be the standard specifications herein mentioned.

IMMIGRATION.

The Sundry Civil Appropriation act of August 18, 1894, provides that the head money from alien passengers on and after Oct. 1, 1894, collected under the act of August 3, 1882, was made one dollar instead of fifty cents.

INTERNAL REVENUE PROCESS.

It also enacts that hereafter no part of any money appropriated to pay any fees to the United States commissioners, marshals, or clerks shall be used for any warrant issued or arrest made, or other fees in prosecutions under the internal revenue laws, unless said fees have been taxed against and collected from the defendant, or unless the prosecution has been commenced upon a sworn complaint setting forth the facts constituting the offence and alleging them to be within the personal knowledge of the affiant or upon a sworn complaint by a United States district-attorney, collector or deputy collector of internal revenue or revenue agent, setting forth the facts upon information and belief, and approved either before or after such arrest by a circuit or district judge or the attorney of the United States in the district where the offence is alleged to have been committed or the indictment is found: Provided, That it shall be the duty of the marshal, his deputy, or other officer, who may arrest a person charged with any crime or offence, to take the defendant before the nearest circuit court commissioner or the nearest judicial officer having jurisdiction, and the officer or magistrate issuing the warrant shall attach thereto a certified copy of the complaint, and upon the arrest of the accused, the return of the warrant, with a copy of the complaint attached, shall confer jurisdiction upon such officer as fully as if the complaint had originally been made before him, and no mileage shall be allowed any officer violating the provisions hereof.

The act of June 28, 1894, makes the first Monday of September in each year, Labor's holiday, a legal public holiday, the same as Christmas, the 1st of January, the 22d of February, the 30th of May, the 4th of July.

The act of August 1, 1894, directs the Commissioner of Labor to investigate and report upon the conditions attending the employment of women and children; their wages, earnings, sanitary surroundings, and cost of living; the effect of various

employments upon their health and longevity; what measures are taken to protect their physical condition and to protect them from accidents; the rates of wages paid them in comparison with the rates paid men; and the effect, if any, their employment has had upon the wages and employment of men.

The act of August 13, 1894, enacts that hereafter any person or persons entering into a formal contract with the United States for the construction of any public building, or the prosecution and completion of any public work or for repairs upon any public building or public work, shall be required before commencing such work to execute the usual penal bond, with good and sufficient sureties, with the additional obligations that such contractor or contractors shall promptly make payments to all persons supplying him or them labor and materials in the prosecution of the work provided for in such contract; and any person or persons making application therefor, and furnishing affidavit to the department under the direction of which said work is being, or has been prosecuted, that labor or materials for the prosecution of such work has been supplied by him or them, and payment for which has not been made, shall be furnished with a certified copy of said contract and bond, upon which said person or persons supplying such labor and materials shall have a right of action, and shall be authorized to bring suit in the name of the United States for his or their use and benefit against said contractor and sureties, and to prosecute same to final judgment and execution.

The act of August 15, 1894, directs the Commissioner of Labor to investigate and report upon the effect of the use of machinery upon labor and the cost of production, the relative productive power of hand and machine labor, the cost of manual and machine power as they are used in productive industries, the effect upon wages of the use of machinery operated by women and children, and whether changes in the creative cost of products are due to a lack or to a surplus of labor, or to the introduction of power machinery.

LAND.

DES MOINES RIVER LANDS.

The Sundry Civil Appropriation act of August 18, 1894, appropriated \$200,000 to adjust the claims of settlers on the so-called Des Moines River Lands, through a special commissioner, who shall find the reasonable sum due each claimant under the homestead, pre-emption or other public land laws under the acts of Aug. 8, 1846, and March 2, 1861.

SOLDIERS' HOMESTEAD CERTIFICATES.

It also provides that all soldiers' additional homestead certificates heretofore issued under the rules and regulations of the General Land Office under section 2,306 of the Revised Statutes of the United States, or in pursuance of the decisions or instructions of the Secretary of the Interior, of date March 10, 1877, or any subsequent decisions or instructions of the Secretary of the Interior or the

Commissioner of the General Land Office, shall be, and are hereby, declared to be valid, notwithstanding any attempted sale or transfer thereof; and where such certificates have been or may hereafter be sold or transferred, such sale or transfer shall not be regarded as invalidating the right, but the same shall be good and valid in the hands of bona fide purchasers for value; all entries heretofore or hereafter made with such certificates by such purchasers shall be approved, and patent shall issue in the name of the assignees.

RECLAMATION OF DESERT LANDS.

It also provides that to aid the public land States in the reclamation of the desert lands therein, and the settlement, cultivation and sale thereof in small tracts to actual settlers, the Secretary of the Interior, with the approval of the President, be, and hereby is, authorized and empowered, upon proper application of the State to contract and agree, from time to time, with each of the States in which there may be situated desert lands as defined by the act entitled "An act to provide for the sale of desert land in certain States and Territories," approved March 3, 1877, and the act amendatory thereof, approved March 3, 1891, binding the United States to donate, grant and patent to the State free of cost for survey or price such desert lands, not exceeding 1,000,000 acres, in each State, as the State may cause to be irrigated, reclaimed, occupied, and not less than 20 acres of each 160-acre tract cultivated by actual settlers, within ten years next after the passage of this act, as thoroughly as is required of citizens who may enter under the said desert land law.

Before the application of any State is allowed or any contract or agreement is executed, or any segregation of any of the land from the public domain is ordered by the Secretary of the Interior, the State shall file a map of the said land proposed to be irrigated which shall exhibit a plan showing the mode of the contemplated irrigation, and which plan shall be sufficient to thoroughly irrigate and reclaim said land and prepare it to raise ordinary agricultural crops, and shall also show the source of the water to be used for irrigation and reclamation, and the Secretary of the Interior may make necessary regulations for the reservation of the lands applied for by the States to date from the date of the filing of the map and plan of irrigation, but such reservation shall be of no force whatever if such map and plan of irrigation shall not be approved. That any State contracting under this section is hereby authorized to make all necessary contracts to cause the said lands to be reclaimed, and to induce their settlement and cultivation in accordance with and subject to the provisions of this section; but the State shall not be authorized to lease any of said lands or to use or dispose of the same in any way whatever, except to secure their reclamation, cultivation and settlement.

As fast as any State may furnish satisfactory proof according to such rules and regulations as may be prescribed by the Secretary of the Interior, that any of said

lands are irrigated, reclaimed and occupied by actual settlers, patents shall be issued to the State or its assigns for said lands so reclaimed and settled: Provided, That said States shall not sell or dispose of more than 160 acres of said lands to any one person, and any surplus of money derived by any State from the sale of said lands in excess of the cost of their reclamation, shall be held as a trust fund for and be applied to the reclamation of other desert lands in such State.

MISCELLANEOUS PROVISIONS.

The act of December 12, 1893, extends to January 1, 1897, section 3 of the land grant forfeiture act of September 29, 1890.

The act of January 11, 1894, provides that no register or receiver shall receive evidence in, hear or determine any cause pending in any district land office in which he is interested directly or indirectly, or has been of counsel, or where he is related to any of the parties in interest by consanguinity or affinity within the fourth degree, computing by the rules adopted by the common law.

The act of May 30, 1894, makes it lawful for the Commissioner of the General Land Office to cause patents to be issued, as evidence of title, for all valid locations made with land scrip issued pursuant to decrees of the Supreme Court of the United States, which valid locations were made prior to the approval of the aforesaid act in the same manner that patents are now issued under the provisions of section 3 of said act of January 28, 1870.

The act of July 26, 1894, provides that the time for making final proof and payment for all lands located under the homestead and desert land laws of the United States, proof and payment of which has not yet been made, be, and the same is hereby, extended for the period of one year from the time proof and payment would become due under existing laws.

That the time of making final payments on entries under the pre-emption act is hereby extended for one year from the date when the same becomes due in all cases where pre-emption entrymen are unable to make final payments from causes which they cannot control, evidence of such inability to be subject to the regulations of the Secretary of the Interior.

The act of August 4, 1894, validates affidavits made before United States Commissioners in all land entries, if no other objection exists. And another act, of same date, fixes a five years' limit instead of four, for completion of proof in all cases where declarations of intentions to enter desert lands have been filed, and the four years' limit within which final proof may be made had not expired prior to January 1, 1894.

The following act became law, by lapse of time, not having been acted upon by the President within ten days from August 8, 1894:

That section 2,401 of the Revised Statutes is hereby amended so as to read as follows: "When the settlers in any township not mineral or reserved by the Government, or persons and associations lawfully possessed of coal lands and otherwise qualified to make entry thereof, or when the owners or grantees of public

lands of the United States, under any law thereof, desire a survey made of the same under the authority of the Surveyor-General, and shall file an application therefor in writing, and shall deposit in a proper United States depository to the credit of the United States, a sum sufficient to pay for such survey, together with all expenditures incident thereto, without cost or claim for indemnity on the United States, it shall be lawful for the Surveyor-General, under such instructions as may be given him by the Commissioner of the General Land Office, and in accordance with law, to survey such township or such public lands owned by said grantees of the Government, and make return therefor to the general and proper local land office: Provided, That no application shall be granted unless the township so proposed to be surveyed is within the range of the regular progress of the public surveys embraced by existing standard lines or bases for township and subdivisional surveys."

That section 2.403 of the Revised Statutes of the United States as heretofore amended is hereby amended so as to read as follows: "Where settlers or owners or grantees of public lands make deposits in accordance with the provisions of section 2.401, as hereby amended, certificates shall be issued for such deposits which may be used by settlers in part payment for the lands settled upon by them, the survey of which is paid for out of such deposits, or said certificates may be assigned by indorsement and may be received by the Government in payment for public lands of the United States in States where the surveys were made, entered or to be entered under the laws thereof."

All laws and parts of laws inconsistent with this act were thus repealed.

PENSIONS.

The Deficiency Appropriation act of December 21, 1893, provided that any pension heretofore or that may hereafter be granted to any applicant therefor under any law of the United States authorizing the granting and payment of pensions, on application made and adjudicated upon, shall be deemed and held by all officers of the United States to be a vested right in the grantee to that extent that paymen thereof shall not be withheld or suspended until, after due notice to the grantee of not less than thirty days, the Commissioner of Pensions, after hearing all the evidence, shall decide to annul, vacate, modify, or set aside the decision upon which such pension was granted. Such notice to grantee must contain a full and true statement of any charges or allegations upon which such decision granting such pension shall be sought to be in any manner disturbed or modified. (In Committee of the Whole, House of Representatives, December 19, 1893, this was adopted—ayes 123, nays 46. No ye or nay vote was taken in the House, and it was passed in Senate without dissent.)

The Invalid Pension Apportionment act of July 18, 1894, provided that the report of such examining surgeons when filed in the Pension Office shall be open to the examination and inspection of the claimant or his attorney, under such rea-

sonable rules and regulations as the Secretary of the Interior may provide.

The act of August 23, 1894, provides that hereafter, in addition to the officers now authorized to administer oaths in such cases, fourth-class postmasters of the United States are hereby required, empowered and authorized to administer any and all oaths required to be made by pensioners and their witnesses in the execution of their vouchers with like effect and force as officers having a seal; and such postmaster shall affix the stamp of his office to his signature to such vouchers, and he is authorized to charge and receive for each voucher not exceeding 25 cents, to be paid by the pensioner.

REVENUE LEGISLATION.

The act "to reduce taxation, to provide revenue for the Government, and for other purposes"—which became a law by lapse of time, the President not having acted upon it, affirmatively or negatively, within ten days after the 15th of August, 1894, was under consideration from December 19, 1893, when the Committee of Ways and Means reported to the House the bill agreed upon by it, until August 15, 1894, on which day the House closed the controversy between it and the Senate by accepting the Senate's amendments in their entirety, 634 in number. The bill consists of two parts: That imposing customs duties and that imposing Internal Revenue taxation, chief among which are the new Taxes on Income and Successions. That amendment, made in Committee of the Whole, was concurred in, in the House—Yeas, 182 (6 Republicans, 166 Democrats, 10 People's); nays, 48 (3 Republicans, 45 Democrats); not voting, 122. The bill then was passed by the House: Yeas, 204 (194 Democrats, 10 People's); nays, 140 (125 Republicans, 15 Democrats); not voting, 8; paired, 3 Republicans, 3 Democrats.

The action of the Senate was taken between March 20, 1894, when the bill was reported from the Committee on Finance with amendments, and July 2, when it was passed, with 634 amendments. The vote on passage was—Yeas 39 (37 Democrats, 2 People's); nays, 34 (31 Republicans, 1 Democrat, 2 People's); paired, 6 Republicans, 6 Democrats.

A Committee of Conference appointed July 7, consisting of Senators Voorhees, Harris, Vest, Jones of Ark., Sherman, Allison and Aldrich, and Representatives Wilson of W. Va., McMillan, Turner of Ga., Montgomery, Reed, Burrows and Payne were unable to agree. On the 7th of August, and again on the 13th, the Democrats of the House held a caucus to consider the situation, the Senate by repeated votes having indicated an unwillingness to consent to material modification of its amendments. On the 13th the caucus by a vote of 130 to 21 determined to concur in the Senate amendments, and pass four separate bills for the Senate's consideration, to place on the free list sugar, coal, iron ore and barbed wire. On the same day the House voted to recede from its non-concurrence in the Senate's amendments, thus passing the bill—yeas 182 (174 Democrats, 8 Peoples); nays 106 (93 Republicans, 13 Democrats); not voting, 61.

The four separate bills were passed the same day. The free coal bill passed—years 162, nays 104. The free iron ore bill passed—years 171, nays 103. The free barbed wire bill passed—years 191, nays 84. The free coal bill passed—years 276, nays 11. The above bills were favorably reported by the Committee on Finance, but were not taken up for action before final adjournment.

The debated Tables of Schedules of Rates can be found in "The Tribune Extra" on this subject, issued in September, 1894.

STATE TAXATION OF NATIONAL BANK NOTES AND U. S. TREASURY NOTES, AND GOLD, SILVER OR OTHER COIN.

The act of August 13, 1894, provides that circulating notes of National banking associations and United States legal-tender notes and other notes and certificates of the United States payable on demand and circulating or intended to circulate as currency and gold, silver or other coin, shall be subject to taxation as money on hand or on deposit under the laws of any State or Territory, and in the same manner and at the same rate as other money or currency circulating as money within its jurisdiction.

In the House the vote was—years 173 (Republicans, 34, Democrats, 133, People's 6); nays 41. (Republicans 29, Democrats 12.) In the Senate there was no division.

TERRITORIES.

The act of August 8, 1894, provides that all railroad companies operating railroads through the Territories over a right of way obtained under any grant or act of Congress giving right of way over the public lands, shall be required to establish and maintain passenger stations and freight depots at or within one-fourth of a mile of the boundary limits of all town sites already established on the line of said railroads by the Interior Department; and upon failure of said companies to establish such stations and depots, they shall be liable to a fine of \$500 for each day after Nov. 8, until said stations and depots shall be established.

UTAH, ADMISSION OF, AS A STATE.

The act of July 16, 1894, requires the Governor of said Territory to order an election on November 6, 1894, of delegates to a constitutional convention. All male citizens of the United States over twenty-one years of age, who have resided one year next prior to said election, in said Territory, are authorized to vote for delegates. There shall be 107 delegates, who are apportioned in the act among the counties. A new registration is to be made of the voters in the Territories, to which all possessing the qualifications stated above are eligible. No other test is to be required. The convention shall meet on the first Monday in March, 1895, shall declare on behalf of the people of said proposed State that they adopt the Constitution of the United States. The Constitution shall be republican in form, and make no distinction in civil or political rights on account of race or color, except as to Indians not taxed, and not to be repugnant to the Constitution of

the United States and the principles of the Declaration of Independence. And said convention shall provide, by ordinance irrevocable without the consent of the United States and the people of said State:

1. That perfect toleration of religious sentiment shall be secured, and that no inhabitant of said State shall ever be molested in person or property on account of his or her mode of religious worship: Provided, That polygamous or plural marriages are forever prohibited.

2. That the people inhabiting said proposed State do agree and declare that they forever disclaim all right and title to the unappropriated public lands lying within the boundaries thereof; and to all lands lying within said limits owned or held by any Indian or Indian tribes; the same shall be and remain subject to the disposition of the United States, and said Indian lands shall remain under the absolute jurisdiction and control of the Congress of the United States; that the lands belong to citizens of the United States residing without the said State shall never be taxed at a higher rate than the lands belonging to residents thereof.

3. That the debts and liabilities of said Territory, under authority of the legislative assembly thereof, shall be assumed and paid by said State.

4. That provision shall be made for the establishment and maintenance of a system of public schools, which shall be open to all the children of said State and free from sectarian control.

The Constitution shall be submitted for ratification by the voters at the November election in 1895. The return of said election shall be made to the said Utah commission, who shall cause the same to be canvassed, and if a majority of the votes cast on that question shall be for the constitution, shall certify the result to the President of the United States, together with a statement of the votes cast thereon, and upon separate articles or propositions, and a copy of said constitution, articles, propositions and ordinances. And if the constitution and government of said proposed State are republican in form, and if all the provisions of this act have been complied with in the formation thereof, it shall be the duty of the President of the United States to issue his proclamation announcing the result of said election, and thereupon the proposed State of Utah shall be deemed admitted by Congress into the Union, under and by virtue of this act, on an equal footing with the original States, from and after the date of said proclamation.

(In the House, December 13, 1893, the proviso prohibiting "polygamous or plural marriages" was inserted in the first paragraph of conditions, after a short struggle, in which the votes were taken by division.)

BILL FOR THE COINAGE OF THE SEIGNIORAGE.

In the second (first regular) session of the LIId Congress, on March 1, 1894, this bill was introduced:

"Be it enacted, etc., That the Secretary

of the Treasury shall immediately cause to be coined as fast as possible the silver bullion held in the Treasury, purchased under the act of July 14, 1890, entitled 'An act directing the purchase of silver bullion and the issuing of Treasury notes thereon, and for other purposes,' to the amount of the gain or seigniorage of such bullion, to wit: The sum of \$55,156,681, and such coin or the silver certificates issued thereon shall be used in the payment of public expenditures; and the Secretary of the Treasury may, in his discretion, if the needs of the Treasury demand it, issue silver certificates in excess of such coinage. Provided, That said excess shall not exceed the amount of the seigniorage as herein authorized to be coined.

"Sec. 2. After the coinage provided for in the first section of this act, the remainder of the silver bullion purchased in pursuance of said act of July 14, 1890, shall be coined into legal-tender standard silver dollars as fast as possible, and the coin shall be held in the Treasury for the redemption of the Treasury notes issued in the purchase of said

bullion. That as fast as the bullion shall be coined for the redemption of said notes the notes shall not be reissued, but shall be cancelled and destroyed in amounts equal to the coin held at any time in the Treasury, derived from the coinage herein provided for, and silver certificates shall be issued on such coin in the manner now provided by law. Provided, That this act shall not be construed to change existing law relating to the legal-tender character or mode of redemption of the Treasury notes issued under said act of July 14, 1890.

"That a sufficient sum of money is hereby appropriated to carry into effect the provisions of this act."

Passed the House of Representatives—years 168, nays 129, not voting 56.

On March 7, 1894, the bill passed the Senate without amendment—years 44, nays 34, not voting 10. On March 29, President Cleveland returned it to the House with his objections, and on April 4, failing to receive the necessary two-thirds vote—years 144, nays 114, not voting 95—it fell.

NATIONAL CONVENTIONS AND PLATFORMS OF 1892.

THE REPUBLICAN NATIONAL CONVENTION.

The tenth Republican National Convention met at Minneapolis on June 7, 1892. J. Sloat Fassett, of New-York, was elected temporary chairman, and Wm. McKinley, jr., of Ohio, permanent chairman. The following platform was unanimously reported on June 10 from the Committee on Resolutions, Joseph B. Foraker, of Ohio, chairman, and was unanimously adopted by the convention at the evening session:

REPUBLICAN PLATFORM, Adopted at Minneapolis, June 10, 1892.

"The representatives of the Republicans of the United States, assembled in general convention on the shores of the Mississippi River, the everlasting bond of an indestructible Republic, whose most glorious chapter of history is the record of the Republican party, congratulate their countrymen on the majestic march of the Nation under the banners inscribed with the principles of our platform of 1858, vindicated by victory at the polls and prosperity in our fields, workshops and mines, and make the following declaration of principles:

PROTECTION.—"We reaffirm the American doctrine of protection. We call attention to its growth abroad. We maintain that the prosperous condition of our country is largely due to the wise revenue legislation of the Republican Congress. We believe that all articles which cannot be produced in the United States, except luxuries, should be admitted free of duty, and that on all imports coming into competition with the products of American labor there should be levied duties equal to the difference between wages abroad and at home. We assert that the prices of manufactured articles of general consumption have been reduced under the operations of the tariff act of 1890. We denounce the efforts of the Democratic majority of the House of Representatives to destroy our tariff laws piecemeal, as is manifested by their attacks upon wool, lead and lead ores, the chief products of a number of States, and we ask the people for their judgment thereon.

RECIPROCITY.—"We point to the success of the Republican policy of reciprocity, under which our export trade has vastly increased, and new and enlarged markets have been opened for the products of our farms and workshops. We remind the people of the bitter opposition of the Democratic party to this practical business measure, and claim that, executed by a Republican Administration, our present laws will eventually give us control of the trade of the world.

SILVER.—"The American people, from tradition and interest, favor bimetallicism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions, to be determined by

legislation, as will secure the maintenance of the parity of values of the two metals, so that the purchasing and debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workmen, demand that every dollar, paper or coin, issued by the Government shall be as good as any other. We commend the wise and patriotic steps already taken by our Government to secure an international conference to adopt such measures as will insure a parity of value between gold and silver for use as money throughout the world.

FREE BALLOT AND FAIR COUNT.—"We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot in all public elections, and that such ballot shall be counted and returned as cast; that such laws shall be enacted and enforced as will secure to every citizen, be he rich or poor, native or foreign born, white or black, this sovereign right guaranteed by the Constitution. The free and honest popular ballot, the just and equal representation of all the people, as well as their just and equal protection under the laws, are the foundation of our republican institutions, and the party will never relax its efforts until the integrity of the ballot and the purity of elections shall be fully guaranteed and protected in every State.

SOUTHERN OUTRAGES.—"We denounce the continued inhuman outrages perpetrated upon American citizens for political reasons in certain Southern States of the Union.

FOREIGN RELATIONS.—"We favor the extension of our foreign commerce, the restoration of our mercantile marine by home-built ships and the creation of a Navy for the protection of our National interests and the honor of our flag; the maintenance of the most friendly relations with all foreign Powers, entangling alliances with none; and the protection of the rights of our fishermen. We reaffirm our approval of the Monroe Doctrine, and believe in the achievement of the manifest destiny of the Republic in its broadest sense. We favor the enactment of more stringent laws and regulations for the restriction of criminal, pauper and contract immigration.

MISCELLANEOUS.—"We favor efficient legislation by Congress to protect the life and limbs of employes of transportation companies engaged in carrying on interstate commerce, and recommend legislation by the respective States that will protect employes engaged in State commerce, and in mining and manufacturing.

"The Republican party has always been the champion of the oppressed, and recognizes the dignity of manhood, irrespective of faith, color or nationality; it sympathizes with the cause of Home Rule in Ireland, and protests against the persecution of the Jews in Russia.

"The ultimate reliance of free popular government is the intelligence of the people and the maintenance of freedom among men. We therefore declare anew our devotion to liberty of thought and conscience, of speech and press, and approve all agencies and instrumentalities which contribute to the education of the children of the land; but, while insisting upon the fullest measure of religious liberty, we are opposed to any union of Church and State.

TRUSTS.—"We reaffirm our opposition, declared in the Republican platform of 1888, to all combinations of capital organized in trust or otherwise, to control arbitrarily the condition of trade among our citizens. We heartily indorse the action already taken upon this subject, and ask for such further legislation as may be required to remedy any defects in existing laws and to render their enforcement more complete and effective.

POSTOFFICE REFORM.—"We approve the policy of extending to towns, villages and rural communities the advantages of the free delivery service now enjoyed by the larger cities of the country, and reaffirm the declaration contained in the Republican platform of 1888, pledging the reduction of letter postage to one cent at the earliest possible moment consistent with the maintenance of the Postoffice Department and the highest class of postal service.

CIVIL SERVICE.—"We commend the spirit and evidence of reform in the Civil Service, and the wise and consistent enforcement by the Republican party of the laws regulating the same.

NICARAGUA CANAL.—"The construction of the Nicaragua Canal is of the highest importance to the American people, both as a measure of National defence and to build up and maintain American commerce, and it should be controlled by the United States Government.

TERRITORIES.—"We favor the admission of the remaining Territories at the earliest practicable date, having due regard to the interests of the people of the Territories and of the United States. All the Federal officers appointed for the Territories should be selected from bona fide residents thereof, and the right of self-government should be accorded as far as practicable.

ARID LANDS.—"We favor cession, subject to the Homestead laws, of the arid public lands to the States and Territories in which they lie, under such Congressional restrictions as to disposition, reclamation and occupancy by settlers as will secure the maximum benefits to the people.

COLUMBIAN EXPOSITION.—"The World's Columbian Exposition is a great National undertaking, and Congress should promptly enact such reasonable legislation in aid thereof as will insure a discharge of the expenses and obligations incident thereto, and the attainment of results commensurate with the dignity and progress of the Nation.

INTEMPERANCE.—"We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

PENSIONS.—"Ever mindful of the services and sacrifices of the men who saved

the life of the Nation, we pledge anew to the veteran soldiers of the Republic a watchful care and recognition of their just claims upon a grateful people.

HARRISON'S ADMINISTRATION.—"We commend the able, patriotic and thoroughly American Administration of President Harrison. Under it the country has enjoyed remarkable prosperity, and the dignity and honor of the Nation at home and abroad have been faithfully maintained, and we offer the record of pledges kept as a guarantee of faithful performance in the future."

THE REPUBLICAN NOMINATIONS.

On June 11 Senator E. O. Wolcott, of Colorado, nominated for President James G. Blaine. R. W. Thompson, of Indiana, ex-Secretary of the Navy, nominated Benjamin Harrison. On the first ballot President Harrison was chosen for re-election. The vote by States was as follows:

THE DEMOCRATIC NATIONAL CONVENTION.

This body met in Chicago on June 21, 1892. William C. Owens, of Kentucky, was made temporary chairman, and William L. Wilson, of West Virginia, permanent chairman.

DEMOCRATIC PLATFORM, Adopted at Chicago, June 22, 1892.

"The representatives of the Democratic party of the United States, in National convention assembled, do reaffirm their allegiance to the principles of the party as formulated by Jefferson and exemplified by the long and illustrious line of his successors in Democratic leadership from Madison to Cleveland; we believe the public welfare demands that these principles be applied to the conduct of the Federal Government through the accession to power of the party that advocates them, and we solemnly declare that the need of a return to these fundamental principles of a free popular government based on home rule and individual liberty was never more urgent than now, when the tendency to centralize all power at the Federal Capital has become a menace to the reserved rights of the States that strikes at the very roots of our Government under the Constitution as framed by the fathers of the Republic.

ELECTIONS BILL.—"We warn the people of our common country, jealous for the preservation of their free institutions, that the policy of Federal control of elections, to which the Republican party has commended itself, is fraught with the gravest dangers, scarcely less momentous than would result from a revolution practically establishing monarchy on the ruins of the Republic. It strikes at the North as well as the South, and injures the colored citizens even more than the white; it means a horde of deputy marshals at every polling place armed with Federal power, returning boards appointed and controlled by Federal authority, the outrage of the electoral rights of the people in the several States, subjugation of the colored people to the control of the party in power, and the reviving of race antagonisms now happily abated, of the utmost peril to the safety and happiness of all, a measure deliberately and justly described by a leading Republican Senator as 'the most infamous bill that ever crossed the threshold of the Senate.' Such a policy, if sanctioned by law, would mean the dominance of a self-perpetuating oligarchy of office-holders, and the party first intrusted with its machinery could be dislodged from power only by an appeal to the reserved rights of the people to resist oppression which is inherent in all self-governing communities. Two years ago this revolutionary policy was emphatically condemned by the people at the

polls, but in contempt of that verdict the Republican party has defiantly declared in its latest authoritative utterance that its success in the coming elections will mean the enactment of the Force bill, and the usurpation of despotic control over elections in all the States. Believing that the preservation of republican government in the United States is dependent upon the defeat of this policy of legalized force and fraud, we invite the support of all citizens who desire to see the Constitution maintained in its integrity with the laws pursuant thereto which have given our country a hundred years of unexampled prosperity; and we pledge the Democratic party, if it be intrusted with power, not only to the defeat of the Force bill, but also to relentless opposition to the Republican policy of profligate expenditure which, in the short space of two years, has squandered an enormous surplus, emptied an overflowing Treasury, after piling new burdens of taxation upon the already overtaxed labor of the country.

TARIFF.—"We denounce Republican protection as a fraud, a robbery of the great majority of the American people for the benefit of the few. We declare it to be a fundamental principle of the Democratic party that the Federal Government has no constitutional power to impose and collect tariff duties, except for the purpose of revenue only; and we demand that the collection of such taxes shall be limited to the necessities of the Government when honestly and economically administered. We denounce the McKinley Tariff law enacted by the L1st Congress as the culminating atrocity of class legislation; we indorse the efforts made by the Democrats of the present Congress to modify its most oppressive feature in the direction of free raw materials and cheaper manufactured goods that enter into general consumption, and we promise its repeal as one of the beneficent results that will follow the action of the people in intrusting power to the Democratic party. Since the McKinley tariff went into operation there have been ten reductions of the wages of the laboring man to one increase. We deny that there has been any increase of prosperity to the country since the tariff went into operation, and we point to the dulness and distress, the wage reductions and strikes in the iron trade as the best possible evidence that no such prosperity has resulted from the McKinley act. We call the attention of thoughtful Americans to the fact that after thirty years of restrictive taxes against the importation of foreign wealth, in exchange for our agricultural surplus, the homes and farms of the country have become burdened with a real estate mortgage debt of over \$2,500,000, exclusive of all other forms of indebtedness; that in one of the chief agricultural States of the West there appears a real estate mortgage debt averaging \$165 per capita of the total population, and that similar conditions and tendencies are shown to exist in other agricultural exporting States. We denounce a policy which fosters no industry so much as it does that of the sheriff.

RECIPROCITY.—"Trade interchange on the basis of reciprocal advantages to the countries participating is a time-honored

doctrine of the Democratic faith, but we denounce the sham reciprocity which juggles with the people's desire for enlarged foreign markets and freer exchanges by pretending to establish closer trade relations for a country whose articles of export are almost exclusively agricultural products with other countries that are also agricultural, while erecting a custom-house barrier of prohibitive tariff taxes against the rich and the countries of the world that stand ready to take our entire surplus of products and to exchange therefor commodities which are necessities and comforts of life among our people.

TRUSTS.—"We recognize in the trusts and combinations which are designed to enable capital to secure more than its just share of the joint product of capital and labor a natural consequence of the prohibitive taxes which prevent the free competition which is the life of honest trade, but we believe their worst evils can be abated by law, and we demand the rigid enforcement of the laws made to prevent and control them, together with such further legislation in restraint of their abuses as experience may show to be necessary.

PUBLIC LANDS.—"The Republican party, while professing a policy of reserving the public land for small holdings by actual settlers, has given away the people's heritage, till now a few railroads and non-resident aliens, individual and corporate, possess a larger area than that of all our farms between the two seas. The last Democratic Administration reversed the improvident and unwise policy of the Republican party touching the public domain, and reclaimed from corporations and syndicates, abroad and domestic, and restored to the people nearly one hundred million acres of valuable land to be sacredly held as homesteads for our citizens, and we pledge ourselves to continue this policy until every acre of land so unlawfully held shall be reclaimed and restored to the people.

SILVER.—"We denounce the Republican legislation known as the Sherman act of 1890 as a cowardly makeshift, fraught with possibilities of danger in the future, which should make all of its supporters, as well as its author, anxious for its speedy repeal. We hold to the use of both gold and silver as the standard money of the country, and to the coinage of both gold and silver, without discriminating against either metal or charge for mintage, but the dollar unit of coinage of both metals must be of equal intrinsic and exchangeable value or be adjusted through international agreement, or by such safeguards of legislation as shall insure the maintenance of the parity of the two metals and the equal power of every dollar at all times in the markets and in payments of debts and we demand that all paper currency shall be kept at par with and redeemable in such coin. We insist upon this policy as especially necessary for the protection of the farmers and laboring classes, the first and most defenceless victims of unstable money and a fluctuating currency.

BANKING.—"We recommend that the prohibitory 10 per cent tax on State bank issues be repealed.

CIVIL SERVICE.—"Public office is a public trust. We reaffirm the declaration of the Democratic National Convention of 1876 for the reform of the civil service, and we call for the honest enforcement of all laws regulating the same. The nomination of a President, as in the recent Republican Convention, by delegations composed largely of his appointees, holding office at his pleasure, is a scandalous satire upon free popular institutions and a startling illustration of the methods by which a President may gratify his ambition. We denounce a policy under which Federal office-holders usurp control of party conventions in the States, and we pledge the Democratic party to the reform of these and all other abuses which threaten individual liberty and local self-government.

FOREIGN POLICY.—"The Democratic party is the only party that has ever given the country a foreign policy consistent and vigorous, compelling respect abroad and inspiring confidence at home. While avoiding entangling alliances, it has aimed to cultivate friendly relations with other nations, and especially with our neighbors on the American continent, whose destiny is closely linked with our own, and we view with alarm the tendency to a policy of irritation and bluster which is liable at any time to confront us with the alternative of humiliation or war. We favor the maintenance of a navy strong enough for all purposes of National defence, and to properly maintain the honor and dignity of the country abroad.

FOREIGN OPPRESSION.—"This country has always been the refuge of oppressed from every land—exiles for conscience sake—and in the spirit of the founders of our Government we condemn the oppression practised by the Russian Government upon its Lutheran and Jewish subjects, and we call upon our National Government, in the interests of justice and humanity, by all just and proper means to use its prompt and best effort to bring about a cessation of these cruel persecutions in the dominions of the Czar, and to secure to the oppressed equal rights. We tender our profound and earnest sympathy to those lovers of freedom who are struggling for home rule and the great cause of local self-government in Ireland.

IMMIGRATION.—"We heartily approve all legitimate efforts to prevent the United States from being used as a dumping ground for the known criminals and professional paupers of Europe, and we demand the rigid enforcement of the laws against Chinese immigration or the importation of foreign workmen under contract to degrade American labor and lessen its wages, but we condemn and denounce any and all attempts to restrict the immigration of the industrious and worthy of foreign lands.

PENSIONS.—"This convention hereby renews the expression of appreciation of the patriotism of the soldiers and sailors of the Union in the war for its preservation, and we favor just and liberal pensions for all disabled Union soldiers, their widows and dependents, but we demand that the work of the Pension Office shall be done industriously, impartially and honestly. We denounce the present ad-

ministration of that office as incompetent, corrupt, disgraceful and dishonest.

WATERWAYS.—"The Federal Government should care for and improve the Mississippi River and other great waterways of the Republic so as to secure for the interior States easy and cheap transportation to the tidewater. When any waterway of the public is of sufficient importance to demand the aid of the Government—that such aid should be extended, a definite plan of continuous work, until permanent improvement is secured.

NICARAGUA CANAL.—"For purposes of National defence, the promotion of commerce between the States, we recognize the early construction of the Nicaragua Canal and its protection against foreign control as of great importance to the United States.

WORLD'S FAIR.—"Recognizing the World's Columbian Exposition as a National undertaking of vast importance, in which the General Government has invited the co-operation of all the powers of the world, and appreciating the acceptance by many of such powers of the invitation so extended, and the broadest liberal efforts being made by them to contribute to the grandeur of the undertaking, we are of the opinion that Congress should make such necessary financial provisions as shall be requisite to the maintenance of the National honor and public faith.

PUBLIC SCHOOLS.—"Popular education being the only safe basis of popular suffrage, we recommend to the several States most liberal appropriations for the public schools. Free common schools are the nursery of good government, and they have always received the fostering care of the Democratic party, which favors every means of increasing intelligence. Freedom of education, being an essential of civil and religious liberty as well as a necessity for the development of intelligence, must not be interfered with under any pretext whatever. We are opposed to State interference with parental rights and rights of conscience in the education of children as an infringement of a fundamental Democratic doctrine that the largest individual liberty consistent with the rights of others insures the highest type of American citizenship and the best government.

TERRITORIES.—"We approve the action of the present House of Representatives in passing bills for the admission into the Union as States of the Territories of New-Mexico and Arizona, and we favor the early admission of all the Territories having necessary population and resources to admit them to Statehood, and while they remain Territories we hold that the officials appointed to administer the Government of any Territory, together with the District of Columbia and Alaska, should be bona fide residents of the Territory or district in which their duties are to be performed. The Democratic party believe in home rule and the control of their own affairs by the people of the vicinage.

LABOR.—"We favor legislation by Congress and State Legislatures to protect the lives and limbs of railway employes and those of other hazardous transportation companies, and denounce the inactivity of

the Republican party, particularly the Republican Senate, for causing the defeat of measures beneficial and protective to this class of wage-workers. We are in favor of the enactment by the States of laws for abolishing the notorious sweating system, for abolishing contract convict labor and for prohibiting the employment in factories of children under fifteen years of age.

MISCELLANEOUS.—"We are opposed to all summary law as an interference with the individual rights of the citizen. Upon this statement of principles and policies the Democratic party asks the intelligent judgment of the American people. It asks a change of administration and a change of party, in order that there might be a change of system and a change of methods, thus assuring the maintenance unimpaired of institutions under which the Republic has grown great and powerful."

The Platform, as reported from the Committee on Resolutions, contained this declaration, as the first paragraph of Section 3, with the heading "Revenue Tariffs":

"We reiterate the oft-repeated doctrines of the Democratic party that the necessity of the Government is the only justification for taxation, and whenever a tax is unnecessary it is unjustifiable; that when custom-house taxation is levied upon articles of any kind produced in this country, the difference between the cost of labor here and labor abroad, when such a difference exists, fully measures any possible benefits to labor, and the enormous additional impositions of the existing tariff fall with crushing force upon our farmers and workmen, and for the mere advantage of the few whom it enriches, exact from labor a grossly unjust share of the expenses of the Government, and we demand such a revision of the tariff laws as will remove their iniquitous inequalities, lighten their oppressions and put them on a constitutional and equitable basis. But in making reduction in taxes it is not proposed to injure any domestic industries, but rather to promote their healthy growth. From the foundation of this Government taxes collected at the Custom House have been the chief source of Federal revenue. Such they must continue to be. Moreover, many industries have come to rely upon legislation for successful continuance, so that any change of law must be at every step regardful of the labor and capital thus involved. The process of reform must be subject in the execution of this plain dictate of justice."

On motion of Lawrence T. Neal, of Ohio, the above paragraph was struck from the Platform and the following substituted:

"We denounce Republican Protection as a fraud, a robbery of the great majority of the American people for the benefit of the few. We declare it to be a fundamental principle of the Democratic party that the Federal Government has no constitutional power to impose and to collect tariff duties, except for the purpose of revenue only, and we demand that the collection of such taxes shall be limited to the necessities of the Government when honestly and economically administered."

The vote on striking out was—Yeas 564, nays 342, as follows:

THE PEOPLE'S PARTY CONVENTION.

This body met at Omaha, July 2, 1892. C. H. Ellington, of Georgia, was chosen temporary chairman, and H. L. Loucks, of South Dakota, permanent chairman.

THE PLATFORM.

"Assembled upon the one hundred and sixteenth anniversary of the Declaration of Independence, the People's Party of America, in their first National Convention, invoking upon their action the blessing of Almighty God, puts forth, in the name and on behalf of the people of this country, the following preamble and declaration of principles:

"The conditions which surround us best justify our co-operation. We meet in the midst of a nation brought to the verge of moral, political and material ruin. Corruption dominates the ballot-box, the Legislatures, the Congress, and touches even the ermine of the Bench. The people are demoralized; most of the States have been compelled to isolate the voters at the polling places to prevent universal intimidation or bribery. The newspapers are largely subsidized or muzzled, public opinion silenced, business prostrated, our homes covered with mortgages, labor impoverished, and the land concentrating in the hands of capitalists. The urban workmen are denied the right of organization for self-protection; imported pauperized labor beats down their wages; a hireling standing army, unrecognized by our laws, is established to shoot them down, and they are rapidly degenerating into European conditions. The fruits of the toil of millions are boldly stolen to build up colossal fortunes for a few, unprecedented in the history of mankind, and the possessors of these in turn despise the Republic and endanger liberty. From the same prolific womb of governmental injustice we breed the two great classes—tramps and millionaires.

"The national power to create money is appropriated to enrich bondholders; a vast public debt, payable in legal tender currency, has been funded into gold-bearing bonds, thereby adding millions to the burdens of the people. Silver, which has been accepted as coin since the dawn of history, has been demonetized to add to the purchasing power of gold by decreasing the value of all forms of property as well as human labor, and the supply of currency is purposely abridged to fatten usurers, bankrupt enterprise and enslave industry.

"A vast conspiracy against mankind has been organized on two continents, and it is rapidly taking possession of the world. If not met and overthrown at once, it forebodes terrible social convulsions, the destruction of civilization, or the establishment of an absolute despotism. We have witnessed, for more than a quarter of a century, the struggles of the two great political parties for power and plunder, while grievous wrongs have been inflicted upon the suffering people. We charge that the controlling influences dominating both these parties have permitted the existing dreadful conditions to develop without serious

effort to prevent or restrain them. Neither do they now promise us any substantial reform. They have agreed together to ignore, in the coming campaign, every issue but one. They propose to drown the outcries of a plundered people with the uproar of a sham battle over the tariff, so that capitalists, corporations, National banks, rings, trusts, watered stock, the demonetization of silver, and the oppressions of the usurers may all be lost sight of. They propose to sacrifice our homes, lives and children on the altar of Mammon; to destroy the multitude in order to secure corruption funds from the millionaires.

"Assembled on the anniversary of the birthday of the Nation, and filled with the spirit of the grand general and chieftain who established our independence, we seek to restore the Government of the Republic to the hands of the 'plain people' with whose class it originated. We assert our purposes to be identical with the purposes of the National Constitution, to form a more perfect union, and establish justice, insure domestic tranquility, provide for the common defence, promote the general welfare, and secure the blessings of liberty for ourselves and our posterity. We declare that this Republic can only endure as a free government while built upon the love of the whole people for each other and for the Nation; that it cannot be pinned together by bayonets; that the Civil War is over, and that every passion and resentment which grew out of it must die with it, and that we must be in fact, as we are in name, one united brotherhood of freedom.

"Our country finds itself confronted by conditions for which there is no precedent in the history of the world; our annual agricultural productions amount to billions of dollars in value, which must within a few weeks or months be exchanged for billions of dollars' worth of commodities consumed in their production; the existing currency supply is wholly inadequate to make this exchange; the results are falling prices, the formation of combines and rings, the impoverishment of the producing class. We pledge ourselves that, if given power, we will labor to correct these evils by wise and reasonable legislation, in accordance with the terms of our platform. We believe that the powers of Government—in other words, of the people—should be expanded (as in the case of the postal service) as rapidly and as far as the good sense of an intelligent people and the teachings of experience shall justify, to the end that oppression, injustice and poverty shall eventually cease in the land.

"While our sympathies as a party of reform are naturally upon the side of every proposition which will tend to make men intelligent, virtuous and temperate, we nevertheless regard these questions—important as they are—as secondary to the great issues now pressing for solution, and upon which not only our individual prosperity, but the very existence of free institutions depends; and we ask all men to first help us to determine whether we are to have a Republic to administer, before we differ as to the conditions upon which it is to be administered; believing that the forces of re-

form this day organized will never cease to move forward until every wrong is righted, and equal rights and equal privileges securely established for all the men and women of this country. We declare, therefore,

"1. That the union of the labor forces of the United States this day consummated shall be permanent and perpetual; may its spirit enter into all hearts for the salvation of the Republic and the uplifting of mankind.

"2. Wealth belongs to him who creates it, and every dollar taken from industry without an equivalent is robbery. 'If any will not work, neither shall he eat.' The interests of rural and civic labor are the same; their enemies are identical.

"3. We believe that the time has come when the railroad corporations will either own the people or the people must own the railroads; and should the Government enter upon the work of owning and managing all railroads, we should favor an amendment to the Constitution by which all persons engaged in the Government service shall be placed under a civil service regulation of the most rigid character, so as to prevent the increase of the power of the National Administration by the use of such additional Government employes.

MONEY.—"1. We demand a National currency, safe, sound and flexible, issued by the General Government only, a full legal tender for all debts public and private, and that without the use of banking corporations; a just, equitable and efficient means of distribution direct to the people at a tax not to exceed 2 per cent per annum, to be provided as set forth in the Sub-Treasury plan of the Farmers' Alliance, or a better system; also by payments in discharge of its obligations for public improvements.

"(A) We demand free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1.

"(B) We demand that the amount of circulating medium be speedily increased to not less than \$50 per capita.

"(C) We demand a graduated income tax.

"(D) We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all State and National revenues shall be limited to the necessary expenses of the Government, economically and honestly administered.

"(E) We demand that Postal Savings Banks be established by the Government for the safe deposit of the earnings of the people and to facilitate exchange.

TRANSPORTATION.—"2. Transportation being a means of exchange and a public necessity, the Government should own and operate the railroads in the interest of the people. The telegraph and telephone, like the postoffice system, being a necessity for the transmission of news, should be owned and operated by the Government in the interests of the people.

LAND.—"3. The land, including all the natural sources of wealth, is the heritage of the people and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs, and all lands now owned by

aliens, should be reclaimed by the Government and held for actual settlers only."

The following supplementary resolutions, not to be incorporated in the platform, came from the Committee on Resolutions and were adopted, as follows:

"Whereas, Other questions having been presented for our consideration, we hereby submit the following, not as a part of the Platform of the People's party, but as resolutions expressive of the sentiment of this convention:

ELECTIONS.—"1. Resolved, That we demand a free ballot and fair count at all elections, and pledge ourselves to secure it to every legal voter without Federal intervention, through the adoption by the States of the unperverted Australian or secret ballot system.

TAXATION.—"2. That the revenue derived from a graduated income tax should be applied to the reduction of the burden of taxation now resting upon the domestic industries of this country.

PENSIONS.—"3. That we pledge our support to fair and liberal pensions to ex-Union soldiers and sailors.

IMMIGRATION.—"4. That we condemn the fallacy of protecting American labor under the present system, which opens our ports to the pauper and criminal classes of the world, and crowds out our wage-earners; and we denounce the present ineffective laws against contract labor, and demand the further restriction of undesirable immigration.

EIGHT-HOUR LAW.—"5. That we cordially sympathize with the efforts of organized workmen to shorten the hours of labor and demand a rigid enforcement of the existing Eight-Hour law on Government work, and ask that a penalty clause be added to the said law.

PINKERTON MEN.—"6. That we regard the maintenance of a large standing army of mercenaries, known as the Pinkerton system, as a menace to our liberties, and we demand its abolition; and we condemn the recent invasion of the Territory of Wyoming by the hired assassins of plutocracy, assisted by Federal officials.

MISCELLANEOUS.—"7. That we commend to the favorable consideration of the people and to the reform press the legislative system known as the initiative and referendum.

"8. That we favor a constitutional provision limiting the office of President and Vice-President to one term, and providing for the election of Senators of the United States by a direct vote of the people.

"9. That we oppose any subsidy or national aid to any private corporation for any purpose.

"10. That this convention sympathizes with the Knights of Labor and their righteous contest with the tyrannical combine of clothing manufacturers of Rochester, and declares it to be the duty of all who hate tyranny and oppression to refuse to purchase the goods made by the said manufacturers, or to patronize any merchants who sell such goods."

THE NOMINATIONS.

The following were placed in nomination for President: James B. Weaver, of Iowa; James H. Kyle, South Dakota;

James G. Field, Virginia, and Mann Page, Virginia. The vote on the morning of July 5 resulted as follows: James B. Weaver, 995; James H. Kyle, 265.

For Vice-President, James G. Field, of Virginia, was chosen by a vote of 733 to 554 for Ben Terrell, of Texas.

THE PROHIBITION CONVENTION.

This body met at Cincinnati, June 29, 1892. John P. St. John, of Kansas, was chosen temporary chairman, and Eli Ritter, of Indiana, permanent president.

THE PLATFORM.

"The Prohibition party, in National Convention assembled, acknowledging Almighty God as the source of all true government, and His law as the standard to which human enactments must conform to secure the blessings of peace and prosperity, presents the following declaration of principles:

LIQUOR.—"1. The liquor traffic is a foe to civilization, the arch-enemy of popular government, and a public nuisance. It is the citadel of the forces that corrupt politics, promote poverty and crime, degrade the Nation's home life, thwart the will of the people, and deliver our country into the hands of rapacious class interests. All laws that, under the guise of regulation, legalize and protect this traffic or make the Government share in its ill-gotten gains, are 'vicious in principle and powerless as a remedy.' We declare anew for the entire suppression of the manufacture, sale, importation, exportation and transportation of alcoholic liquors as a beverage by Federal and State legislation, and the full powers of Government should be exerted to secure this result. No party that fails to recognize the dominant nature of this issue in American politics is deserving of the support of the people.

WOMAN SUFFRAGE.—"2. No citizen should be denied the right to vote on account of sex, and equal labor should receive equal wages, without regard to sex.

MONEY.—"3. The money of the country should consist of gold, silver and paper, and be issued by the General Government only, and in sufficient quantity to meet the demands of business and give full opportunity for the employment of labor. To this end an increase in the volume of money is demanded. No individual or corporation should be allowed to make any profit through its issue. It should be made a legal tender for the payment of all debts, public and private. Its volume should be fixed at a definite sum per capita, and made to increase with our increase in population.

SILVER.—"4. We favor the free and unlimited coinage of gold and silver. (This plank was stricken out by the convention by a vote of 335 for to 596 against it.)

TARIFF.—"5. Tariff should be levied only as a defence against foreign Governments which levy tariff upon or bar out our products from their markets, revenues being incidental. The residue of means necessary to an economical administra-

tion of the Government should be raised by levying a burden on what the people possess, instead of upon what they consume.

CORPORATIONS.—"6. Railroad, telegraph and other public corporations should be controlled by the Government in the interest of the people, and no higher charges allowed than necessary to give the right of trial by constitutional tribunals.

IMMIGRATION AND NATURALIZATION.—"7. Foreign immigration has become a burden upon industry, one of the factors in depressing wages and causing discontent; therefore our immigration laws should be revised and strictly enforced. The time of residence for naturalization should be extended, and no naturalized person should be allowed to vote until one year after he becomes a citizen.

LAND.—"8. Non-resident aliens should not be allowed to acquire land in this country, and we favor the limitation of individual and corporate ownership of land. All unearned grants of lands to railroad companies or other corporations should be reclaimed.

MOB LAW.—"9. Years of inaction and treachery on the part of the Republican and Democratic parties have resulted in the present reign of mob law, and we demand that every citizen be protected in the right of trial by constitutional tribunals.

MISCELLANEOUS.—"10. All men should be protected by law in their right to one day of rest in seven.

"11. Arbitration is the wisest and most economical and humane method of settling National differences.

"12. Speculations in margins, the cornering of grain, money and products, and the formation of pools, trusts and combinations for the arbitrary advancement of prices should be suppressed.

"13. We pledge that the Prohibition party if elected to power will ever grant just pensions to disabled veterans of the Union Army and Navy, their widows and orphans.

"14. We stand unequivocally for the American public school, and opposed to any appropriation of public moneys for sectarian schools. We declare that only by united support of such common schools, taught in the English language, can we hope to become and remain a homogeneous and harmonious people.

REPUBLICANS AND DEMOCRATS.—

"15. We arraign the Republican and Democratic parties as false to the standards reared by their founders; as faithless to the principles of the illustrious leaders of the past to whom they do homage with the lips; as recrant to the 'higher law,' which is as inflexible in political affairs as in personal life, and as no longer embodying the aspirations of the American people, or inviting the confidence of enlightened, progressive patriotism. Their protest against the admission of 'moral issues' into politics is a confession of their own moral degeneracy. The declaration of an eminent authority that municipal misrule is 'the one conspicuous failure of American politics' follows as a natural consequence of such degeneracy, and it is true alike of cities under Republican and

Democratic control. Each accuses the other of extravagance in Congressional appropriations, and both are alike guilty; each protests when out of power against infraction of the civil service laws, and each when in power violates those laws in letter and in spirit; each professes fealty to the interests of the toiling masses, but both covertly truckle to the money power in their administration of public affairs. Even the tariff issue, as represented in the Democratic Mills bill and the Republican McKinley bill, is no longer treated by them as an issue between great and divergent principles of government, but is a mere catering to different sectional and class interests. The attempt in many States to wrest the Australian ballot system from its true purpose, and to so deform it as to render it extremely difficult for new parties to exercise the rights of suffrage, is an outrage upon popular government. The competition of both these parties for the vote of the slums, and their assiduous courting of the liquor power and subserviency to the money power, have resulted in placing those powers in the position of practical arbiters of the destinies of the Nation. We renew our protest against these perilous tendencies, and invite all citizens to join us in the upbuilding of a party that has shown in five National campaigns that it prefers temporary defeat to an abandonment of the claims of justice, sobriety, personal rights and the protection of American homes.

PROHIBITION.—"16. Recognizing and declaring that prohibition of the liquor traffic has become the dominant issue in National politics, we invite to full party fellowship all those who on this one dominant issue are with us agreed in the full belief that this party can and will remove sectional differences, promote National unity, and insure the best welfare of our entire land."

For the third resolution a minority report favored "the issue of legal-tender Treasury notes, exchangeable in gold or silver bullion, on a plan similar to that which now floats \$340,000,000 of greenbacks on \$100,000,000 of gold reserve and make them more acceptable and convenient than either gold or silver coin." This was defeated on a rising vote—yeas 316, nays 337.

For the fifth resolution, the minority reported a substitute declaring that the tariff should be so levied as to furnish revenue for the needs of the Government economically administered, relieving necessities used by the mass of the people, and for the benefit of labor, protecting American productions and manufactures against the competition of foreign nations, and suggesting the appointment of a tariff commission.

This was defeated by a large vote.

The sixteenth resolution was reported by a minority of the Committee on Resolutions. After animated debate it was defeated, its friends being unable to rally the 200 votes necessary to order a vote by States. Subsequently it was taken from the table, and by a rising vote added to the platform; which, with the fourth paragraph out, was then adopted, as reported by James Black, chairman of the committee.

STATE PLATFORMS.

ALABAMA DEMOCRATIC.

May 24, 1894.

ADMINISTRATION.—"The Democracy of Alabama, in convention assembled, reaffirm the principles of the Democratic party as declared in its platform adopted at Chicago in 1892, and congratulates the country upon the success of those principles in the triumphant election of Grover Cleveland, who, by his generous treatment of our people, has shown that he is the President of the whole country, knowing no North, no South, no East, no West. We recognize the wisdom and patriotism of the President, and believe in his fealty to the principles of our party, and indorse his Administration of the Federal Government; while some of us differ with him in matters of policy, we are agreed in the belief that he is actuated by motives of the highest patriotism and by an unselfish devotion to the greatest good of the whole people."

SILVER.—"While there are differences of opinion among us in matters of detail, we all believe in the free coinage of silver whenever it can be done consistently with the maintenance of a sound and safe currency."

STATE BANK TAX.—"We earnestly urge upon our Senators and Representatives in Congress the speedy reform of the tariff and the prompt repeal of the 10 per cent tax on the issue of State banks."

NICARAGUA CANAL.—"Favors the construction and operation of the Nicaragua Canal."

MISCELLANEOUS.—"Pledges the maintenance of a system of free public schools."

ALABAMA JEFFERSONIAN DEMOCRATIC, 1894.

SILVER AND CURRENCY.—"We demand the free coinage of gold and silver on the basis of 16 to 1; we denounce the demonetization of silver by the Democratic Congress as destructive of the prosperity of the industrial masses; we demand the expansion of the circulating medium to \$50 per capita; we protest against the control of the circulating medium by corporate enterprises."

TARIFF.—"We demand a tariff for revenue, and that the revenue necessary to meet the expenses of the Government be raised, so far as possible, by a tariff on importations; and that this tariff be so levied as to protect the laborer in the mines, the mills, the shops and on the farms, and their products, against the labor of foreign countries."

INCOME TAX.—"We demand a National graduated income tax on salaries or incomes in excess of reasonable expenditures for the comforts and necessities of life."

LABOR.—"Demands that the convicts shall be removed from the mines, and that the present lien laws be so amended as to give miners the same benefits accorded to other laborers, and the enactment of such laws as will secure to them payment of wages in lawful money and semi-monthly."

ARKANSAS REPUBLICAN.

July 24, 1894.

PRINCIPLES.—"The Republicans of Arkansas in State Convention assembled reaffirm the platform of principles by the Republican National Convention of 1892."

TARIFF.—"We recognize the tariff legislation of the Republican party and the policy upon which such legislation was founded as being the ablest expression of patriotic principle relating to that subject ever enacted by an American Congress, and denounce any attempt to repeal or amend it which does not recognize protection to American labor and industries. The Republican party by its policy of protection to American industries has enabled the laboring man to demand and receive living wages for his labor, and we sympathize with the deplorable condition of the laboring masses caused by the success of the Democratic free trade party, and the rights of labor should be protected by an enlightened liberal policy."

CURRENCY.—"The American people from tradition and interest favor bimetallism, and the Republican party demands the use of both gold and silver as a standard money, with such restrictions and under such provisions to be determined by legislation as will secure and maintain the parity of values of the two metals, so that the purchasing and debt-paying power of a dollar, whether of silver, gold or paper, shall be at all times equal."

PENSIONS.—"We denounce the present Democratic National Administration as notoriously incompetent to properly conduct the affairs of the Government in any of its departments, and as unpatriotic in the illiberal policy toward the Union soldiers of the late war, and especially in its wholly unjustifiable attempt to cast discredit and dishonor upon that meritorious class of our fellow-citizens."

ARKANSAS DEMOCRATIC.

June 27, 1894.

TARIFF.—"We insist upon a strict compliance with the repeated declarations of the party in favor of a tariff for revenue only, to the end that the protection gathered by the Republican party and crystallized in the infamous discriminations of the McKinley tariff bill shall be annulled and a fair competition in the markets of the world shall be opened to the producers of all classes in the United States, and fair exchange for our surplus products thereby secured."

INCOME TAX.—"To the end that taxation may be distributed on an equitable basis and accumulated property pay its fair share of the expenses of the Government which have for so long a time been borne by the consumption of the people, we favor an income tax."

SILVER.—"We still consider the act of 1873, whereby silver was demonetized, as the greatest legislative crime of the century, and demand the free and unlimited coinage of both gold and silver at a ratio of 16 to 1, as then existed."

BOND ISSUE.—"We believe the constitutional power to borrow money should

be exercised by Congress only in the event of great emergencies when the power to levy and collect taxes commensurate with the requirements of the occasion can not be enforced without manifest oppression of the people. Therefore, we are opposed to the issue of bonds in time of peace."

FEDERAL ELECTIONS.—"We congratulate the Democratic party and the people upon the repeal of the odious Federal election law."

LIQUOR QUESTION.—"Believing that home rule and local self-government are cardinal principles in a Republican Government, we therefore indorse and approve the action of the Legislature of Arkansas in enacting laws relegating to the people the right of settling the liquor question for themselves in accordance with the wishes and sentiments of the country affected."

ARKANSAS POPULIST.

July 20, 1894.

Declares "the leaders of the Democratic party are incompetent and untrustworthy"; that "millions of our citizens are looking starvation in the face"; that "business from ocean to ocean, and from the great lakes to the greatest gulf is prostrate and paralyzed"; that "the Democratic Administration has increased the public debt by issuing \$50,000,000 interest-bearing non-taxable gold bonds without authority, and refuses to use the idle millions of silver stored in the vaults of the Treasury to meet the needs of the Government."

Declares in favor of the free and unlimited coinage of silver at the ratio of 16 to 1, without waiting for the co-operation of any other Government; favors a single-term only for President and Vice-President, and the election of United States Senators by direct vote of the people; demands the restriction of immigration; denounces the repeal of the "purchasing clause of the silver act of 1890, at the dictation of Grover Cleveland, John Sherman and Wall Street"; favors an efficient public school system, and demands a uniform series of text books for public schools to be furnished to all pupils, at cost, by the State; favors the arbitration of all differences between employers and employes; favors the consolidation of the State and National elections, also the employment of convicts on the public roads and on farms to the extent of producing supplies to support all.

CALIFORNIA REPUBLICAN.

June 20, 1894.

Reaffirms devotion to and belief in the principles enunciated in the Republican National Platform of 1892, and again pronounces in favor of protection and reciprocity as expressed in the McKinley Tariff bill.

TARIFF.—"We favor the protection of American industry and American labor, and demand the continuance of the tariff system, which, under the administration of the Republican party, brought prosperity to the country, good wages to the laborer, happiness to the people, and glory to the nation. We denounce the

Democratic attempt to imitate the English free-trade system, and hold it responsible for the widespread depression, which has resulted in throwing hundreds of thousands of American workmen out of employment, stopping the wheels of many factories, scattering ruin and desolation throughout the land, frightening capital and starving labor. We oppose the passage of the so-called 'Wilson bill,' with all its amendments, as being a sectional attempt to injure the producers, manufacturers and laborers of the nation, and a corrupt surrender to trusts, which will result in raising the price of the necessities of life, while at the same time it will constantly increase the deficiency in the National revenue, which deficiency will be met by such odious war measures as an income tax and increased internal duties." Demands that the wool industry shall be guarded by appropriate legislation from unfair competition with foreign countries; also that the seedless raisin of the State, corresponding to the Zante product, and other raisins, shall be protected by the imposition of a protective duty on the "Zante currants," and all other dried grapes and fruits.

PENSIONS.—Denounces the "treatment accorded the veterans of the Civil War regarding their pensions, by the Interior Department of the present Democratic National Administration, as an insult to the honored Union soldier and sailor.

FEDERAL ELECTION LAWS.—Denounces the "action of the Democratic Congress and the Democratic President in repealing the Federal Election laws.

HAWAII.—Declares that the Democratic Administration, in its policy toward the Hawaiian Islands, has "violated the settled policy of the Republic, caused the President of the United States to go beyond his constitutional authority, disregarded the amity that should exist between nations at peace, and has thus brought unnecessary reproach upon the American Nation."

SILVER.—Favors the free and unlimited coinage of silver, at the ratio of 16 to 1, and the making of silver, as well as gold, a legal tender in payment of all debts, both public and private.

IMMIGRATION.—Demands the enactment and strict enforcement of such laws as will absolutely and effectually prohibit the immigration of all foreign laborers, both skilled and unskilled, into this country.

NICARAGUA CANAL.—Demands from the general Government that it aid in the immediate construction of the Nicaragua Canal, and that it manage and control the same after its completion.

NATURALIZATION.—Favors an amendment to the naturalization laws that will prevent one being made a citizen who is not of good repute, or who cannot read and write the English language.

WOMAN SUFFRAGE.—Favors the extension of the right of suffrage to all citizens of the United States, both men and women.

CHINESE.—Demands the strict enforcement of the Exclusion act, and all other legislation looking toward the removal of the Chinese, and the prevention of any more coming to the United States.

MISCELLANEOUS.—Opposes the creation of any more State Commissions, and favors the abolition or consolidation of commissions wherever it can be done without impairing the efficiency or injuring the interests of the State.

CALIFORNIA DEMOCRATIC.

August 23, 1894.

ADMINISTRATION.—Reaffirms devotion to and belief in the principles enunciated in the National Democratic platform of 1892, and approves and indorses the Administration of Grover Cleveland, and expresses confidence in his judgment and patriotism, and in his ability to guide the destinies of the Republic through the difficulties by which it is beset.

TARIFF.—"Congratulates the Democratic party and the people of the United States upon the fact that, notwithstanding the opposition of the Republican party a substantial measure of tariff reform has been enacted."

TRUSTS.—Demands the enactment of such laws as will suppress all trusts and combinations.

MONEY.—Favors the retirement of all gold coins and paper currency below the denomination of \$10 in order to restore silver to its full use as a circulating medium; also the reopening of the mints of the United States to the coinage of both gold and silver without discrimination on such basis as will maintain their parity.

MISCELLANEOUS.—Favors the creation of a National Irrigation Commission; National and State aid toward the systematic improvement of the rivers of the State; the absolute control by the people of every agency of commerce created or fostered by Government means; demands that the Nicaragua Canal be constructed as speedily as possible under Government control; favors the enactment and enforcement of laws for the permanent prosperity of the mining industry, and such National and State aid as will promote hydraulic mining; opposes all unnecessary restraints upon the acquisition by citizens of title to mineral lands; favors Congressional legislation to protect American seamen from oppression and maltreatment; advocates the passage and rigid enforcement of the immigration, exclusion and deportation laws; favors the election of United States Senator by direct vote of the people; also such changes in the Constitution as may assemble Congress as soon after election as possible; demands that each nominee for Congress shall pledge himself to "oppose any attempt and vote against any bill to extend the time for the payment to the Government of the Pacific Railroad debts."

CALIFORNIA POPULIST.

May 23, 1894.

The following were declared as the principles of the party:

We indorse as our charter of National policy the Omaha platform. We approve the thirteen demands contained in the report of the Conference Committee of the Farmers' Alliance and labor unions adopted by the joint Congress held at San

Francisco, February 22, 1894, as follows: The initiative, referendum, imperative mandate and proportional representation; municipal ownership of gas, electric lights, water works, street railways and all other public utilities requiring a municipal franchise; the nationalization of telegraphs, telephones, railway and water ways; postal savings banks; school education of all children under 16 years of age to be compulsory, gratuitous, and accessible to all, by public assistance where necessary; unconditional repeal of the National Bank act, and in lieu of National Bank notes, that the Government issue Treasury notes, legal-tenders for all debts, public and private, and provide for the free coinage of gold and silver at a ratio of 16 to 1; a graduated annual tax on all lands owned by any individual or corporation above the assessed valuation of \$10,000; a graduated income tax on all incomes in excess of \$3,000 per annum, to the issuance of National, State or municipal bonds for any purpose whatsoever; the employment of unemployed by public authorities.

MISCELLANEOUS.—Declared in favor of equal suffrage and without distinction of sex, based upon an educational qualification; favors a law prohibiting any other than the American flag to be displayed over any public building; demands the enforcement of the payment of the debts of the Pacific railroads to the Government; favors Government ownership of the telegraph and telephone service, and of the Nicaragua Canal, and the prohibition of all Chinese and Japanese immigration.

CALIFORNIA PROHIBITIONIST.

May 17, 1894.

Demands that the manufacture, sale, exportation, importation and transportation of all intoxicating liquors as a beverage be forever prohibited by State and National legislation; favors an educational qualification for voters and admitting women to suffrage on an equality with men, subject only to the same limitations which apply to men; the free and unlimited coinage of silver, the product of the mines of the United States, at the present ratio; the election of President, Vice-President and Senators by direct vote of the people; the adoption of the methods of legislation known as the initiative and referendum as far as practicable, also proportional representation; the ownership and control of railroads, telegraphs, telephones and the establishment of postal savings banks by the Government, all to be administered under a strict civil service system. Declares for unsectarian public schools; for a strict observance of Sunday as a day of rest; in favor of immigration laws so framed as to exclude the pauper, criminal, insane and anarchist classes, and that the time of residence for naturalization should be extended to ten years, and no naturalized person should be allowed to vote until five years after he becomes a citizen. Favors the construction, ownership and management of the Nicaragua Canal by the general Government in the interest of the people, and demands that the tariff

question be taken out of the realm of party politics and placed in the hands of a non-partisan tariff commission.

COLORADO REPUBLICAN.

September 12, 1894.

Declares that the paramount issue in the State is the suppression of the spirit of anarchy—the restoration and maintenance of law and order.

GOVERNOR WAITE.—"The Populist Executive of the State of Colorado has fostered lawlessness, fomented the spirit of anarchy, usurped the functions of the courts, and assumed the power of a military dictator, all of which has been indorsed by his party. His constant violation of the fundamental principles of constitutional liberty cannot be tolerated by a free people. We call upon all good citizens to unite with us in the restoration of good government and in the loyal maintenance of the constitution and laws, and we pledge the Republican party to restore the good name, credit, and prosperity of the State."

MONEY.—Demands the free and unlimited coinage of silver and gold at the ratio of 16 to 1, and is opposed to making the policy of the United States await, or depend upon, the action of any other country. Denounces the People's Party as the most insidious foe to the restoration of the free and unlimited coinage of silver, in that its platform demands an extensive issue of paper money, not based upon or redeemable in either gold or silver; believes that free coinage will only come from the hands of the Republicans.

LABOR.—Demands further and better protection, by legislative action, to laborers against the dangers incident to their employment, and pledges to strive for such policies as will most speedily and effectually multiply the demand for labor and increase its compensation.

COLORADO DEMOCRATIC.

September 3, 1894.

MONEY.—"We advocate and demand the immediate restoration of the laws of January 18, 1873, providing for the free and unlimited coinage of gold and silver at a ratio of 1 to 16, without discrimination against either metal, without waiting for or inviting the co-operation of any other nation or nations. The overwhelming majority of bimetallic sentiment is in and of the Democratic party, and by and through it alone can the restoration of the monetary function to silver be accomplished. We cordially and gratefully indorse the action of those Democrats in the Senate and House of Representatives who throughout the session of this Congress have unmoved and undeterred by threat or entreaty, battled for and advocated the free and unlimited coinage of silver on equal terms with gold."

TARIFF.—"We cordially indorse the great principle of tariff reform as embodied in the Democratic National platform of 1892, commend the action of the House of Representatives in its efforts to secure its practical realization, and pledge ourselves to continue the fight for the removal of all unjust and unnecessary taxation

until we triumph not only at the polls, but in the National Congress."

INCOME TAX.—"We hail with pleasure the enactment of a law placing a tax upon incomes as a step in the direction of justice and as a blow at that infamous system which burdens the poor with the necessities of government, while monopolies, trusts and combines escape their just responsibilities."

COLORADO POPULIST.

September 5, 1894.

"Standing for equal and exact justice to all, regardless of race, sex or religious or political affiliations, the People's party of Colorado heartily indorse the principles of the Omaha platform; indorses the State Administration of Colorado and the Congressional work of John C. Bell and Lafe Pence; demands the free and unlimited coinage of silver at the ratio of 16 to 1; protests against the issuance of Government bonds in times of peace; insists that the National Government has exclusive control of all money issued by its authority, and demands the adoption of the methods of initiative and referendum and proportionate representation as a means of securing all reforms in harmony with the will of the people, whose will should be law."

CONNECTICUT REPUBLICAN.

September 19, 1894.

PRINCIPLES.—"The representatives of the Republican party of Connecticut in convention assembled renew their pledges of fidelity to the principles of the party of law, liberality and progress in this country."

TARIFF.—"We declare anew our hearty adhesion to the time-honored principle of judicious tariff protection for American industries—especially the great manufacturing and agricultural interests and American wages—a principle announced in every Republican party platform, embodied in Republican legislation, and vindicated by thirty years of unprecedented prosperity—and we invite the business men, manufacturers, mechanics, wage-earners and farmers of Connecticut to pass judgment by their ballots upon a Democratic tariff bill conceived in sectionalism and brought forth in scandal, resting upon no discoverable principle; as unscientific as it is unpatriotic; swarming with crudities, inequalities and flagrant discriminations; borrowing its most striking and obnoxious features from the Populists and justly denounced as a monument of 'party perfidy and party dishonor.' We call attention to the later declaration of Democratic leaders that their ruinous fight for Free Trade will be renewed at the first opportunity as a further warning to the country that the unprecedented commercial distress of the past two years, with its loss of work, its reduction of wages, and its untold and immeasurable suffering will be indefinitely prolonged unless the control of the affairs of this great Nation is put back into the hands of the Republican party, which alone has proved itself equal to that great trust."

MONEY.—"The Republican party, now,

as always, the party of honest money, and opposed to any debasement of the people's currency, holds that American silver as well as American gold should be used as a standard money under such international agreements as will insure the maintenance of a parity of values, so that the purchasing and debt-paying power of every dollar issued by the Government, whether of gold, silver or paper, shall be at all times the same."

PENSIONS.—"The Republicans of Connecticut, ever holding in grateful remembrance their debt to the men who fought on land and sea in the war for the Union, share the just resentment of the veterans at the manner and spirit in which the pension laws have been administered by this Democratic Administration."

CONNECTICUT DEMOCRATIC. **September 25, 1894.**

Commends the Administration of President Cleveland and pledges him continued support; congratulates the country upon the successful efforts of the President to "restore the currency of the country to a better condition than it has enjoyed for more than thirty years."

TARIFF.—"We congratulate our fellow-citizens on the recent revision of the revenue law, by which many of the raw materials used by our manufacturers and mechanics are entirely relieved of taxation and unreasonable duties upon others are reduced. The revival of all business, following immediately upon the passage of the law, is the best evidence of the wisdom of its provisions. We believe the free coal and iron bills now pending in the Senate would be beneficial to the interests of the whole country if promptly passed. We demand the prompt passage of a law which will abolish the differential duties on refined sugar now maintained in the Senate by the Republican and sugar trust combination."

CONNECTICUT PEOPLE'S. **July 3, 1894.**

The main features of the platform declare for an American system of finance entirely independent of Wall Street and London bankers, in which paper money, silver and gold shall be on an equality; an increase of currency circulation equal to the amount paid out for pensions, until there shall be \$50 per capita; the election of State Judges and United States Senators by direct vote of the people; that all land held for speculative purposes shall be taxed on its full market value; that there shall be municipal ownership of all natural monopolies, such as water works, gas and electric lighting, surface and elevated railroads; a new State Constitution, in which shall be included the right of initiative and referendum.

CONNECTICUT PROHIBITIONIST. **August 22, 1894.**

LIQUOR.—Demands a policy prohibiting the traffic in alcoholic liquors as a beverage, and that their manufacture and sale for medicinal and mechanical purposes shall be solely under the control of the National Government, handled entirely by qualified and reliable Government agents

on stated salary and without individual profit.

TARIFF.—Favors the "creation of a tariff commission whose duty it shall be to frame and commend to Congress a general tariff policy, and to make suggestions of such incidental changes as the general welfare demands."

MISCELLANEOUS.—Favors woman suffrage, laws for the restriction of immigration, the supervision and control of railroads and telegraph by the Government, also a change in the State Constitution so that a plurality vote shall elect State officers.

DELAWARE REPUBLICAN. **August 21, 1894.**

TARIFF.—"We reaffirm our belief in the American doctrine of protection to home industries. While we believe that all articles which cannot be produced in the United States—luxuries excepted—should be admitted free of duty, we hold that duties should be levied on all other imports; and we favor the speedy enactment and enforcement of stringent laws for the protection of American institutions and American labor from the evils of unrestricted immigration. We denounce the revenue bill passed by the present Democratic Congress as a cowardly makeshift that will reduce the wages of labor, cripple our agriculture, manufactures and shipping, and continue in the future that feeling of uncertainty and distrust which has attended Democratic ascendancy in the General Government. We hold that the provisions of the bill in favor of the interests of the Sugar Trust framed in pursuance of a corrupt bargain made by Democratic leaders imposing a duty on raw sugar as well as discriminating in favor of refined sugar is an outrage upon the American people, imposing an unnecessary burden upon them, and that such legislation must be corrected as soon as possible. We denounce the income tax, provided for in the bill, as unequal, unjust, inquisitorial and contrary to the spirit of American institutions, and we demand its repeal. We denounce the futile efforts of the popular branch of the present Congress and of the executives to open to the world the American markets for coal and iron as absolutely ruinous to our mining industries. We maintain that the Republican policy of reciprocity has largely increased our foreign trade and should be fostered and extended for the benefit of our farmers, workshops, manufactures and shipping."

MONEY.—"We favor bimetallism and demand the use of both gold and silver as standard money at such ratio and under such conditions as shall be fixed by international agreement; and we urge such a policy upon the part of the United States as will finally bring about this most desirable end."

STATE BANK TAX.—Denounces the action of the Democratic House of Representatives in passing the bill to repeal the State Bank Tax law.

ADMINISTRATION.—Denounces the Democratic Administration as utterly incompetent to conduct the affairs of the Nation; also for its un-American treat-

ment of Hawaii, and for its responsibility for the financial distress.

PENSIONS.—Renews to the soldier veterans a generous recognition of their just claims upon a grateful people, and condemns the unfriendly and unjust policy of the Democratic Administration toward them.

MISCELLANEOUS.—Favors the extension of the American transatlantic trade, the restoration of the American merchant marine, the further increase of the Navy, and the maintenance of friendly relations with all foreign Powers.

DELAWARE DEMOCRATIC.

August 28, 1894.

TARIFF.—"Commending and indorsing the President of the United States, and the great majority of the Democratic members of the House of Representatives, and of the Senate of the United States, for their patient, able, determined and statesmanlike efforts to secure the complete enforcement of the principles of the Chicago platform, and relieve the country from the business depression and suffering, brought on by iniquitous Republican legislation culminating in the McKinley bill; and for their practical statesmanship in finally repealing that bill, notwithstanding apparently insurmountable obstacles, thereby checking and reversing the ruinous tariff policy of the Republican party; and for passing a tariff bill freeing from import taxes many of the necessities and comforts of life, and securing great reduction of duties on others."

TRUSTS.—Demands the rigid enforcement of all laws enacted to control combinations of capital, together with such further legislation in restraint of their abuses as experience has shown to be necessary.

MONEY.—"We hold to the use of both gold and silver as the standard money of the country, and to the coinage of both gold and silver without discriminating against either metal; and we demand that all paper currency shall be kept at par with and redeemable in such coin."

DELAWARE PROHIBITION.

June 14, 1894.

LIQUOR.—Reaffirms allegiance to the National Prohibition party and its principles; believes that "the liquor traffic is a public nuisance and the greatest foe to civilization, that its legalization is vicious in principle and powerless as a remedy, and that what is morally wrong can never be legally right; we believe that while there are many reforms that urgently demand attention, but few of them can be brought to a successful issue until the saloon is removed from its position of control in political affairs. We demand, therefore, the absolute prohibition of the liquor traffic in State and Nation, and call on all who sincerely desire political and social reforms to vote with us the ticket pledged to this object."

TARIFF.—Advocates the entire elimination of the tariff question from partisan politics, and its reference to a non-partisan commission which shall adjust the

schedule to the changing conditions of trade.

MISCELLANEOUS.—Advocates woman suffrage; that the money of the country, whether gold, silver or paper, should be of full legal-tender and sufficient in quantity for the business of the country; that immigration shall be restricted to actual settlers who come to be real Americans; that no appropriations of public money shall be made for sectarian purposes.

DELAWARE POPULIST.

September 4, 1894.

The platform declared in favor of Government control of railroads and telegraph lines, and for the free coinage of gold and silver at a ratio of 16 to 1.

FLORIDA DEMOCRATIC.

August 1, 1894.

TARIFF.—"The principles on which the great Democratic victory of 1892 was won should not be sacrificed at the instance of a few Democratic Senators. We approve the course of the Democratic House of Representatives of the United States in its efforts to relieve the people of all unjust taxations and burdens."

TRUSTS.—"We are opposed to all legislation for the benefit of trusts and combines."

U. S. SENATORS.—"We approve an amendment to the Constitution of the United States providing for the election of Senators by the direct vote of the people of the several States."

NICARAGUA CANAL.—"That, believing that the Nicaragua Canal would stimulate the trade of the United States, and particularly that of Florida, we do hereby request our Senators and Representatives in Congress to do their utmost to secure the construction of said canal."

GEORGIA REPUBLICAN.

August 29, 1894.

PRINCIPLES.—"The Republicans of Georgia, in convention assembled, do hereby reaffirm our devotion to the principles of the National Republican party of the United States as announced in the platform of 1892 at Minneapolis, as the only true and tried party of human liberty, human rights, National and State progress, prosperity and happiness."

DEMOCRATIC PARTY.—"We arraign the Democratic party, now in control of the Federal Government, for its many deceitful practices and artful means whereby it obtained control; for its duplicity and hypocrisy; for its vacillating attitude on questions of the greatest importance to all the people of the country; for its broken pledges; for its legislation by which silver has been made an outlaw in our currency; for its tariff legislation, and its long continued trial of the same, the result of which has been to precipitate upon us industrial paralysis, a financial panic unprecedented in our history, the loss to our commerce of the confidence so necessary to its life and vigor, and the enormous shrinkage in value of more than a thousand millions of dollars—a sum much larger than the present interest-bearing debt of the United States; for its

promotion of trusts and other conspiracies against the toiling and tax-paying masses of our people; for the repeal of laws intended to secure fair elections; for the undeniable and wicked responsibility for closed factories and shops; for industrial strikes and for the hundreds and thousands of men turned out of employment who now, with families to support, are left penniless and helpless without the means of living, and many without homes and without bread, clothing or credit, and without hope of improvement in the existing condition as long as the party of deceit and fraud control the people's Government."

TARIFF.—Declares "adherence to the policy of a protective tariff essentially Republican in all its features, fostering and stimulating manufactures, agriculture, the arts and sciences, guarding American labor and the products of American industry, the sanctity, the prosperity, the independence and happiness of American homes as against foreign competition and monopoly, as well as against the trusts, combines and corporations now proposed by the Democratic party in this country; that while we do not regard the tariff as a local question, but rather as applicable to all sections and to all interests of this great country, we denounce the reduction of the duty on foreign marble, lumber, wool, rice and other products of our State."

SILVER AND CURRENCY.—Favors such increase in the volume of currency as shall meet the growing demands of trade and prevent financial stringency and congestion; favors the coinage of all the available silver product of American mines, and that the parity of silver and gold and the paper currency of the Government shall be maintained; denounces the Democratic party for its hostility to silver, and the violation of its pledges to favor its coinage.

PENSIONS.—Favors the payment of pensions to honorably discharged Union soldiers and sailors, or their dependents, and denounces the Democratic Administration for striking from the rolls the names of thousands of maimed and diseased defenders of the Nation in order to show a saving of \$20,000,000.

IMMIGRATION.—Opposes indiscriminate alien immigration, and demands such restrictions as will protect the people's interests against this menace of law and order.

NICARAGUA CANAL.—Favors its construction, and under the auspices and control of the United States.

No nominations were made for State officers.

GEORGIA DEMOCRATIC.

August 2, 1894.

MISCELLANEOUS.—Reaffirms allegiance to the principles of the State platform of 1892, and of the platform of the Democratic National Convention of 1892.

SILVER.—Demands such immediate legislation "as will restore silver to its constitutional position as a money metal, and will secure at once the free and unlimited coinage of gold and silver on a parity, and give to every dollar in circu-

lation, whether coin or paper, the same debt-paying and purchasing power."

INCOME TAX.—Demands a just and equitable tax on incomes.

FEDERAL ELECTIONS.—Congratulates the entire country upon the repeal of the Federal elections law.

TARIFF.—Urges upon Congress the necessity for the speedy enactment of the tariff bill "in such form as will insure for it the united support of all Democrats in both branches of Congress and its approval by a Democratic Executive. We especially commend the President and the House of Representatives and the Senators from Georgia for their patriotic endeavors to have enacted, as near as possible, a tariff for revenue only."

Opposes ownership of railroads by the Government, and pledges to favor and enforce laws providing for rigid and just control.

GEORGIA POPULIST.

May 24, 1894.

ISSUE OF BONDS.—"We oppose, as Jefferson did, the perpetuation of the public debt and the policy of issuing non-taxable interest-bearing bonds, whereby a large portion of the concentrated wealth of the land reaps a harvest from the taxes of the unprivileged."

NATIONAL BANKS.—"We oppose, as Jefferson did, the National banks as being of deadly hostility to the spirit of our republican institutions. We oppose, as he did, the extravagant expenditure of the public money, and we declare that at no time in our history have the poor been so heavily taxed or their taxes more shamefully wasted."

FREE COINAGE OF SILVER.—"We believe, as he did, in the free and unlimited coinage of silver and the issue of Treasury notes to increase the volume of currency when the necessities of business demand more money."

INCOME TAX.—"Like him, we believe in a progressive income tax to discourage the extensive concentration of wealth and to compel our selfish millionaires to contribute to support of the Government, which protects them."

FAIR ELECTIONS.—"Like him, we believe that the life of this Republic depends upon the purity of elections and in obedience to the will of the majority."

CONVICT LABOR.—"We favor the abolition of the present convict lease system."

DEMOCRATIC ADMINISTRATION AND SILVER.—"We denounce the party at present in control of our National affairs, for that in addition to the impotent and imbecile policy which has been pursued during the present session of Congress concerning every question which has been before that body for consideration and disposition, they have passed such laws on the one hand and failed to pass such laws on the other hand as have accomplished the crowning outrage of the century in the final completion of the crime of 1873, whereby silver has fallen from its high estate as a money metal and is now hawked about the markets of the world as a mere commodity."

IDAHO REPUBLICAN.**August 10, 1894.**

The platform adopted reaffirms the doctrine of protection, declares for free coinage of silver at 16 to 1, and advocates the submission of an equal suffrage amendment.

IDAHO DEMOCRATIC.**August 17, 1894.**

The platform declares in favor of a revenue tariff, and demands the free coinage of silver at the ratio of 16 to 1. The platform particularly denounces the conservative Senators and praises the attitude of Wilson.

ILLINOIS REPUBLICAN.**July 25, 1894.**

The platform reaffirms the adherence of the party in the State to the principles of civil and religious liberty, upon which the Government was founded, declares for Protection, denounces the Wilson bill, and then proceeds:

TARIFF.—"We earnestly maintain the right and justice of the American doctrine of protection to American industries. In raising the necessary revenue to maintain the Government, we are in favor of such duties on competing imports as will best tend to the development of the resources of our own country."

FINANCIAL.—"We favor bimetalism and believe in the use of gold and silver as money metals upon a parity of values with complete interconvertibility, under such legislative provisions as shall make the purchasing or debt-paying power of any dollar coined or issued by the United States the absolute equivalent of that of any other dollar so coined or issued."

PENSIONS.—"We favor the payment of liberal pensions to the Union soldiers and sailors of the Civil War and to their surviving descendants, as a sacred obligation due from the entire people, and we insist that in the allotment and distribution of pension funds technical and burdensome restrictions should not be imposed."

GOV. ALTGELD.—"We arraign the present Democratic Governor of Illinois as the most conspicuous case of misfit in high official life. From the day on which he began to debase the penal, reformatory, charitable institutions and the public parks of the State into infirmaries and asylums for politicians to the present time, he has shown such wonderful aptitude in doing the wrong thing at all times that the people of the State, irrespective of party, await with undisguised impatience the expiration of his term of office."

ILLINOIS DEMOCRATIC.**June 27, 1894.**

ADMINISTRATION.—"We indorse the action of President Cleveland, and the public services of all Democrats in executive and legislative stations, in all things that they have done to give force and effect to the principles of the party as laid down by the Chicago convention of 1892."

TARIFF.—"We demand that Congress

shall carry out the will of the people of the United States as expressed in the last Presidential election by passing an efficient bill to reform the tariff taxation, that the country shall enjoy the beneficial results of that action without further delay."

AMERICAN PROTECTIVE ASSOCIATION.—"Hostility to secret political societies is a tenet of the Democratic faith which is fundamental, and, standing by this doctrine now as in the days when their party presented an unbroken front to the cohorts of Know-Nothingism, and finally crushed that detestable organization, the Democracy of Illinois denounces as cowardly, unpatriotic and dangerous to the peace and happiness of this country the American Protective Association, which seeks to proscribe men on account of their religion or birthplace."

INCOME TAX.—"They hail with pleasure the action of the Democratic House of Representatives in advising an income tax as a step in the direction of reform and as a blow at that infamous system which burdens the poor with the necessities of government, while monopolies, trusts and combines escape their just responsibilities."

SILVER.—"They demand that the Government shall spare no effort to bring about a proper ratio between the values of gold and silver so that parity may be maintained between the two metals and all mints thrown open to free coinage. They declare that this has for years been a cardinal doctrine of the Democratic party, and they denounce the Republican party for its constant and persistent efforts to demonetize silver and thus increase all public and private debts."

INDIANA REPUBLICAN.**April 25, 1894.**

TARIFF.—"We believe in the Republican doctrine of protection and reciprocity, which furnishes a home market for the products of our factories and our farms, and protects the American laborer against the competition of the pauper labor of Europe. We denounce the unwise and unpatriotic action of the Democratic party in attempting to eliminate the reciprocity principle from our tariff system, thereby closing a large foreign market to the products of American farmers and depressing agricultural interests. We denounce the present attempt of a Democratic Congress to overthrow and destroy the American industrial system, a course that with the general fear of a violent readjustment of the country's business to a free trade basis has increased the National debt, has plunged the country into the most disastrous business depression of its history, has closed large numbers of banks and factories throughout the country, has thrown an unprecedented number of American citizens out of employment, has compelled thousands of able-bodied and industrious men to humiliate themselves by asking for charity, and has filled our broad land with free soup-houses and food markets."

SILVER.—"We believe in a currency composed of gold, silver and paper, readily convertible at a fixed standard of value

and entirely under National control, and we favor the imposition of increased tariff duties upon the imports from all countries which oppose the coinage of silver upon a basis to be determined by an international congress for such purpose. We denounce the avowed purpose of the Democratic party to restore the era of 'wildcat' money."

PENSIONS.—"We believe in a liberal construction of our pension laws, and we condemn the unjust policy of the present Administration in depriving ex-soldiers of their pensions without hearing, a policy intended to cast odium upon loyalty and patriotism. We believe it to be the duty of the State as well as the Nation to make suitable provisions for the care and maintenance of all indigent soldiers, their wives and widows; we therefore favor the establishment by the State of a suitable soldiers' home for the reception of such soldiers, their wives and widows as may be overtaken by adversity."

IMMIGRATION.—"We demand a rigid enforcement of all existing immigration laws by the National Government, and demand such further legislation as will protect our people and institutions against the influx of criminal and vicious classes."

HAWAII.—"We denounce the unpatriotic action of the Cleveland Administration in hauling down the American flag at Hawaii, and condemn the arrogant assumption of power displayed in the effort to restore a tyrannical Queen over a free people who had thrown off the yoke of despotism."

FEDERAL PATRONAGE.—"We condemn the outrageous bargain and sale of Federal patronage by the Cleveland Administration in its unblushing efforts to usurp the prerogatives of the legislative branch of the Government; to enforce favorite measures through Congress, and compel the confirmation of Presidential appointments by the Senate."

INDIANA DEMOCRATIC.

August 15, 1894.

TARIFF.—"We affirm our opposition to the vicious system of class legislation, miscalled protection, and pledge ourselves to continue the battle against it until every species of extortion and robbery fostered by the McKinley act shall be obliterated from our revenue system and people enjoy all the blessings of commercial liberty. The protective system has built up the great monopolies and trusts which control absolutely so many industries, and have done so much to debauch the politics of the country and corrupt the legislative department of the Government. We denounce tariff protection of every kind as a fraud and a robbery of the great majority of the American people for the benefit of the few. We maintain that no tariff taxes should be levied except for purposes of revenue only, and that such taxes should be limited to the necessities of the Government honestly and economically administered. We denounce the McKinley law, enacted by the 11st Congress, as the culminating atrocity of class legislation."

"We approve of the efforts of President Cleveland and his Administration, and of

the Democratic House of Representatives, and of a large majority of the Democratic Senators, to redeem the pledges made to the country by the last Democratic convention and to execute the will of the American people as expressed so emphatically at the ballot-box in November, 1892. We approve the action of the House of Representatives in following the enactment of this law with the passage of separate acts placing sugar, coal, iron ore, and barbed wire on the free list, and we demand that the Senate shall concur in these righteous measures at the earliest possible moment."

INCOME TAX.—"We especially indorse the income tax as a wise and equitable measure, designed to place a fair share of the burdens of the Government upon the property of the country for the benefit of which the expenses of the Government are so largely incurred."

FINANCE.—"Indorses the repeal of the Sherman Silver act of 1890, and reaffirms belief that both gold and silver should be used as the standard of money of the country, and that both should be coined without discrimination between either metal, and without charge for mintage."

HAWAII.—"Declares that 'the National Administration has acted wisely and honorably in permitting the people of Hawaii, unawed by our naval and military forces, to manage their own domestic concerns, and place their country in the family of republics.'"

PENSIONS.—"We therefore demand that Congress in the matter of pensions shall not only deal generously but bountifully with the aged veterans. We also reiterate the declaration of our convention in 1892, that the State should provide by liberal appropriation for a home for our disabled veterans, where they may be supported without sending them to the poorhouses."

MISCELLANEOUS.—"Favors a restrictive immigration law, the election of United States Senators by a direct vote of the people, the 'taxation of greenbacks as other money is taxed.'"

INDIANA POPULIST.

May 24, 1894.

FINANCE.—"Demands a National currency of \$50 per capita, including the free coinage of silver at the ratio of 16 to 1, issued by the general Government only, a full legal tender for all debts, public and private, distributed to the people direct, without the intervention of banking corporations, in payment of all obligations of the Government, and demand the issue of non-interest-bearing Treasury notes of small denominations. Declares opposition to banks of issue, State or National, and to the continued use of the Government fiat by Congress to create interest-bearing bonds."

SILVER.—"Charges 'that the crime of demonetizing silver in 1873 by the Republican party, further consummated by the joint action of both the old parties at the extra session of Congress in 1893, has fully accomplished the purpose of the moneyed aristocracy of the United States and England in placing American producers of our great staple crops on a level

with the poorest paid pauper labor of the world under English control, by changing through this crime against American producers and laborers the pricing instrument for all products and wages to the single standard of gold only."

INCOME TAX.—"We demand a National graduated income tax on salaries or incomes in excess of reasonable expenditures for the comforts and necessities of life."

U. S. SENATORS.—"We favor the election of United States Senators and all postmasters by direct vote of the people."

INDIANA PROHIBITIONIST.

March 15, 1894.

The platform, as adopted, declared that the manufacture, importation, exportation, transportation and sale of alcoholic beverages should be suppressed by law, and that the Government should have absolute control of the manufacture and sale of alcoholic liquors for all other purposes.

CURRENCY.—"We favor a National currency of gold, silver and Treasury notes, issued only by the United States Government, which shall be a legal-tender for the payments of all debts, public and private."

TARIFF.—"Realizing how detrimental to the business interests of the country are the frequent changes made in our tariff legislation by the Republican and Democratic parties for partisan purposes, we demand that the tariff question be raised above party politics and placed in the hands of a non-partisan tariff commission, and the tariff regulated according to the needs of the whole people." A Free Trade substitute was offered but was laid on the table.

MISCELLANEOUS.—Favored a "judiciously conducted" income tax; the establishment of Government savings banks; reduction of official salaries.

IOWA REPUBLICAN.

July 25, 1894.

TARIFF.—"We again declare for a system of protective duties so adjusted that every American resource can be developed by American labor, receiving American wages, and we insist upon a tariff that will accomplish these ends. We have but to mention the disastrous results which have followed the mere menace of Free-Trade as conclusive evidence of the wisdom of the Republican policy in the past upon this subject."

SILVER.—"We favor the largest possible use of silver as money that is consistent with the permanent maintenance of equal values of all dollars in circulation. We do not want monometallism either of gold or silver, and we pledge ourselves to continue to work for bimetalism to be brought about by all means within the power of the Government."

IMMIGRATION.—"We favor the amendment and more stringent enforcement of the Immigration laws, so as to exclude criminal, pauper and all other undesirable classes, whose presence tends to degrade American labor and incites disorder."

PENSIONS.—"We favor the granting of pensions to all honorably discharged Un-

ion soldiers and sailors whose disabilities or necessities justify entitle them thereto."

IOWA DEMOCRATIC.

August 1, 1894.

FINANCE.—"We hold to the use of both gold and silver as a standard money of the country, and to the coinage of both gold and silver without discriminating against either metal or charge for mintage, but the dollar unit of coinage of both metals must be equal in intrinsic and exchangeable value, and we demand that all paper currency shall be kept at par with and redeemable in such coin. And we favor such legislation as will faithfully carry out these pledges to the people."

U. S. SENATORS.—"We demand such change in National legislation as will authorize the election of United States Senators by a direct vote of the people, and we commend the House of Representatives in Congress for the passage of a bill for that purpose."

PENSIONS.—"We favor just and liberal pensions to deserving veterans and congratulate the Democratic Congress and the President upon the passage of a law declaring the pension to be a vested right."

MISCELLANEOUS.—Condemns the present liquor law, and demands its repeal, and declares that in the interest of true temperance, license with local option in townships, incorporated towns and cities is the best solution of the liquor question; denounces any organization pledged to deprive any citizen of his right to vote or hold office on account of his nationality or religious belief.

The minority report favored bimetalism and such legislation as would increase the coinage of silver and maintain it equal in the value of gold. It was defeated by a vote of 697 to 329.

IOWA POPULIST.

September 5, 1894.

SILVER.—"For the immediate free and unlimited coinage of silver at the rate of 16 to 1."

U. S. BONDS.—"We oppose the issue of the United States bonds under any pretext whatever."

RAILROADS.—"In the midst of a monetary contraction and a panic we are opposed to an increase of railroad rates in Iowa, and demand a maximum two-cent passenger rate, and a mileage book good on all roads."

PENSIONS.—"In the payment of pensions to disabled Union veterans, there should be no discrimination on account of rank."

A resolution proposing to abolish the Constitution of the United States was laid on the table.

KANSAS REPUBLICAN.

June 7, 1894.

PENSIONS.—"That the constant patriotism of our party is in itself a guarantee to the Nation that the interest of its defenders, their widows and orphans will be liberally cared for, and we denounce their cruel and deliberate betrayal by the present Democratic Administration."

TARIFF.—"We adhere to the Republican doctrine of protection, and believe that tariff laws should protect the products of the farm as well as of the factory."

SILVER.—"The American people favor bimetalism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions, to be determined by legislation, as will secure the maintenance of the parity of values of the two metals, and that the purchasing and debt-paying power of the dollar, whether of gold, silver or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workmen, demand that the mints be opened to the coinage of silver of the mines of the United States, and that Congress should enact a law levying a tax on importation of foreign silver sufficient to fully protect the products of our own mines."

KANSAS DEMOCRATIC.

July 3, 1894.

TARIFF.—"We denounce Republican protection as a fraud, a robbery of a great majority of the American people for the benefit of the few. We declare it to be a fundamental principle of the party that the Federal Government has no constitutional rights to impose and collect tariff duties except for the purpose of revenue only, and demand that the collection of such taxes shall be limited to the necessities of the Government when honestly and economically administered; and we demand such speedy legislation along the lines of tariff reduction as expressed in the Wilson bill and the last National Democratic platform as will lift the load now burdening the industries of the land, lend new life to business, and open new avenues to labor."

INCOME TAX.—"We favor an income tax as opposed to the indirect burdens of tariff taxation, and hail with delight the action of a Democratic Congress in adopting that feature as a part of our system of taxation."

MONEY.—"We again declare in favor of a bi-metallic currency and the free coinage of both gold and silver upon equal terms at a fair ratio and without discrimination, to the end that the growth of the currency may keep pace with the growth of business, and that the debtor may not be met with constantly reducing values for the products of labor. We favor, however, a ratio of 16 to 1, and that all currency be kept at a parity and of equal value."

IMMIGRATION.—Recommends a non-partisan National Commission on Immigration to examine into the cause and effect of foreign pauper immigration, and to devise some efficient means of securing protection to American wage-earners.

PENSIONS.—Favors liberal pensions to all loyal and deserving ex-soldiers in recognition of their loyalty and devotion to their country.

WOMAN SUFFRAGE.—Opposes woman suffrage as tending to destroy home and family.

KANSAS POPULIST.

June 13, 1894.

SILVER.—"We demand the free coinage of silver at the ratio of 16 to 1, and denounce any party that is so completely under the control of the goldbugs that it dare not take a stand for the people on this all important question, which means so much to the wage-earners and producers of our country."

BONDS.—Opposes "issues of Government interest-bearing bonds, and demands instead the issue of full legal tender Treasury notes and the payment of the same, together with silver money to meet the needs of the Government."

TARIFF.—Condemns "the policy of all the governing parties in this Nation whose legislation has favored capital and oppressed labor, and we hereby declare our sympathy with all toilers in their efforts to improve their conditions, and demand such legislation as will result in removing some of the burdens of toil by shortening the hours of labor without lessening their daily wage."

ARBITRATION.—Demands National and State Boards of Arbitration to settle and adjust the differences between the employers and the employees.

PENSIONS.—Demands "service pension graduated so that the man who carried the musket shall be entitled to the same consideration as the man who wore the epaulet, and said law to be so framed that it will place it forever beyond the power of any official who is unfriendly toward the Union soldiers and sailors to change, suspend or in any way deprive the soldier of his just dues, which this Government owes him for defending with his life our country and flag."

KENTUCKY DEMOCRATIC,

May 25, 1892.

Condemns Republican party for McKinley act, Elections bill, extravagant pension laws, and waste of public funds; demands sound and stable currency composed of or redeemable in gold and silver coin, and free coinage of silver without detriment to any business interest. Declares that intelligent and patriotic legislation upon this subject can be expected only from the Democratic party.

LOUISIANA REPUBLICAN,

January 19, 1892.

Pledges unswerving devotion to Republican principles; favors an honest ballot and a fair count; declares it essential to the continuance of the Government that the XVth Amendment should be enforced; denounces the Democratic party, which has maintained itself by violence and fraud; protests against political intimidation and the murders which have so long disgraced the State; favors liberal appropriations for free public schools; indorses the present levee system and the sugar bounty; commends the wise and statesmanlike Administration of Benjamin Harrison; recommends the delegates from this State to support the renomination of Harrison; denounces trusts and monopolies and opposes the Louisiana Lottery and the revenue amendment, and

any scheme that proposes to legalize gambling.

MAINE REPUBLICAN.

June 5, 1894.

FINANCE.—A financial policy not in favor of monometallism, either of gold or silver, as the basis of a financial system, but international bimetalism to be secured by strenuous efforts of the National power. Now, and in the future, all dollars should be of equal value to the end that a suitable currency, abundant for all wants, shall secure to all the people the full results of their labor.

LABOR.—The enactment and enforcement of all laws required for the proper recognition and protection of labor.

IMMIGRATION.—Favors the passage of such restrictive legislation as will admit to our shores only those immigrants who have the capacity and the desire to become good American citizens.

FOREIGN POLICY.—The party sustains the course of President Harrison and ex-Minister John L. Stevens toward the people of the Hawaiian Islands, and wholly disapproves the un-American policy of the Cleveland Administration in relation thereto.

PENSIONS.—Legislation for the benefit of the Union soldiers of the war of the rebellion, their widows and children, and disapproval of the present policy of the Pension Bureau in making such laws, to a degree, a nullity.

LIQUOR.—Full recognition of the benefits to all the people of the State which have come from temperance and prohibition.

TARIFF.—A tariff for the protection of American labor against the underpaid and pauper labor of foreign countries. The Republican party calls upon all the voters of the State to express at the polls their disapproval of the Wilson Tariff bill, the main vicious features of which are maintained and added to in the bill now before the Senate, which surrenders the interests of Northern labor, while it protects those of the South, and delivers nearly every industry of Maine into the hands of our nearest and most hostile rival, the Dominion of Canada. The Blaine system of reciprocity and opposition to the Democratic policy which attempts its abandonment and repeal. Cordial approval of the course of the Maine delegation, in the Senate and in the House of Representatives, in fighting the Democratic tariff bill at every stage, and continued support in every further effort to obstruct and defeat the bill.

MAINE DEMOCRATIC.

June 26, 1894.

TARIFF.—"We deplore the condition to which the country has been brought by a long course of class legislation, persisted in by the Republican party, at the dictation of favored interests. It has enabled the few, comparatively, to gather into their hands the wealth of the country, and thereby to control its industries and to dictate terms to those dependent on those industries. It confers on some special privileges at the expense of others. It tends to divide our people into two

classes, the very rich and the very poor, making a nation of millionaires and tramps. It denies to American skill and enterprise opportunity to compete for supremacy in the markets of the world. It has destroyed our commerce, injured our agriculture, depopulated our farms, glutted our markets, closed our workshops, and deprived many of our people of the means of support. The Democratic party has not failed to give the word of warning, though it came into power too late to avert the catastrophe engendered by a long course of vicious legislation, for which the Republican party stands condemned; self-condemned, in its financial policy, by hastening to favor repeal of measures which itself had adopted, and condemned in its tariff policy, not only by overwhelming defeat at the polls, but by the wretched disaster that its false system has brought upon the country."

U. S. SENATORS.—"That it is the sentiment of the convention that the election of National and State Senators be by a direct vote of the people."

PENSIONS.—"We believe in liberal pension provisions for the soldiers and sailors of the late war, but that the bounty of the Government should be so distributed that the pension roll shall be a roll of honor."

TEMPERANCE.—"Favor a resubmission to the people of the constitutional provision touching this question, to the end that, if it shall be sustained by the people, the law may be impartially enforced; if not, that such reasonable law may be enacted as shall meet with popular approval, and obedience to its provisions be required by all."

MISCELLANEOUS.—Disapproves of the immigration of "degraded, lawless and pauper classes of the Old World," as it tends to degrade the American laborers and place them upon the plane of the pauper labor of Europe. Advocates the limitation of labor to fifty-eight hours per week for women and minors.

MARYLAND REPUBLICAN.

September 6, 1893.

NATIONAL PLATFORM AND HARRISON ADMINISTRATION.—"We unwaveringly reaffirm our adhesion to the platform of principles adopted by the National Republican Convention of 1892, and solemnly pledge our support to these principles. We commend the Administration of Benjamin Harrison while President of the United States as pre-eminently patriotic, pure, wise and just, and worthy of imitation, and we endorse his Administration, and assure him of our esteem and confidence."

PROTECTION.—"We favor the full and adequate policy of protection to American labor and the great industries of the country, and we aver that the best exemplification of the principles of protection and reciprocity that has anywhere found expression in the statutes is embodied in the McKinley tariff law of 1890."

PENSIONS.—"That the attitude of the present Democratic Administration toward the soldiers of the Union meets our disapproval, and should be condemned by every patriotic citizen."

MARYLAND DEMOCRATIC.**September 27, 1893.**

THE "SHERMAN BILL."—Sustains the President in his determination to secure the repeal of the Silver Purchase act of 1890, and declares "it was at best a temporary expedient. It has signally failed to accomplish any good purpose. It deranges our National finances. It compels the Government to purchase bullion which it cannot use. It lowers the value of silver coin in the hands of all who hold it. It forces all wage-earners to accept payment for work done in a depreciated and depreciating money."

THE TARIFF.—"The existing tariff ought to be thoroughly revised. It hinders the development of agriculture, because it so limits the interchange of our products with foreign countries as to prevent our farmers from marketing their surplus abroad. It obstructs the enterprise of our merchants by hampering their intercourse with foreign ports. By its excessive imposition of duties upon materials it prevents the profitable building of American ships, and compels American products to be exported in foreign vessels. By its excessive tax on raw materials it impedes progress in all mechanical employments."

MARYLAND PROHIBITION.**August 8, 1894.**

Declares anew for the absolute suppression by law of the liquor traffic for beverage purposes, and that its sale for mechanical and other legitimate purposes should be regulated as the sale of other poisons is regulated in the interest of public welfare.

TARIFF.—"The tariff is a matter of business, involving many and conflicting interests in different parts of our country, and from its very nature is a subject for settlement by way of compromise by the Congress of the United States so as to contribute toward the revenue of the Government, give reasonable protection to American industries and workingmen and at the same time promote the interests of the people generally. We favor a commission to make an investigation of the subject and to make a report with recommendations to Congress."

CURRENCY.—"The circulating medium of the country may consist of gold, silver and paper. It should all be of full legal-tender and sufficient in quantity to meet the demands of business and give full opportunity for the employment of labor."

INCOME TAX.—"We favor a gradual and equitably arranged income tax for the collection of a proper proportion of the State and National revenue as being the best method by which each citizen can bear his share of the expense of government."

IMMIGRATION.—"We favor the defence of American labor by the restriction of immigration to actual settlers who come to be real citizens, and by the exclusion of all paupers and criminal classes."

ELECTION OF SENATORS.—"We favor the election of United States Senators by a direct vote of the people."

MASSACHUSETTS REPUBLICAN.**October 6, 1894.**

The principles of the Republicans of Massachusetts are as well-known as the commonwealth itself; well-known as the Republic; well-known as liberty; well-known as justice. Chief among them are:
An equal share in government for every citizen.

Best possible wages for every workman. The American market for American labor.

Every dollar paid by the Government, both the gold and silver dollars of the Constitution and their paper representatives, honest and unchanging in value, and equal to every other.

Better immigration laws.

Better naturalization laws.

No tramp, Anarchist, criminal or pauper to be let in, so that citizenship shall not be stained or polluted.

Sympathy with liberty and republican government at home and abroad.

Americanism everywhere.

The flag never lowered or dishonored.

No surrender in Samoa.

No barbarous queen beheading men in Hawaii.

No lynching.

No punishment without trial.

Faith kept with the pensioner.

No deserving old soldier in the poor-house.

The suspension of dram-drinking and dram-selling.

A school at the public charge open to all the children, and free from partisan or sectarian control.

No distinction of birth or religious creed in the rights of American citizenship.

Devotion paramount and supreme to the country and to the flag.

Clean politics.

Pure administration.

No lobby.

Reform of old abuses.

Leadership along loftier paths.

Minds ever open to the sunlight and the morning; ever open to new truth and new duty, as the new years bring their lessons.

MASSACHUSETTS DEMOCRATIC.**October 8, 1894.**

TARIFF.—"We have for years advocated a thorough reform of the tariff. The House, or Wilson, bill was an honest effort to carry out the Democratic policy. Its defeat is much to be regretted. We hold those Democratic Senators who, by their inaction or resistance, prevented its passage to be traitors to their party, and we demand their retirement from party leadership. We also demand that United States Senators be elected by direct vote of the people. We recognize, however, that the new tariff is, in spite of imperfections, a great improvement in almost every schedule over the monstrous act of spoliation known as the McKinley tariff, and we hail its passage as the beginning of the end of an unconstitutional system of duties for protection only. We believe it to be the immediate duty of the Democratic party to place every com-

modity which can fairly be described as raw material upon the free list; to abolish all duties which tend to create and maintain monopolies and trusts, and to reduce all duties which are still prohibitory in effect."

SILVER AND CURRENCY.—"We reaffirm our allegiance to the great financial principles which guided Jefferson, Jackson and Secretary Walker; that it is the sole function of the Federal Government in monetary matters to provide a standard of value and to coin metallic money, every dollar of which shall be of equal intrinsic value; that nothing but this coined money shall be a legal-tender, and that the Government shall not carry on a banking business. We demand that the untaxed notes of State or National banks shall be the only paper money, and that the Government shall, with the development of a banking system, adequate to the demands of trade, retire as rapidly as possible all its legal-tender paper money."

INCOME TAX.—"We approve the principle of the income tax as a return to correct theories of taxation."

AMERICAN PROTECTIVE ASSOCIATION.—"We are not only opposed in the abstract to any 'distinction of birth or religious creed in the rights of American citizenship,' but to any organization which aims to introduce any such distinction into politics, and we hold up to public condemnation any party which, like the Republican party, in this and other States, tacitly accepts an alliance with such an organization, and permits it to control the party caucuses and conventions."

MASSACHUSETTS PEOPLE'S.

July 18, 1894.

Denounces the legislation of "all political parties that has contributed to establish a financial system which enables private corporations, known as National banks, to regulate the purchasing power of the money tool, and thereby control the business and industries of the country." Demands the abolition of all banks of issue, and that the Government shall issue money direct to the people, made receivable for all debts, public and private, and in amount sufficient to replace bank paper now employed as the medium of exchange for labor's product. Demands the postal savings bank; favors the restoration of silver to the place it held prior to 1873; demands Government ownership of railroads, telegraphs and telephones, also that the public lands be declared inalienable except to actual settlers, and that all land grants should be revoked where the conditions have not been fulfilled; favors a graduated income tax, and that the sale of liquor shall be exclusively controlled by the State, through salaried officials in such municipalities as shall apply for such agencies.

MASSACHUSETTS PROHIBITION.

September 13, 1894.

PROHIBITION.—Demands that the liquor traffic be suppressed by legal enactment, and the sale of alcohol for mechanical and other legitimate purposes

should be conducted by the State under such restriction as will prevent fraud or evasion. Declares the high-license law a failure, opposes the Norwegian or company system of liquor selling.

MISCELLANEOUS.—Opposes appropriations for sectarian schools; demands closer restrictions upon immigration so to preclude all Anarchists, all persons over 12 years of age who are unable to read or write, and all persons over 16 years of age whose fare is paid by another under contract; favors the appointment of a non-partisan commission to revise the tariff schedule in accordance with the principle of protection to American labor; favors the restoration of silver to the position it occupied prior to 1873; favors the control and ownership by State or Government of railroad, telegraph, telephone and other institutions of public necessity; also favors the election of United States Senators by direct vote of the people.

MICHIGAN REPUBLICAN.

July 31, 1894.

TARIFF.—"We reaffirm our adherence and increased devotion to the American doctrine of protection. We believe that the present unhappy industrial condition of our country is in great part due to the threat and purpose of the Democratic party to destroy the American system of protection. We believe that all articles which cannot be produced in the United States, except luxuries, should be admitted free of duty, and that on all imports coming into competition with the products of American labor there should be duties levied equal to the difference in wages abroad and wages at home."

SILVER.—"We believe in the use of gold and silver as money metals, to be maintained in circulation on a perfect equality and inconvertibility. We recognize the so-called silver question as one of the paramount political issues of the day, and believe that the people of this State and country do look to the Republican party, the party of ability and progress, as the only party that can give a wise and adequate solution of this problem. We, therefore, pledge the Republican party of Michigan to use every effort in its power to restore silver to its historic position in the United States as a money metal. We pledge this in the belief that permanent prosperity will not be assured or justice be done until silver takes its time-honored place side by side with gold as one of the two great money metals of the world."

RECIPROCITY.—"We believe that the doctrine of reciprocity, as advocated by that matchless statesman, James G. Blaine, should, under our protective system, be the policy of our Government and applied in our trade relations with other nations."

LABOR.—"We believe in arbitration as one of the means to solve labor disputes, and favor the enactment of laws by the Legislature to carry out the provisions of section 23, article 6, of the Constitution of the State of Michigan, which provides for establishing courts of conciliation, with such powers and duties as shall be prescribed by law."

IMMIGRATION.—"We believe in protecting American wage-earners and the peace and prosperity of this Nation against the evil effects of indiscriminate emigration from the pauper and criminal classes of Europe by wise laws that shall properly restrict and regulate emigration. We believe in the protection and elevation of the standard of American citizenship, and that the safety of this Republic depends upon the intelligence and loyalty of its supporters, that it should be sustained for the welfare and happiness of its people, and that for the preservation thereof the right of suffrage should be limited to those who have fully acquired American citizenship."

ELECTION LAWS.—"We denounce the action of the Democratic party in the repeal of the election laws, whereby the courts of the United States are rendered powerless in the protection of honest voters or the punishment of fraud, and such action is an invitation to falsify by fraud and violence the will of the people, and we demand the enactment and enforcement of laws that shall protect the citizens of the Republic at home as well as abroad."

HAWAII.—Sends hearty greeting and welcome to the people of the new Republic, and assurances of earnest sympathy and best wishes for her glorious future.

MICHIGAN DEMOCRATIC.

June 28, 1894.

TARIFF.—"We denounce as un-Democratic and opposed to the Constitution of the United States the system of taxation upon consumption, as advocated by the Republican party, by which the money of the poor is wrested from them to enrich private individuals and corporations, thereby benefitting one class at the expense of another. We therefore reaffirm the principles upon tariff taxation that were adopted by the Democratic National Convention at Chicago in 1892, and repudiate any departure therefrom. We declare in favor of the free, unlimited coinage of silver at a ratio that will permit the debtors to pay their debts upon the same basis in which they were contracted."

FINANCE.—"We demand that, henceforth, the issuing of all circulating medium be made under the acts of Congress, through the National Treasury in such amounts as the business wants of the country may require, and it shall be full legal-tender."

AMERICAN PROTECTIVE ASSOCIATION.—"We declare in favor of the time-honored principle of Democracy, in favor of religious liberty, and oppose any effort on the part of any one that would make a man's religion a test to hold office in this country."

PUBLIC LANDS.—"Whereas, It is charged that certain corporations in the Upper Peninsula dominated by English and eastern capital have maintained possession of many thousands of acres of valuable timber and mineral lands, the equitable title whereto is in the United States:

"Resolved, We deem it incumbent upon the Democratic party to denounce the lav-

ish distribution of our public lands among alien corporations, to the detriment of our own citizens, who should alone acquire title to them."

TRUSTS.—"We believe that the practice of investments in watered stock, which do not represent an honest return for every dollar offered to the people, should be forbidden by law and the scheme for such robberies punished."

U. S. SENATORS.—"We recommend the nomination of candidates for Senator by the Representatives of the people in State Convention."

ELECTION FRAUDS.—"New laws should be passed by the next Legislature of the State of Michigan providing better safeguards against such fraudulent election returns."

CANALS.—"We of the Northwest demand an open waterway for shipment to the ocean. The highest estimate of such cost is \$400,000,000, and that work of necessary public improvement will give work to an army of unemployed. In this position we reaffirm the principles of that great Democrat, DeWitt Clinton, when he successfully carried through the most popular and beneficial enterprise of his age, the Erie Canal."

PENSIONS.—"We declare in favor of liberal pensions to soldiers of the United States Army, and believe the per diem pension bill before Congress will fully cover all claims."

MICHIGAN POPULIST.

July 4, 1894.

Reaffirms its allegiance to the Omaha platform. Following a long preamble of "repeated wrongs, injuries and usurpations on the part of plutocracy," it denounces both the Republican and Democratic parties, and declares that lines must be drawn and all men must get on one side or the other; that there must be no masters and no serfs in America, and that oppression and outrage must cease.

MICHIGAN PROHIBITIONIST.

August 8, 1894.

THE LIQUOR TRAFFIC.—"Insist upon the complete outlawry of the whole business of manufacturing, transporting and vending alcoholic beverages in municipality, State and Nation, by statutes suitably framed and faithfully enforced through the legitimate channels of Government; declares all legal methods of treating this monstrous public evil, which are not strictly prohibitory, to be erroneous, vicious in principle, evasive, misleading, powerless for good, and to merit the unqualified condemnation of all candid citizens."

THE CURRENCY.—"The money of the country should be issued by the United States Government only, and should be a full legal-tender for the payment of all debts, public and private. It should consist of gold and silver, with free and unlimited coinage of each at the ratio of 16 to 1, supplemented by a full legal-tender greenback and fractional currency in sufficient amount to maintain a uniform circulation of \$50 per capita."

TARIFF.—Declares for the elimination of the tariff as a party question, demand

its divorcement from politics, and its permanent reference to a non-party commission for gradual adjustment from time to time as the changing conditions of trade and of revenue may require.

MISCELLANEOUS.—Favors an income tax. Declares that the President, Vice-President and United States Senators should be elected by direct vote of the people, and that methods of legislation known as the initiative and referendum should be adopted. Opposes trusts, artificial monopolies and other combinations to raise prices on articles of necessity; declares that the telegraphs, telephones, railroads and other institutions and industries of public character and necessity, when they become monopolies to the exclusion of competition, should be controlled by the Government.

MINNESOTA REPUBLICAN.

July 11, 1894.

The platform deploras the "depressed condition of American industries under Democratic misrule by theorists and reckless and dishonest experimenters in statesmanship. Discredited in foreign diplomacy, our home industries prostrate and our people idle, there is no aspect of public affairs which the patriot can contemplate with satisfaction." It pledges that the Republican party will, in the future as in the past, give such care for the interests and rights of all classes, that law and order shall be maintained; that labor will be assured of its just reward, unrobbed by monopolies and trusts, and industry be again free to resume its activity beneficent alike to employer and wage-earner.

TARIF.—"We favor a protective tariff under which, upon imports competing with the products of American labor, duties are levied equal to the differences between the wages and labor at home and abroad. And as to imports, other than luxuries not so competing, we believe that the same should be admitted free of duty, so far as the requirements of the Government may permit. But the principles of reciprocity should be so incorporated in our tariff laws as to give new and enlarged markets for the products of the country."

FINANCE.—"The Republican party believes in the use of both gold and silver as money, maintaining the substantial parity of value of every dollar in circulation with that of every other dollar. It believes in bimetallism and that the restoration of silver as ultimate money to the currency of the world is absolutely necessary for business prosperity, proper rates of wages, and the welfare of the people. Holding these views, we believe it should be the policy of the United States to do everything in its power to promote the restoration of silver to the world's currency."

ELECTION LAWS.—"We demand a free ballot and a fair count, and for every citizen the right, unmolested, to cast one ballot in any election, and to have that ballot honestly counted as cast. The mission of the Republican party will not be ended until in every State of the Union all citizens, black or white, native

or foreign born, shall be equal in the courts and at the ballot-box."

TRUSTS.—"We are opposed to all trusts and combinations seeking to control or unduly enhance the prices of commodities, and we are in favor of eradicating or repressing the same by suitable and effective laws."

LABOR.—"We are, and have been, in favor of the following laws: (1) to protect the health, the life and limb of all employees of transportation, mining and manufacturing companies; (2) to establish and maintain boards or tribunals of conciliation or arbitration, whereby the differences between employers and employed may be settled and adjusted by peaceful means without strikes or lockouts; (3) to reclaim and to preserve the public domain for actual settlers under homestead laws."

IMMIGRATION.—"All proper and necessary measures should be adopted and enforced to exclude from our shores all paupers, criminals and other dangerous and undesirable classes of immigrants."

CORPORATION CONTROL.—"Telegraph, telephone, railroad and all other transportation companies and all corporations or individuals performing any public service or employment are amenable and subject to public control; and we favor the enactment and enforcement of such laws as will compel them to render efficient and approved service at fair and reasonable rates, without favor or discrimination as to persons or places."

PENSIONS.—"The pensions awarded by a generous nation to the disabled and unfortunate veterans of the late war, their widows and orphans, should be given them with a fair and generous hand and not grudgingly and with restraint. We deprecate the parsimonious, super-critical and harassing attitude of the present Democratic Administration in its treatment of the present beneficiaries of our pension laws."

MINNESOTA DEMOCRATIC.

September 6, 1894.

The platform commends the President, favors popular elections of United States Senators, denounces the American Protective Association, and urges arbitration in labor troubles.

MINNESOTA POPULIST.

1894.

TRUSTS.—"We demand such legislation as will break up the great combinations which plundered the farmers for twenty-five years past, and secure to the agricultural population an absolutely free market for their cattle, wheat and other products."

THE REFERENDUM.—"We demand that the people shall have the right to initiate needed measures of legislative reform, and that they shall have the right, by referendum, to veto, at the ballot-box, any law inimical to their interests."

WOMAN SUFFRAGE.—"We demand that there be no limitation upon suffrage dependent upon sex, believing in the doctrines of 1776, that representation should accompany taxation."

THE LIQUOR TRAFFIC.—"We demand the nationalization of the liquor traffic

and its management by the State without profit."

LABOR AND THE ARREST OF DEBS.—"We therefore recommend to our suffering countrymen, especially those of the laboring classes, that peaceful and effective remedy for the wrongs which, in this country, the ballot gives to free men, and which destroys no property except watered stock, and injures no values except those of fiction and fraud."

SECTARIANISM.—"We affirm that we are opposed to the use of public revenue or funds for sectarian purposes of any kind whatever."

MISSISSIPPI DEMOCRATIC.

June 8, 1892.

Condemns the McKinley bill and the "outrageous Force bill," indorses the Administration of Grover Cleveland, and calls on all good men, irrespective of past differences, to remember the records of the Republican party in its control of the South, asserting that its dominance is a perpetual menace to domestic tranquillity.

MISSOURI REPUBLICAN.

August 15, 1894.

TARIFF.—"We again declare for a system of protective duties, adjusted so that every American resource can be developed by American labor, receiving American wages; and we insist upon a tariff that will accomplish these ends. We have but to mention the disastrous results that have followed the mere menace of free trade as conclusive evidence of the wisdom of the Republican policy in the past upon the subject. We favor the enactment of laws that will prohibit the immigration of Anarchists, and demand the strict enforcement of the immigration laws."

HAWAII.—"We extend to the people of Hawaii, in their struggle to establish and maintain liberal and free institutions for the Government, our hearty sympathy, and we assure them that the conduct of the present Administration in its endeavors to force upon them by hostile menace a corrupt and semi-barbarous monarchy, does not meet with the approval of the American people."

MONEY.—"We favor the largest possible coinage of silver that is consistent with the permanent maintenance of equal purchasing and debt-paying power of all dollars in circulation. We do not want monometallism of either gold or silver, and we pledge ourselves to continue to work for bimetalism to be brought about by all means within the power of the Government."

PENSIONS.—"The Republican party, ever mindful of the patriotic services and sacrifices of the veteran soldiers of the Republic, reaffirms its position in favor of liberality to the Nation's defenders. We favor the granting of pensions to all honorably discharged Union soldiers and sailors whose disabilities or necessities justly entitle them thereto. And we unqualifiedly condemn the illegal action of the Pension Department of the party in power."

MISSOURI DEMOCRATIC.

May 16, 1894.

There were two platforms presented, one a majority and the other a minority report. The former practically favored the free coinage of silver at a ratio of 16 to 1, and contained a fierce attack upon the American Protective Association. The minority report contained this on silver: "We hereby reaffirm the declaration of the Democratic principles placed before the country by the last Democratic National Convention assembled at Chicago on June 22, 1892, and ratified by the State Democratic platform adopted at Jefferson City, July 30, 1892."

The majority, or Bland report, as adopted, contained this silver plank:

"We therefore demand the free bimetallic coinage of both gold and silver, and the restoration of the bimetallic standard as it existed under our laws for over eighty years prior to the demonetization of standard silver dollars in 1873, and should it become necessary in order to maintain the two metals in circulation, to readjust the ratio, it should be determined whether gold has risen or silver has fallen, and whether there should be a change of the gold dollar or the silver dollar, or both, to the end that whatever ratio is adopted the rights of both creditor and debtor shall be preserved alike, having in view the demand of the people for an adequate circulating medium. We declare that we are not in favor of gold monometallism or silver monometallism, but that both should be coined at such ratio as will maintain the two metals in circulation. We insist upon the Democratic doctrine of Jackson and Benton, that all money issued by the authority of Congress shall be issued and its value maintained by the Government. That we are opposed to farming out to National banks the right to issue circulating notes. That we are opposed to further increase of the interest-bearing debt of the Government."

TARIFF.—"The majority report denounces the McKinley bill and disapproves of the action of every Democratic Senator and Representative in Congress who opposes and delays the passage of a bill decreasing the import duties imposed by that law. It favors an income tax, and demands the free bimetallic coinage of both gold and silver, and the restoration of the bimetallic standard. It opposes farming out to National banks the right to issue circulating notes, and also any further increase of the interest-bearing debt of the Government."

MISSOURI POPULIST.

March 27, 1894.

GOVERNMENTAL OWNERSHIP OF RAILROADS.—"We reiterate with emphasis the demand as embodied in the Omaha platform for Government ownership of railroads as the only just and correct solution of the transportation question."

THE REFERENDUM.—"We favor the adoption of the principle of the initiative and referendum as now practised in Swit-

zerland and largely advocated throughout this country."

MONTANA REPUBLICAN.

May 9, 1892.

PROTECTION AND RECIPROCITY.—Reiterates advocacy of Republican doctrine of protection, recognizes in the McKinley bill the most consistent and beneficial embodiment of that great principle that has ever graced the statute books of the United States; indorses reciprocity; denounces vicious attempts of Democrats in Congress to undermine protection by the insidious and dishonest method of attacking the system through those industries that are not numerically strong at the polls, or in Congress, and, in particular, denounces the Free Wool bill; condemns the action of Representative W. W. Dixon in voting in favor of that repeal; also denounces efforts of Democrats in Congress to admit free of duty the lead ores of Mexico, a measure that would expose the labor of Montana to competition with that of a country where wages scarcely exceed 50 cents a day, and bring ruin and disaster upon the great mining industry which is so large a factor in affording employment to workmen, in the creation of wealth and in promoting the prosperity of the State.

CURRENCY AND SILVER.—"We view with pleasure the demand from all sections of the country and all classes of our people in behalf of the free coinage of silver in the ratio existing previous to the act of 1873, and that it be made a legal tender in all sums and for all debts, public and private, except when otherwise expressly provided; we believe it to be in an essential degree obligatory upon the Republicans of the silver producing sections of the country to raise their voice in unison with those who are moving forward in the Congress of the United States and in the conventions of the party to promote this just and most beneficent policy; and our delegates to the Republican National Convention are accordingly instructed to strive diligently to secure recognition for the cause of free and unlimited coinage in the platform and candidates of the party."

NEBRASKA REPUBLICAN.

August 22, 1894.

TARIFF.—"In view of the practical results of a year and a half of Democratic rule, we reaffirm with renewed faith and fervor the platform of the National Republican Convention at Minneapolis. We demand the restoration of the American policy of protection and commercial reciprocity with our sister republics of Mexico, Central and South America, and the Governments of the West Indies Islands."

MONEY.—"While we favor bimetalism and demand the use of both gold and silver standard money, we insist that the parity of the value of the two metals be maintained, so that every dollar, paper or coin, issued by the Government shall be as good as any other."

COMMERCE.—"We adhere to the doctrine that all railway lines are subject to regulation and control by the State. We are in favor of the enactment of laws

by Congress that will provide for the supervision, regulation and control of corporations engaged in interstate commerce, with a view of preventing the fictitious capitalization and excessive bonding of such corporations."

LABOR.—"We recognize the rights of laborers to organize, using all honorable measures for the purpose of dignifying their condition, and placing them on an equal footing with capital, to the end that they may both fully understand that they are necessary to the prosperity of the country. Arbitration should take the place of strikes and lockouts for settling labor disputes."

IMMIGRATION.—"The extirpation of anarchy is essential to the self-preservation of the Nation, and we therefore favor the pending bill in Congress for the exclusion of Anarchists."

NEBRASKA DEMOCRATIC.

September 6, 1894.

ADMINISTRATION.—"We indorse the Administration of Grover Cleveland as wise, patriotic and statesmanlike, and we congratulate him upon his selection of that sound Democrat and economist, J. Sterling Morton, to a seat in his Cabinet."

CURRENCY.—"We indorse the principles of faith as set forth in the National Democratic platform adopted at Chicago in 1892, including the money plank, and we accept the construction placed upon that plank by Grover Cleveland as a sound interpretation, and insist that every dollar issued or coined by the Government shall be as good as every other dollar."

TARIFF.—"While the Wilson Tariff bill does not embody the full measure of tariff reform, we regard its passage as a step in the right direction, and we heartily indorse its provisions as securing cheaper and freer raw material and lower taxes."

NEVADA REPUBLICAN.

August 24, 1894.

SILVER.—"The 'silver question' is by far the most important issue before the people of this country to-day. We believe that the destruction of the true standard of value by the demonetization of silver in 1873 was a grave wrong to every silver mining State and Territory in the Union; that it increased the burden of all debts and enriched the creditor classes at the expense of everybody else; that it paralyzed the productive energies of the entire country, depressed business of every kind except that of money lending, and that there can be no permanent return of prosperity to our country until silver shall have been restored to its full use and highest position as a money metal; and as the only perfect mode of so restoring it we demand the free and unlimited coinage of both gold and silver at the ration of 16 ounces of silver to 1 ounce of gold, with full legal-tender functions accorded to each, and no discrimination against either. This action we demand by the United States acting independently and wholly regardless of what any other nation may or may not do. We hereby pledge our candidate for Congress and request our United States Senators to

make the question of silver paramount to every other, to treat it as strictly non-partisan, which it is; to hold themselves free from all party dictation concerning it, and to use all honorable means to bring about its complete restoration at the old time ratio of 16 to 1."

TARIFF.—"We believe that under any monetary system that can be adopted the protection of the American producer against the blighting and destructive competition of cheap labor abroad is also a matter of vast importance to the great body of the American people. Upon this question we are in hearty accord with the principles of the National Republican party. We believe that the wool-grower, the silver-lead miner, the sulphur miner, the borax maker and all other producers are entitled to live as befits American freemen, without being brought down to the wage level and social conditions of the poorest paid labor in the world. We arraign Senator Stewart for his failure to vote on the motion to strike out the differential duty on refined sugar, thus not only showing his disposition to favor the gigantic sugar trust, but failing to kill at a blow the obnoxious Wilson bill, which is now threatening the very existence of some of the most important industries in the State of Nevada, including that of wool production, which even now furnishes subsistence to a large number of our people."

MISCELLANEOUS.— Urges restriction of immigration solely with a view of relieving the labor market and insuring to the American citizen, whether native or foreign born, an honest day's pay for an honest day's work; favors arbitration of differences between capital and labor; favors legislation for the adjustment of indebtedness of the Southern Pacific Railroad.

NEVADA DEMOCRATIC.

September 12, 1894.

PRINCIPLES AND CURRENCY.—"Declares and reaffirms its fealty to Democratic principles, and its unalterable devotion to bimetalism and the free and unlimited coinage of silver at the ratio of 16 to 1, and we denounce the Republican party for its base treachery to silver by the demonetization act of 1873, and its subsequent pretended advocacy of the cause of the white metal."

TARIFF.—"We congratulate the Democratic party and the people of the United States upon the fact that notwithstanding the determined opposition of the Republican party, a beneficial measure of tariff reform has been enacted."

U. S. SENATORS.—"We favor the election of United States Senators by a direct vote of the people."

LABOR.—Sympathizes with every lawful effort to secure to laboring men full and just compensation for their labor, and indorses the establishment of tribunals of arbitration for the settlement of disputes between capital and labor.

PACIFIC RAILROADS.—Opposes the extension of time for payment by the Pacific Railroads of their debts to the National Government, as contemplated by the Riley Funding bill, and demands the prompt foreclosure by the Government of

its mortgages upon said roads as the debts secured thereby become due, and favors the Government ownership and operation of said roads.

IMMIGRATION.—Favors restriction of immigration and the strict enforcement by the courts of the naturalization laws.

NEVADA POPULIST.

September 7, 1894.

Indorses the Omaha platform of 1892, reiterates the demand of the National platform for the free and unlimited coinage of gold and silver at the rate of 16 to 1, and demands the unconditional repeal of National bank laws, the Government issue of legal-tender notes and a system of Government loans. It declares itself unalterably opposed to the issuance of Government bonds for any purpose whatever, demands that the general Government authorize the States having arid and swamp lands to employ idle labor to reclaim them, the Government defraying the expenses and levying the cost on the land so improved; demands the prohibition of Chinese and Japanese immigration and the restriction of other immigration; condemns the lottery amendment to the State Constitution; favors the election of Senators by a direct vote of the people; requests retrenchment in State expenses; demands Government ownership of railroads.

NEW-HAMPSHIRE REPUBLICAN

September 5, 1894.

DEMOCRATIC ADMINISTRATION.—Eighteen months of Democratic control of the executive and legislative departments of our Government have brought upon the country only disaster, dismay and disgrace. A foreign policy which has asserted itself most conspicuously in a conspiracy to destroy a friendly republic, enthrone upon its ruins a cruel and barbarous queen and subject to her vengeance thousands of loyal and intelligent natives of the United States, which is in all respects cowardly, dishonest, undignified and un-American, and of which the best that can be said is that it has ignominiously failed to accomplish its purposes. A fiscal policy which has created distrust abroad and apprehension at home, dissipated the gold reserve, emptied the Treasury, compelled the new issue of bonds, and in its abject helplessness has no measure of relief to propose except the "coinage of a vacuum." A pension policy which has without hearing or investigation branded thousands of Union veterans as frauds and withheld from them the support which they earned by heroic sacrifices and to which the law entitles them. A civil service policy which, while constantly mouthing reform, sells a foreign mission for \$50,000, turns over the consulates to be looted by a professional spoilsman, and places the Federal patronage in all domestic departments at the disposal of party bosses or uses it to coerce Senators and Representatives into a surrender of their convictions and a betrayal of their constituents. An election policy that purposes to overcome honest majorities by

violence and fraud, and to that end has repealed the Federal Election laws. A revenue policy which remits to foreigners the amounts they have been compelled to pay for the privilege of selling in our markets, and purposes to balance the resulting deficiency by picking the pockets of every man, woman and child who has a dollar invested in corporations, instituting an inquisition into the private affairs of all who are suspected of successful industry and skill, and seizing 2 per cent of their income in excess of \$4,000, and by laying an onerous and hateful tax upon an article of such prime necessity and universal use as sugar. A tariff policy which strips legitimate industry of protection, and forces home producers into competition with the pauper labor of the Old World; which binds all classes of consumers that they may be constantly plundered by insatiable trusts and merciless monopolies, which the President, by whose assent it has become the law, denounces as party perfidy and party dishonor, outrageous discrimination, and the spoliation of the producer for the benefit of corporations and capitalists; which no Congressman attempts to defend, and which is hated and abominated by all parties and all sections; which has paralyzed business, annihilated values, destroyed the purchasing power of the people, driven capital into disuse, robbed a million and a half of workers of employment, and reduced the earnings of many millions more; which has swept away from capitalists the accumulations of years, and pauperized the poor, turned back the wheels of progress, put privation and want in the place of plenty, spread distress and desperation among all classes, developed Coxeism, and let loose the horrors of Anarchy. These are the harvest which has been reaped from the sowing of 1892.

NATIONAL PLATFORM.—Reaffirms the principles adopted by the National Convention in 1892.

TARIFF.—Emphatically protests against any further change in the tariff laws until it can be made by sincere friends of protection, and they insist that there shall be no proscription of any man, or abridgment of his legal rights because of his color, social condition, or religious or political beliefs.

NEW-HAMPSHIRE DEMOCRATIC September 6, 1894.

TARIFF.—"Already its beneficial effects are seen in the revival of business, and when it shall have been perfected in accordance with the recommendations of President Cleveland, the people will be relieved of the oppressive burdens of taxation imposed upon them by the McKinley law. We unqualifiedly indorse President Cleveland and the National House of Representatives in their efforts to fully redeem the pledges of the party to the people, and we especially approve of the wise, patriotic and statesmanlike course of the President through the great difficulties he has encountered."

PENSIONS.—"The pension roll should

be made and kept a roll of honor, and we favor a liberal interpretation and just enforcement of the pension laws."

MISCELLANEOUS.—Denounces the American Protective Union; declares sympathy of the party with every lawful effort to secure full compensation for labor; the betterment of the condition of the laboring men, and the promotion of their moral, social and material advancement.

NEW-HAMPSHIRE PROHIBITIONIST.

July 13, 1894.

LIQUOR.—"We demand the prohibition of the manufacture, importation, exportation, transportation and sale of intoxicating liquors as beverages, by both National and State legislation, and the exercise of the full powers of Government to obtain this result."

SUFFRAGE.—"While we do not advocate unconditional nor universal suffrage, we see no good reason why it should be conditioned on sex. The great mass of our women are far more intelligent and patriotic than thousands of our male voters."

SCHOOLS.—"We stand for our public school system, and against any appropriation of public moneys for sectarian schools. Denominational schools should be sustained by private beneficence."

TARIFF.—"We believe the tariff, under a fair general law, should be intrusted to a commission of fair-minded business men, and that such a commission can deal more wisely and safely than Congress with complex questions that arise."

LABOR.—"We sympathize with the desires of laboring men to better their condition, and favor wise arbitration when disputes arise between employers and employees; but we believe that no permanent improvement of the labor class is possible until the liquor power is overthrown."

NEW-JERSEY REPUBLICAN.

September 13, 1892.

TARIFF.—Reaffirms belief in protection, opposes pernicious doctrine of free trade, whether presented in its own true name or disguised as tariff reform, and repudiates Democratic doctrine as enunciated in the platform of that party that "the Federal Government has no constitutional power to impose and collect tariff duties, except for the purpose of revenue only."

TRUSTS.—"We denounce as utterly vicious, scandalous and contrary to public policy the passage by the last Democratic Legislature, under the direction of the Democratic Executive, with the co-operation of the members of the Democratic State Executive Committee, of a bill to legalize an unconstitutional and pernicious combination of corporations engaged in the production and carrying of coal, as the result of which the prices of this necessary commodity have been increased and the burdens of consumers have been vastly augmented."

STATE DEMOCRACY.—"We arraign

the Democratic party of the State for the atrocious crimes against the rights and liberties of the people. We pledge ourselves to the thorough reform of these evils, and we appeal to all patriotic voters in the State to aid us in the re-establishment of a government of which Jersey-men need not be ashamed. We are opposed to an administration of the State government for personal uses, the subserenity of the Legislature and the courts to executive dictation; to the abolition by the Legislature under executive orders of local home government; to the multiplication of public offices and the increase of salaries for the furtherance of personal and political ends; to the appointment of public officers for a stated consideration to be paid to the party campaign fund; to the pardon of convicts in the State Prison; to the unheard of extravagance of the present State administration in the expenditure of public money; to clothing the Governor with dictatorial powers by acts of a Legislature obsequiously subject to executive control; to the creation of unnecessary boards and commissions for partisan purposes, investing them with arbitrary powers, and placing them beyond the control of the people, making their terms of office subject to the will of the Governor; to evasions and misconstructions of the Constitution by the chief executive to secure political and personal support; to the countenance and support by State officials and party leaders of race-track gambling, with all its attendant evils; to the destruction of the right of suffrage by false registry, ballot-box stuffing and fraudulent count of votes, and to the general maladministration of public affairs, which during the present current administration have brought shame and disgrace upon the State."

NEW-JERSEY DEMOCRATIC.

May 25, 1892.

SILVER.—"We condemn the policy of free coinage of depreciated legal-tender silver and also further purchases of silver bullion under the Republican legislation of 1890, and we believe that the whole matter of the use of silver as a money metal should be relegated to the further concerted action of the commercial nations."

NEW-JERSEY DEMOCRATIC,

September 14, 1892.

FRAUDS.—"We denounce all frauds perpetrated upon the elective franchise, and we call the attention of the people to the fact that prosecution and punishment of those crimes have been the work of a Democratic court and prosecutor and Democratic jurors. We ask from fair-minded citizens a comparison of this fact with the action of a Republican Senate, which voted to seat a Senator from Hudson, a man who every one knows was not entitled to the office. The action of that Senate was protected by a constitutional privilege, but it was none the less a crime."

NEW-YORK REPUBLICAN.

September 18, 1894.

DEMOCRATIC ADMINISTRATION.—"The Democratic President of the United States and the Democratic chairman of

the Ways and Means Committee of the House of Representatives have announced that the war against the protected industries of the country has but just begun, and that it is to be prosecuted to the bitter end. On behalf of the wage-earner, the agriculturist, the business man, and of every sacred interest in the Empire State of the Union, the Republican party of the State of New-York, in convention assembled, accepts this challenge and pledges its faith to defend against all assault the rights of the workingman and his employer, both wantonly invaded by reckless demagogues. We invite the people to compare the pledges of the Democratic party with the performances of a Democratic Administration. The fitness and capacity of the Democracy to govern must be judged by its record. Its most important achievement thus far has been fitly characterized by the Chief Executive of its choice as one of 'perfidy and dishonor.' Denouncing political corruption, it has rewarded the largest contributors to its campaign fund by the bestowal of foreign missions; denouncing trusts, it permitted one of them to formulate its Tariff bill; promising a continuance of the vigorous foreign policy established by the lamented James G. Blaine, it substituted a 'policy of infamy' when Hawaii was freely offered us; denouncing the Sherman act as a cowardly makeshift, it was enabled to repeal the silver-purchasing clause of that act only by the help of Republican Senators; arraiging protection as 'a fraud upon labor,' it passed a mongrel protective measure, so tainted with scandal that it barely escaped the veto of a Democratic President; advocating free raw materials and an extension of our foreign trade, it destroyed all the profitable reciprocal agreements made by President Harrison; pledging itself to the payment of 'just and liberal pensions,' it treats the Union soldier as if the Grand Army badge were the badge of beggary and brigandage; pledging retrenchment, it exceeded at the last session of Congress the expenditures of the corresponding session of the last Republican Congress by \$27,000,000 in the face of decreasing revenues, and after it had added \$50,000,000 to the public debt; while pretending to be in favor of individual freedom, it hastened to enact an odious income tax force bill, empowering deputy collectors to enter the homes of citizens and compel them, by threats of official summons and heavy penalties, to disclose their private affairs."

STATE ADMINISTRATION.—"In this State, as in the Nation, Democratic pledges are made to be broken. The Democratic party made its solemn pledge to economize State expenditures, abolish useless State commissions, reduce the tax rate, perfect ballot reform, strengthen electoral safeguards and establish home rule. Every one of these Democratic pledges has been disgracefully disregarded, while the Republican pledges have been honestly kept, especially those for the repeal of the anti-home rule legislation and a reduction of public expenditures and a diminished tax rate. The legislative appropriations for the last year

were nearly \$2,224,000 less than those of the preceding Democratic Legislature, and the tax rate was reduced from 2.58 in 1893 to 2.18 in 1894, or nearly 16 per cent. Much more would have been accomplished by the Republican Legislature last winter but for the persistent interference of the Executive."

TARIFF.—"We denounce Northern Democratic Congressmen for permitting Southern members to protect the chief products of their section while removing or largely reducing protective duties on the products of the North; thus permitting the South, by legal enactment in time of peace, to destroy our prosperity and accomplish what it failed to do by illegal enactment in time of war. And we especially denounce the Democratic Representatives from this, the greatest manufacturing State in the Union, whose annual manufacturing product exceeds that of the entire South by \$500,000,000, for their treachery and cowardice in aiding the passage of a sectional Tariff bill, that has crippled the industries and reduced the wages of workingmen, and that levies a tax on incomes which is a tax on prosperity. We ask all who favor a discontinuance of tariff agitation, or who believe in the restoration of Republican protection, to elect Republican members of the House of Representatives in every district, so that our industrial interests may be properly represented in the councils of the Nation, and not, as at present, left utterly unrepresented in the leading committees, upon which the framing of tariff and financial legislation largely depends. On behalf of the farmers of New-York, we protest against free wool, which means the destruction of our sheep husbandry, and which has brought the price of wool to the lowest figure recorded. We denounce the Federal Administration for surrendering an annual revenue of \$8,000,000 on wool and imposing a burden nearly ten times greater by levying a tax on sugar, the commonest household necessity. We protest against the removal of the protective barrier to the importation of Canadian agricultural products. The farm products of New-York deserve protection equally with the rice of South Carolina and the sugar of Louisiana. We denounce the Administration for striking out the agricultural schedule of the McKinley bill and substituting an agricultural free list fraught with ruin to the farmers."

GOVERNOR FLOWER.—"We arraign the Administration of Governor Flower for its glaring sins of omission and commission. The Executive of this State was the accomplice of the odious Democratic machine which stole the Legislature. He rewarded the chief partisan in that great political crime with a place in the highest court of the State, an insult that the people resented last fall, and will hasten again to resent; he indorsed the shameless legislative gerrymander by the stolen Legislature; he put the canals in the hands of party workers and made a highway of politics of a highway of commerce; he blocked the path of ballot reform and of home rule, in violation of his solemn pledges; he vetoed the bill to provide funds for the police investigation

in New-York, and thus attempted to prevent the disclosure of the unspeakable infamies of Tammany's Police Department by the Lexow Committee; he made a mockery of Civil Service reform, and in every emergency was the ready tool of machine bosses instead of being the Governor of the State; posing as the friend of workingmen, he refused to give them a hearing when they appealed to him in the panic, and publicly declared that the charities of New-York were abundantly able to furnish them relief; proclaiming his desire for a pure ballot, he expelled from the Executive Chamber, with threats of arrest, a non-partisan delegation of eminent citizens from Troy, who appealed to him to prevent election crimes that subsequently stained that city with the blood of a Republican martyr."

CONSTITUTIONAL CONVENTION.—"We recognize the wisdom of the Constitutional Convention in dealing in important and needed revision and amendment of the Constitution of the State, and commend the action thus far taken by that convention to the favorable consideration of the people."

CANALS.—"We favor wise and judicious improvement of the canal system of the State, to meet the needs of the people and to promote the facilities of transportation."

LABOR.—"We recognize the right of labor to organize for its advancement and protection, and favor any plan of arbitration that will open the practical way for the settlement of difficulties between employer and employed, with recognition of the rights of both."

MONEY.—"We favor an honest dollar, and oppose any effort, whether by the removal of the tax on State bank issues or the free coinage of silver, to lower our currency standard; and we favor an international agreement which shall result in the use of both gold and silver as a circulating medium."

STATE COMMISSIONS.—"We favor the abolition of all useless State commissions and the consolidation of others, wherever this can be effected in the interests of economy and the improvement of the public service. Since the Administration of the last Republican Governor, the annual cost of these commissions has increased from \$67,000 to more than \$1,000,000; and, though Governor Flower promised a reduction of State commissions, he subsequently advocated their extension and increase, and during his Administration their expenditures rose to the highest aggregate."

PLEDGES.—"We approve the conduct of the Republican Legislature of last winter, and commend the administration of the Republican State officials elected last fall. With the election of a Republican Assembly and a Republican Governor and Lieutenant-Governor, we pledge to the people a free ballot and a fair count, practical ballot reform, free and fair primaries as fully protected by law as general elections, an improved Civil Service, municipal home rule, a just apportionment, reduced State expenditures, an equitable system of taxation, an acceptable Excise law, adequate protection from

unjust discriminations by monopolies, and a minimized tax rate."

N. Y. REPUBLICAN LEAGUE.

September 17, 1894.

The resolutions deplore the condition of the workmen, farmers and manufacturers of the State in consequence of the establishment of a Democratic National Administration and the election of a Democratic Congress; declare that the "prosperous condition of the country's affairs disappeared with amazing rapidity upon the inauguration of a Free-Trade Democratic President and Vice-President. Foreign capital in enormous masses was withdrawn from the country and a financial panic of tremendous proportions followed. Hundreds of thousands of workmen lost work, and other hundreds of thousands were compelled to submit to a serious diminution of their wages.

"The Democratic President and the Democratic Congress took no effective steps to allay the country's sufferings. Upon the contrary, after pottering for a year over financial bills and a Tariff bill lowering tariff rates toward a free-trade basis, they have passed the Gorman Tariff bill, a measure which surely will intensify the distress of the workmen and farmers and business men of every State in the Union. A gigantic trust has been permitted to dictate the terms of a tariff act, and a Democratic President has not had the courage to veto this infamous act of legislation.

NEW-YORK DEMOCRATIC.

September 26, 1894.

NATIONAL LEGISLATION.—"We therefore rejoice that by the repeal of the Sherman law for the purchase and storage of silver bullion all fear of a depreciated currency has been allayed and faith has been restored in the ability of the Government to maintain a constant parity between its gold and silver coinage; that by the repeal of the McKinley Tariff law the inordinate taxation of the many for the benefit of the few has been notably diminished, and in the place of inequitable and monstrous customs duties which have starved some industries and overfed others, the tariff schedules have been adjusted so that, while affording ample safeguards for American labor, they reduce the price to the people of necessities of life and encourage the promotion of industry by cheapening the cost of many raw materials used in manufactures; and that by reduction in expenditures wherever possible, and by provision for additional revenues, the legitimate demands upon the Federal Treasury will no longer exceed the Government's income and necessitate an increase in the public debt."

TARIFF.—"We concur with President Cleveland that the new Tariff law does not embody the full measure of tariff reform, but with him also we indorse its provisions for cheaper and free raw materials and lower taxes, as a substantial recognition of Democratic principles, and we bespeak for the law an impartial trial, confident that its successful operation will convince the people of the wisdom of

Democratic policy and induce them to demand its proper extension. While favoring, therefore, such wise modification and readjustment of particular schedules, by the enactment of separate bills, as future conditions and the fulfilment of Democratic pledges may require, we deprecate, pending a fair trial of the law by actual operation, any further general tariff revision, which under present conditions would be likely to retard improvement in business, and thereby prolong the evils brought upon the country by Republican folly."

FEDERAL ELECTIONS.—"We commend the enactment by the Democratic Congress of other measures of public importance demanded by the people, particularly the repeal of the Federal Elections law, and the stringent legislation for the suppression of trusts."

INCOME TAX.—"We commend the efforts made by the Senators and Representatives in Congress from this State to avert the imposition of the present income tax."

TRUSTS.—"We recognize in the trusts and combinations which are designed to enable capital to secure more than its just share of the joint product of capital and labor a natural consequence of the prohibitive taxes which prevent the free competition which is the life of honest trade, but believe the worst evils can be abated by law; and we demand the rigid enforcement of the laws made to prevent and control them, together with such further legislation in restraint of their abuses as experience may show to be necessary."

ADMINISTRATION.—"We heartily indorse the honest purpose and high ideals which have characterized the Administration of President Cleveland, and we renew to him the pledge of our earnest support in all his efforts to secure the enactment of Democratic measures and the carrying out of Democratic policies. We have confidence that the people of the State, by their expression at the polls in November, will sustain his Administration, and by the re-election of Democratic Representatives in Congress show their appreciation of faithful service and their condemnation of that Republican incompetence which was responsible for the financial panic of 1893."

N.Y. INDEPENDENT DEMOCRATS.

October 9, 1894.

Declares that the Kings County delegates were dishonestly and unfairly excluded from the Saratoga convention by the vote of a packed and interested committee, and a vote under gag law in the convention.

TARIFF.—"We stand for tariff reform and the unshackling of American industry. Commercial crises and industrial stagnation, resulting from the Sherman law and the McKinley bill, have made way for already reviving prosperity under the new tariff. Facts tell, and the people will sweep away such other taxes as fence us in from the markets of the world. We honor the Democratic House for its fight for the Wilson bill; we condemn the traitors to Democracy, agents of the trusts, in the Senate, and favor

the election of Senators by the people. We ask the House to insist at the next session on free coal, free ores, and the repeal of differential duties benefiting the Sugar Trust and of all other duties favoring trusts."

CURRENCY.—"We favor a sound currency and a safe banking system, which will extend throughout the country the money advantages of the cities, and which can be based only on an honest dollar of a single standard of value."

DAVID B. HILL.—Criticises the apportionment plan adopted by the Constitutional Convention as dangerous to the principles of democratic government, and blames for this "danger to Democracy David B. Hill, whose political shortsightedness in forcing the nomination of Maynard threw the convention as well as the Legislature into the hands of our political opponents; and we ask fair-minded Republicans, with whom we voted against Maynard, to vote with us against this unjust and partisan apportionment"; commends President Cleveland for his service in the repeal of the Sherman law, and his staunch support of true tariff reform, and denounces the "so-called Democratic Senator, again a candidate for Governor, who is a Democrat only when Democracy means himself; who, in the Senate of the United States, has opposed the Democratic President, voted against the paramount principle of the Democratic platform, excluded himself from the councils of the Democratic party, and demeaned the Democratic State of New-York; whose political career has been built upon corruption; who has prostituted an able intellect to evil ends; who planned and directed the political crime rebuked in 1893 by a majority of 100,000; who is the arch enemy of good government and real reform."

Commends Everett P. Wheeler as a worthy and loyal Democrat for the office of Governor.

NEW-YORK STATE DEMOCRACY **October 9, 1894.**

TARIFF.—Hails the new tariff bill as a decided step toward genuine reform, and while recognizing that it is not a fulfilment of the promises and pledges given the people by the Democratic party, its omissions and mistakes can be readily corrected without general or widespread disturbance of existing economic conditions. Urges Democrats to stand loyally together in the effort to return a Democratic Congress to "complete the work that has been so well begun."

TAMMANY.—Denounces Tammany Hall as inimical in its principles and practices to the best interests of the Democratic party, and charges it with "responsibility for the shocking maladministration of public affairs in this city, as revealed by recent investigations."

- NEW-YORK POPULIST. **September 11, 1894.**

MONEY.—"The establishment of a pronounced American financial system in the interest of the American people, industries and enterprise, instead of a continuance of the present gambling system

of European and American money changers and Shylocks."

LABOR.—"We demand legislation for the benefit of labor, such as: The construction of public works, so that the unemployed labor may be utilized; that the eight-hour labor laws be effectively enforced; that State arbitration in case of strikes be made obligatory upon public works and employing corporations, and that the Board of Arbitrators be elected directly by the people; that the so-called labor conspiracy laws be modified so that wage workers may do collectively what is lawful when done by them singly; that employers be held responsible for injuries sustained by employees, the same as in the case of non-employees."

SECTARIAN SCHOOLS.—"We oppose all grants of public moneys to any sectarian, parochial or religious schools, societies or corporations."

REFERENDUM.—"The emancipation of the people from political bossism, and the opening of the Legislature to the people by means of practical initiative and referendum laws, and the provision of meeting places for the people for public consultation, without asking the permit or license of the police."

NEW-YORK PROHIBITION. **June 27, 1894.**

LIQUOR.—"The alcoholic drink traffic should be entirely suppressed by legal enactment, and the sale of alcohol for mechanical and other legitimate purposes should be regulated as the sale of other poisons is regulated in the interests of public welfare."

TARIFF.—"A non-partisan tariff commission of experts should be empowered to revise the tariff schedule in accordance with the principle of protection to American labor. To this end such protection should not exceed the ascertained difference between the scale of wages actually paid by protected American manufacturers and that paid by their foreign rivals. We denounce the partisan demagoguery on the tariff and other public questions carried on in halls of the National Legislature for the purpose of party supremacy as being a menace and disgrace to popular government."

FINANCE.—"The currency of the country should be issued by the Federal Government alone, and should not be delegated to private individuals or corporations. Every dollar, whether of gold, silver or paper, should be legal-tender for the payment of all debts. The Government should establish postal savings banks so that small deposits can be made without risk to depositors."

MISCELLANEOUS.—Declares in favor of civil and political rights to women; opposes all trusts; favors State control and ownership of railroads, telegraph, telephone and other institutions and industries of public necessity when they become monopolies to the exclusion of competition; opposes appropriations of public money for sectarian institutions; demands the religious observance of Sunday; favors election of United States Senators by direct vote of the people; favors a separa-

tion of municipal and county from State and National elections, and restricting suffrage to citizenship in the United States of at least six months.

NORTH CAROLINA REPUBLICAN.

August 30, 1894.

SILVER.—"We favor a financial policy not in favor of mono-metallism, either of gold or silver, as the basis of a financial system, but of international bimetalism, and strenuous efforts of the National power to be directed against such foreign nations as adhere to the single gold standard. Under existing conditions, with no international agreement, we favor the free coinage of the entire product of American mines at the ratio of 16 to 1. Now and in the future all dollars should be of equal purchasing power, to the end that a suitable currency, abundant for all wants, shall secure to all the people the full results of their labor."

TARIFF.—"We favor a tariff for the protection of American labor against the underpaid and pauper labor of foreign countries, the Blaine system of reciprocity, and opposition to the Democratic policy which attempts its abandonment and repeal. We denounce the Tariff bill recently passed by the Democrats in Congress (which is now the law of the country without the signature, but the condemnation of the President) as un-American in principle and vicious in its operations, destructive of the prosperity of labor, and beneficial only to trusts and combinations of capital. We denounce the attempts of the Democratic party and its President to place the raw materials of the South on the free list."

LABOR.—Pledges its word to employ every means to promote all just demands of workmen, and to support whatever practical measures can be devised for the amelioration of their condition.

MISCELLANEOUS.—Favors the repeal of the Internal Revenue taxes on whiskey, brandy and tobacco; demands such laws as will guarantee each qualified voter one vote, and have that vote counted as cast, and demands that the farmer and householder be allowed the same exemption of taxes as is given to the bondholder and capitalist.

NORTH CAROLINA DEMOCRATIC.

August 8, 1894.

SILVER.—"We hold it is the duty of the law-making department of the Government now in the hands of the Democracy to take immediate steps to restore by legislation equal privileges of silver with gold at the mints by free and unlimited coinage of both gold and silver at the ratio of 16 to 1, such being the ratio of coinage which heretofore has held in the United States."

STATE BANK TAX.—"That we urge upon the said law-making department of the Government the abolition of the unconstitutional and prohibitive tax of 10 per cent upon the issue of State banks."

MISCELLANEOUS.—Demands the en-

actment of an income tax; emphatically approves the tariff doctrine enunciated by the Chicago platform, and commends the President for his sturdy effort to secure the passage of a tariff bill; favors the abolition of the Internal Revenue tax on spirits and tobacco.

NORTH CAROLINA POPULIST.

August 1, 1894.

The platform denounces the old parties and demands the issue of greenbacks and free coinage of silver, but omits the Sub-Treasury bill.

NORTH DAKOTA REPUBLICAN.

July 19, 1894.

TARIFF.—Earnestly and emphatically opposes free trade and the single gold standard of Great Britain; demands adequate protection for all home industries, North, South, East and West, so as to maintain the American standard of wages, and to this end favors a tariff on foreign goods competing with domestic goods equal to the difference between foreign and American wages. With the exception of articles of luxury, goods which, by reason of climate or other conditions, cannot be profitably produced in this country should be admitted free of duty.

RECIPROCIITY.—"By adherence to the Republican principle of reciprocity, new and larger markets can be and ought to be secured."

FINANCIAL.—Opposes the fiat money doctrine of the People's party, and demands the use of both gold and silver as standard money. Also demands that the mints be opened to the coinage of silver mined in the United States, with such restrictions and under such provisions, to be determined by legislation, as will maintain the parity of values of the two metals. Urges that Congress should levy a tax on silver imports sufficient to protect the American mints.

STATE BANK TAX.—Opposes the repeal of the State Bank tax, because a return to wildcat money issue would lower the country's credit, flood the land with worthless currency, and bring confusion, loss of confidence and National disaster.

LABOR DISPUTES.—Recommends that Congress provide an amendment to the Interstate Commerce law for the orderly settlement of all disputes between capital and labor on railroads.

FEDERAL ADMINISTRATION.—"We condemn the present Democratic Administration for opposing the Reciprocity clause of the Act of 1890; we condemn it for placing wool and other of our farm products on the free list; we consider it a disgraceful surrender to the rapacious Sugar Trust, the Coal Trust, the Lead Trust, and other monopolies; we condemn it for its unpatriotic interpretation of the pension laws, and for the hardships which it persists in imposing on the enfeebled veteran; we condemn it for the lowering of the Stars and Stripes at Hawaii, and for its attempts to replace a republican government by a rejected monarchy."

NORTH DAKOTA DEMOCRATIC. July 26, 1894.

TARIFF.—"We are in favor of tariff for revenue only and urge the prompt enactment of a tariff bill.

MONEY.—"We demand the free bimetallic coinage of both gold and silver and the restoration of the bimetallic standard as it existed for eighty years prior to the demonetization of the standard silver dollar in 1873, and, should it become necessary in order to maintain the two metals in circulation, to readjust the ratio, it should be determined whether gold has risen or silver fallen; and whether there should be a change of a gold or silver dollar, or both, to the end that whatever ratio is adopted the rights of both debtor and creditor should be preserved. Having in view the demands of the people for an adequate circulating medium, we declare that we are not in favor of gold monometallism or silver monometallism, but that both should be coined in such a ratio as will maintain the two metals in circulation. We insist upon the Democratic doctrine of Jackson and Benton, that all money issued by the authority of Congress shall be issued and its value be maintained by the Government."

NORTH DAKOTA INDEPENDENT. 1894.

CURRENCY AND SILVER.—"We favor the free, unlimited coinage of gold and silver at the ratio of 16 to 1, supplemented by full legal tender paper money exclusively controlled by the Government, issued until the sum total of money in actual circulation shall reach \$50 per capita."

GOVERNMENTAL OWNERSHIP.—"We favor the Government ownership of telegraphs and railroads."

THE REFERENDUM.—"We favor the initiative and referendum, allowing the people to introduce or veto all laws."

WOMAN SUFFRAGE.—"Recognizing the ability of women in the State, we favor equal suffrage."

PROHIBITION.—"We are opposed to the repeal of the penalty clause of our present prohibition law."

OPTIONS.—"We are in favor of a heavy revenue tax on all option deals in farm produce."

OHIO REPUBLICAN. June 6, 1894.

TARIFF.—"We commend the course of our Republican Representatives in Congress and of our illustrious Senator, John Sherman, in their earnest efforts to defeat the vicious legislation an unscrupulous majority has forced upon them. We recognize the Tariff act of 1890, known as the McKinley act, as the ablest expression of the patriotic principle of protection yet enacted, and condemn and denounce any attempt to repeal or amend it which does not have for its object better protection to American labor and American interests than is secured by it. We denounce the unjust and inequitable tariff measure known as the Wilson bill,

and the Senate substitute therefor and amendments proposed thereto, as unpatriotic, favorable to trusts, and sectional in their provisions, and as subversive of the prosperity and happiness of the people of the United States. They have already closed thousands of factories, stores and banks; reduced to idleness 2,000,000 of working people and entailed upon the country already a greater loss in property and business than the whole amount of the National debt at the close of the Civil War. The change from specific to ad valorem duties would promote undervaluation, fraudulent invoices and increase the importations, with a loss of revenue to the Government of many millions, and result in a constantly increasing annual deficiency, which it is proposed to meet by the needless resort to such war measures as income tax and increased internal duties. We denounce the attempt of Congress to destroy the principle of reciprocity, thereby closing a large, profitable and increasing foreign market to the products of our farmers, without detriment to our laborers or manufacturers. We denounce the oft-repeated attempts of the Democratic party, and its present determined efforts to cripple or destroy all our agricultural interests by taking from farm products the just protection that is granted them by the wise and beneficent legislation of the Republican party. We indorse the policy of the National Grange, i. e., 'that all tariff laws shall protect the products of the farm as well as the products of the factory.' Free wool, now advocated by the Democratic party, would substantially destroy American sheep husbandry, deprive farmers of the market it affords for pasturage, hay and grain, and require the purchase of wool from foreign countries, which take nothing in return from us but gold, and hence to that extent rob the American people of a coin necessary for business, which has a tendency to cause financial panics. We demand such protection for sheep husbandry as will secure fair prices for wool, and soon thereby increase American flocks sufficiently to supply all wool and mutton needed for consumption in the United States. We denounce the treatment of American farmers and workingmen by the Democratic committee of the Senate which, in violation of every courtesy and of all legislative use and tradition, denied them a hearing when they desired in a proper and reasonable manner to remonstrate against destructive legislation."

ADMINISTRATION.—"We denounce its unwise and un-American management of our foreign affairs. Its Hawaiian policy has been a National disgrace."

PENSIONS.—"We denounce the present administration of the Pension Bureau as a deliberate betrayal of the welfare of Union soldiers and sailors; we denounce the needless persecutions, suspicions, delays and privations to which they have been heartlessly subjected in procuring their just dues. We denounce the suspension without notice or hearing of pensions once allowed as illegal; we demand that a pension once granted shall not be suspended except for fraud duly proven."

IMMIGRATION.—"We demand the enactment of such legislation as will prevent the immigration of the vicious and criminal classes; of laborers under contract; of paupers and Anarchists."

SILVER.—"We favor bimetalism. Silver as well as gold is one of the great products of the United States. Its coinage and use as a circulating medium should be steadily maintained and constantly encouraged by the National Government; and we advocate such a policy as will, by discriminating legislation or otherwise, most speedily restore to silver its rightful place as a money metal."

STATE BANK TAX.—"We denounce the avowed purpose of the Democratic leaders to restore the era of 'wild-cat' and 'red-dog' money by repealing the prohibitory 10 per cent tax on State bank issues. All money, of whatever kind, should be under National, and not State, control."

NICARAGUA CANAL.—"In view of the general good to accrue to the American people by the construction and operation of the Nicaragua Canal by the United States Government, we commend the project to our Representatives in Congress."

OHIO DEMOCRATIC.

September 19, 1894.

TARIFF.—"We adhere to the declarations of the Democratic party in its National platform that protection is a fraud and we recognize the beneficial reduction of duties on imports just made by Congress. We favor such further reductions as can be made, holding in view the revenue necessary to be raised for the support of the Government, to the end that the injustice of purely protective duties be abolished. We congratulate the country upon the repeal of the McKinley tariff and the enactment of a tariff law in its stead under the operation of which trade and business are reviving and the country is again becoming prosperous."

SILVER.—"We dissent from the President's views, construction and treatment of the silver question, and, therefore, believe that silver should be restored to the position it occupied as money prior to its demonetization by the Republican party, and to that end we favor the unlimited free coinage of silver, at the legal ratio of 16 to 1, and with equal legal-tender powers."

PENSIONS.—"We favor liberal pensions to worthy soldiers, sailors and marines, their widows and orphans."

OHIO POPULIST.

August 16, 1894.

The platform of the Labor Convention, held the day before, was adopted as a whole, but not without considerable adverse talk, the immigration plank and the National ownership of railroads, etc., plank meeting with strong opposition. The following planks were added:

PENSIONS.—"We favor liberal pensions to all honorably discharged disabled Union soldiers."

GOOD ROADS.—"Inasmuch as the people have been taught persistently for years past by the old party press that our country is suffering from overproduction, and inasmuch as the Coxeys plan for good

roads and non-interest bearing bonds provides for the employment of labor in such manner as will make permanent improvements without putting any of the product of their labor on the market for sale, therefore we indorse the Coxeys good roads and non-interest bond plan."

OHIO LABOR.

August 15, 1894.

A preamble declares that the time has come when the Government must cease aiding and abetting corporate capital in its encroachment upon labor and upon individual and industrial enterprises; that the interests of the general public demand the passage of such laws as will give adequate protection and relief to the oppressed industrials, whether engaged upon the farm, or the railroad, or in the mine, factory, or workshop. Declares in favor of "cutting loose from the Republican and Democratic parties and joining with the People's party as the most effective and speedy way of securing such reforms as needed."

The "declaration of belief" demands a National currency, safe, sound and flexible, issued by the Government only, a full legal-tender for all debts, public and private, and without the use of banking corporations; demands the "free and unlimited coinage of silver and gold at the ratio of 16 to 1;" condemns the policy of issuing interest-bearing bonds in time of peace; demands the immediate Nationalization of the telegraph and telephone, to be followed by Government ownership of the railroads and mines; demands the municipal ownership of street railways, gas, water and electric light plants; condemns the laws permitting aliens to own large tracts of lands, held for speculation, and declares in favor of such taxation laws as will compel the using of land to make ownership profitable; demands restrictive immigration laws; denounces the present contract-labor law as ineffective; demands a legal eight-hour work-day, sanitary inspection of workshop, mine and home, liability of employers for injury to health, body and life, the abolition of the contract system on all public works, the abolition of the sweating system, and demands woman suffrage.

OREGON REPUBLICAN, 1894.

PROTECTION.—"We affirm that a policy of consistent protection is necessary for advancement and conservation of our industrial interests, for assurance to labor of steady employment and adequate wages, for promotion and maintenance of prosperity, local and general. We point to the past and to the contrast furnished by the present, in support of this claim; and we censure and condemn the Democratic tariff programme, as developed in Congress, as highly injurious to the productive and industrial interests of the country, and in particular as hurtful to those of our own State. We denounce the action of the Democratic party in Congress for its discrimination against producers in our fields, forests and mines and in favor of particular classes of manufacturers, chiefly of the East, and of special interests in the South."

BI-METALLISM.—"We reaffirm the doctrine of the Republican party in relation to money, as stated in its National platform of 1882, particularly as follows, to-wit: The American people from tradition and interest favor bi-metallism, and the Republican party demands the use of both gold and silver as standard money with such restrictions and under such provisions, to be determined by legislation, as will secure the maintenance of the parity values of the two metals, so that the purchasing and debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workmen, demand that every dollar, paper or coin, issued by the Government, shall be as good as any other. We commend the efforts made by our Government hitherto to secure an international conference to adopt such measures as will insure parity of value between gold and silver throughout the world, and call upon it to renew and continue such efforts."

NICARAGUA CANAL.—"The construction of the Nicaragua Canal is of the highest importance to the American people, both as a measure of National defence and to build up and maintain American commerce. It is, moreover, of special importance to our Pacific States, and we favor its construction as speedily as possible by the Government of the United States."

IMMIGRATION.—"We demand the enactment of rigid restrictions on foreign immigration both for protection of our country against illiterate and vicious classes from foreign lands, and for protection of our labor and preservation to our own people of the remainder of our national domain; and to these ends we call for a suitable capitation tax upon all immigrants."

OREGON DEMOCRATIC.

April 18, 1894.

INCOME TAX.—"We believe that all taxation should be equal and just, that unnecessary taxation is unjust taxation, and that the wealth of a nation should bear its just proportion of the burdens of the National government, and that we are in favor of an income tax."

FEDERAL ELECTION LAW.—Indorses its repeal by Congress.

TARIFF.—Indorses the efforts of Congress in behalf of tariff reform.

NICARAGUA CANAL.—Favors its speedy construction by the Government and under Government supervision and control.

SILVER.—Opposes all measures of discrimination against silver; and demands free coinage to supply the demands of business, and that all money issued by the Government be made a legal-tender for all debts, both public and private.

PENSIONS.—Favors liberal pensions to soldiers disabled in the service of their country.

MISCELLANEOUS.—Favors the election of United States Senators by direct vote of the people; favors liberal appropriations for the improvement of rivers and harbors, and the adoption of such measures as will tend most speedily

to the opening of the Columbia River; opposes Chinese and all pauper immigration.

OREGON POPULISTS.

March 15, 1894.

"Assembled on the birthday of the soldier statesman whose military genius destroyed the last attempt to subjugate this Nation by force, and whose far-sighted statesmanship afterward foiled for a time all attempts to fasten upon us the vicious financial system of Great Britain, we, the People's party of the State of Oregon, resolved to regain financial independence and to recover our industrial prosperity, lost to us by the incompetency, dishonesty, corruption and cowardice alike of the Republican and Democratic parties, do hereby make the following declaration of principles, reaffirming and giving our cordial adherence to the National platform adopted at Omaha July 4, 1892."

MISCELLANEOUS.—Denounces the issuance of United States interest-bearing gold bonds at the instigation and in the interest of the money-lenders of America and Europe.

PENNSYLVANIA REPUBLICAN.

January 3, 1894.

"The simple anticipation of the Wilson bill has closed thousands of workshops. It has reduced to idleness 2,500,000 workers, and soup-houses now displace former hives of industry. It has reduced values to an amount greater than the National debt. It will enlarge the free list only upon productions which employ the greatest number of American workmen. It will strike with equal cruelty the farmer, the miner, the lumberman, the iron worker, the glassblower and the textile worker. It will transfer work from our own mills, mines and workshops to those of foreign countries. It is sectional in its authorship, and is all too plainly aimed at Northern industries. It strikes Southern industries only where the same blow reaches greater Northern industries. It fosters the plantation system and destroys the farm. It is an attempt upon the part of the Free Traders of the South to reduce the industries of the North to the level of those of the South. It is vicious in its change from specific to ad valorem duties. It is vicious in reducing instead of increasing revenues. It will reduce the revenues many millions of dollars, and the reductions will grow with time. It is vicious in compelling the Government to make up these deficits by means of increased internal and direct taxes. It is doubly vicious in compelling its supporters to resort to the most serious war taxes or borrow money. It is wholly erroneous in the theory that the less work there is to do in this country the higher will be the wages of the workman. We denounce the unpatriotic foreign policy of the Democratic National Administration in the Hawaiian matter."

PENNSYLVANIA REPUBLICAN.

May 24, 1894.

FINANCE.—"We favor the expansion of the circulating medium of the country until the same shall amount to \$40 per

capita of our population, and approve the proposition to issue to National banks notes to the par value of the amount of bonds deposited to secure their circulation. We declare that the obligations of the Government should be discharged in money approved and current in all civilized nations, to the end that a largely increased reserve of gold should be gradually accumulated and maintained. We declare our belief to be that no legislation can make our currency meet the needs of the American people unless it conforms to the following utterances of our last National convention: "The American people from tradition and interest favor bimetallism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions to be determined by legislation as will secure and maintain the parity of values of the two metals, so that the purchasing and debt-paying power of a dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and workmen, demand that every dollar, paper or coin, issued by the Government, shall be as good as any other."

TARIFF.—"The threats and efforts which the Democratic party now in control of the Executive and Legislative departments of the National Government are making to destroy the system of protection to American industries have wrecked our manufacturing establishments, destroyed the value of our farm products, ruined our employers, beggared our workmen and brought distrust upon the honesty of their proposed legislation. We denounce the Democratic attack upon the American protective system because its effect already has been to reduce to idleness 2,000,000 of workmen, and values to an amount greater than the national debt created for the suppression of the Rebellion; because it enlarges the free list only upon products which employ the greatest number of American workmen; because it strikes with equal cruelty the farmer, the miner, the lumberman, the iron, the glass and the textile worker; because it transfers work from our own mills, mines and workshops to foreign countries; because it is sectional and aimed directly at Northern industries and fosters the plantation system and destroys the farm; because it is vicious in its changes from specific to ad valorem duties, in its reduction of the revenues of government by many millions of dollars, and it resorts to war taxes and increased internal and direct taxes to make up the deficiency it needlessly creates. We commend and approve the efforts of our Senators and members of Congress to delay and defeat the passage of legislation hostile to any American industry, and we denounce the treatment of our workmen by the Democratic committee of the Senate, which in violation of courtesy and of all legislative tradition denied them a hearing when they desired in a constitutional manner to remonstrate against this destructive legislation."

PENSIONS.—"We denounce the selection of a Southern Democrat for the Secretaryship of the Interior as a deliberate

betrayal of the welfare of our soldiers and sailors, and deplore the needless persecutions, suspicions and privations to which they have been subjected under the hostile Administration."

FOREIGN POLICY.—"We denounce the unpatriotic and un-American management of our foreign relations by the Democratic National Administration, which surrenders American treaty rights and vital interests in Samoa, and which has unjustifiably planned and labored to uphold and restore an odious monarchy in Hawaii and prevent the establishment of a sister-Republic, in conflict with that principle of self-government upon which our own Republic is founded. We demand the enactment of such legislation as will prevent the immigration of paupers, criminals and persons incapable either physically or mentally of self-support."

CITIZENSHIP.—"We demand such change in our naturalization system as will deny the rights of American citizenship to Anarchists and all other persons hostile to our Government, and to that liberty of law upon which it is based."

PENNSYLVANIA REPUBLICAN LEAGUE.

September 5, 1894.

TARIFF.—"We record our appreciation of the untiring efforts of the Republican minority in Congress in their endeavors to prevent the Democratic Administration and its majority, dominated by the ultra Free Traders of the South and West, in their studied determination to demolish and destroy the fabric of protection in pursuance of their declaration at Chicago that it was fraudulent and unconstitutional."

The resolutions close with a condemnation of the foreign policy of the Cleveland Administration and an appeal to the citizens of Pennsylvania to "place their condemnation upon the self-confessed record of infamy, perfidy and dishonor of the present Democratic Administration by their free and untrammelled ballots at the coming election."

PENNSYLVANIA DEMOCRATIC.

June 27, 1894.

TARIFF.—"We again indorse and approve the declarations of the Democratic National platform of 1892, upon which a Democratic President and Congress were elected, and we desire and demand that the tariff laws be revised in accordance with that authoritative declaration of party principles."

FINANCE.—"We declare that the consistent, courageous, and inflexible determination of a Democratic President to maintain the credit of the Government terminated a financial panic, restored confidence, and composed disturbed values. We are opposed to the reckless inflation of the currency to \$40 per capita demanded by the Republican State Conventions of 1893 and 1894; and while we favor the circulation of constitutional money, gold and silver at a parity, we are unalterably opposed to any debasement of the currency or to the depreciation of any dollar issued by the Government to the people."

PENNSYLVANIA PROHIBITION.**June 6, 1894.**

Demands that the time for naturalization be extended, and that time be given naturalized citizens to study the laws before being allowed to vote.

Demands the prohibition or suppression of trusts and monopolies.

Favors the adjustment of labor disputes by arbitration.

Favors the election of the President, Vice-President and United States Senators by direct vote of the people.

Demands the adjustment of the tariff through a non-partisan commission.

Favors just pensions to the soldiers and sailors who suffered from service, and those dependent on them.

Demands no discrimination in the enjoyment of civil rights on account of sex; suffrage based on a qualification of intelligence; maintenance of the non-sectarian character of the public schools, and that public money be refused to them; the enforcement of the Sunday laws, and proportional representation.

PENNSYLVANIA POPULISTS.**May 1, 1894.**

Demands the referendum system of submitting important National and State legislation to a vote of the people; that the President, Vice-President, United States Senators and the postmasters shall be elected by a direct vote of the people; that there be a graduated income and inheritance tax for raising State, county and municipal revenue; also that service pensions be allowed to all men who contributed to the restoration of the Union by Army and Navy services, payable in additional issues of full legal-tender paper money direct from the United States Treasury to pensioners.

RHODE ISLAND REPUBLICAN.**March 15, 1894.**

TARIFF.—"In the light of recent events and surrounded by existing conditions, we emphatically reassert that it is the first duty of the Federal Government to protect the rights and promote the interests of the American people. To this end the protection system must be preserved. It has created and stimulated our diversified industries; it has opened the broadest avenues to labor and capital; it has made America the leading nation of the world in mining, in agriculture and in manufacturing; it has placed the American laborer far above the wage-earners of any other country, and it has achieved for us a success in material development the most illustrious of modern or ancient times. We denounce as unwise and unpatriotic the proposed tariff legislation of the Democratic party, and the contemplated repeal of the McKinley Tariff law. The danger of the passage of the Wilson bill; its cowardly compromise between protection to favored industries and the principles of a revenue tariff as enunciated in the last Democratic platform; its pronounced antagonism to the business interests of the industrial North, and its subserviency to sectional demands have already produced the most disastrous re-

sults. The wheels of business have ceased to move; wages have been reduced; thousands upon thousands of wage-earners are without employment, and charity now supplies what honest labor earned until the Democratic party assumed control."

FINANCE.—"We call attention to the attitude of the Democratic majority in Congress on the questions of finance and sound currency, and to their self-confessed inability to legislate intelligently upon them. Unable to comprehend the aims of honest bimetalism, the Democratic policy is seeking to increase the number of dollars, regardless of their value. We believe that every dollar should be of equal purchasing power, and that the money of the greatest commercial nation of the world should not be inferior to that of other commercial nations. We favor the system of National banks, and are unalterably opposed to the Democratic policy of the re-establishment of State banks."

PENSIONS.—"We denounce the hostile attitude of the present Administration toward the veteran soldiers of the last war. Their pensions are a sacred debt of the Nation."

FOREIGN AFFAIRS.—"The conduct of foreign affairs by the present Administration has been inefficient and disgraceful. The Hawaiian treaty has been withdrawn from the Senate—a policy of duplicity and infamy has been inaugurated, and, while professing friendship to the existing Hawaiian Government, the Administration has secretly plotted for its overthrow. In its attempt to destroy an existing Government of civilized and Christian men, in order to restore a throne to a barbarian queen, the only credit to which the Administration is entitled is that it has been ashamed to make public its acts of infamy and folly."

ELECTIONS.—"We denounce the outrages committed on the colored people of the Southern States, and we favor such just and conservative change in our organic law as will enable the Federal Government, in case of long-continued unpunished violations of the criminal laws in any State of the Union, to bring criminals to justice, in order that every citizen of our great Republic may be protected in his life and property."

IMMIGRATION.—"While welcoming to our country the honest, intelligent, industrious and self-supporting people of every land, we favor such amendment to the Federal laws as will more effectually prevent the immigration of the idle, ignorant, pauper and criminal classes that flood our shores."

EDUCATION.—"We favor the generous appropriation of public funds for the maintenance of the public schools; we oppose any appropriation of the public funds for the support of any sectarian schools."

RHODE ISLAND DEMOCRATIC.**March 20, 1894.**

FINANCE.—"The repeal of the Sherman Coinage act, to which the Democratic party was pledged by its last National platform, has already restored public confidence that debasement of currency will not be permitted, and the near

approach of tariff reform is stimulating industrial activity in every direction."

TARIFF.—"We reiterate the demand for free raw materials for our manufactures and removal of all legislative obstructions to the freest development of our industries."

FEDERAL ELECTION LAWS.—"The country is to be congratulated upon the repeal of the laws by virtue of which Federal officials were permitted to interfere in the elections of the several States."

AMERICAN PROTECTIVE ASSOCIATION.—"In the language of the Democratic National platform of 1856, we declare that the foundation of this Union of States having been laid in, and its prosperity, expansion, and pre-eminent example in free government built upon, entire freedom, in matters of religious concernment, and no respect of person in regard to rank or place of birth, no party can justly be deemed National, constitutional, or in accordance with American principles which bases its exclusive organization upon religious opinions and accidental birthplace."

SOUTH CAROLINA DEMOCRATIC (TILLMANITES).

September 19, 1894.

MONEY.—"We demand the free and unlimited coinage of silver at a ratio of 16 to 1, and insist upon its immediate enactment without waiting for international agreement. We insist upon it for the protection of our farmers and laboring classes, the first and most defenceless victims of unstable and fluctuating currency."

DISPENSARY LAW.—"Recognizing the great evils of intemperance and the curse of barrooms and their corrupting influences, we heartily indorse the Dispensary law as the happiest and best solution of the vexed whiskey problem, and we call upon the Christian men and women of the State to see that the law is fairly tested and assist in its enforcement."

SOUTH CAROLINA REFORM DEMOCRATIC.

August 16, 1894.

The platform of May, 1892, was practically adopted. It reaffirms faith in Democratic simplicity, pledges anew allegiance to the principles enunciated by Jefferson, etc.

ANTI-OPTION.—"Demands that Congress shall pass such laws as will effectually prevent the dealing in futures of all agricultural and mechanical productions, providing such stringent system of procedure in trials as will secure prompt conviction and imposing such penalties as shall secure the most perfect compliance with the law."

SILVER.—"Demands the free and unlimited coinage of silver on the ratio of 16 to 1."

LAND-OWNING.—"Demands laws to prohibit alien ownership of land, also passage of laws to reclaim all lands owned by aliens and foreign syndicates, and of all lands owned by railroads and corporations in excess of such as is actually

used by them, such to be held for actual settlers only."

TRUSTS.—"Demands laws to prevent the forming of combinations or trusts."

TARIFF.—"Demands repeal of the McKinley Tariff bill."

INCOME TAX.—"Demands a just and equitable system of graduated tax on incomes."

RAILROADS, etc.—"Demands State and Federal Government control and supervision of the means of public communication and transportation, and if this system does not remove existing abuses, then that the Government establish ownership of such means of communication and transportation."

U. S. SENATORS.—"Demands an amendment to the Constitution providing for the election of United States Senators by direct vote of the people."

SOUTH DAKOTA REPUBLICAN. **August 23, 1894.**

TARIFF.—"In the interest of the country at large, and particularly in the interest of the people of this great agricultural Northwest, it affirms its conviction that this Nation owes to its own citizens and their industries all reasonable protection against competition with foreign labor, and it believes that this can be best and most certainly afforded by the friends of protection, rather than by those who declare, as did the last Democratic National Convention, that protection is unconstitutional and fraudulent, and which declaration has smitten this whole country with a blight that has withered its manufacturing industries, shrivelled its commerce and dried up the fountains of its finances. The policy of a Democratic Congress, which levies upon this country the tribute of millions in behalf of the Sugar Trust and robs this country's wool growers of millions in behalf of Australian flock owners, has been fitly characterized by a Democratic president as perfidy and dishonor, and we declare our preference for that reciprocity policy of the Republican party which got something for the country at large in exchange for whatever advantage was accorded foreign nations and their commercial interests."

MONEY.—"We favor the use of both silver and gold as money at a ratio of 16 to 1, confining the coinage of silver to the American product at the net cost of the actual expense of coinage, and we demand that silver as well as gold shall be a legal-tender for the payment of all just debts, both public and private."

PENSIONS.—"An overwhelming majority of the old soldiers of the Union know upon which party to depend for due recognition of their patriotic sacrifices and valorous services in crushing rebellion, and the Republicans of South Dakota only need assure them of the same justice and liberality in their behalf that have been declared heretofore and which have been so industriously promoted by South Dakota's Representatives of that party in Congress."

LABOR.—"Denounces labor troubles, and the use of private armed forces to settle them, and favors arbitration for the adjustment of all disagreements."

IMMIGRATION.—Urges such modification of the immigration laws as will fully protect the United States against the importation of pauper and criminal immigrants.

TRUSTS.—Declares in favor of legislation against the dangers of accumulations of capital and of trusts and combines.

SOUTH DAKOTA DEMOCRATIC.

September 5, 1894.

TARIFF.—"We declare ourselves in favor of free trade, believing that as long as we have any tariff legislation, so long shall we have the heads of trusts, their attorneys and witnesses at Washington, and so long shall we have men in official positions who are too weak to rise above a handful of their constituents and vote for the great mass of the people and for their country's good."

TRUSTS.—"We demand the enactment and enforcement of laws which will curb their extension and their power."

CURRENCY.—"We demand the coinage of both silver and gold under such conditions and at such a ratio as will maintain the parity of the two metals."

INCOME TAX.—"We congratulate the people on the establishment of the income tax by the Democratic party."

PENSIONS.—"We demand that the Government treat with liberality and with full appreciation of their heroism the old soldiers who offered their lives in the Nation's defence."

U. S. SENATORS.—"We demand the election of United States Senators by a direct vote of the people."

MISCELLANEOUS.—Favors a law that will "prohibit the holding of the office of Congressman, U. S. Senator, or any Cabinet position by one who shall be the owner of any stocks, shares or interests of any kind whatever, either in whole or in part, directly or indirectly, in any corporation, trust or combination to be affected by National legislation, or who shall hold any official position in such bodies." Favors a law that will prohibit any National or State official from accepting any railway or sleeping-car pass.

TENNESSEE REPUBLICAN.

August 22, 1894.

BUSINESS DEPRESSION.—"The Republicans of Tennessee, in convention assembled, view with indignation and alarm the deplorable condition of the State and Nation into which they have been precipitated by eighteen months' of Democratic supremacy and misrule, and for a way of escape we point with becoming pride to the matchless prosperity and abiding confidence of the whole people that attended Republican administration for thirty years prior to 1892, and we invite the voters of the country to unite with us in hurling from power the Democratic party and again to place the control of the Government in the hands of the great Republican party."

TARIFF.—"We declare for a system of protective duties, adjusted so that every American resource can be developed by American labor, receiving American wages, and we insist upon a tariff bill that will

accomplish this end, and hereby reaffirm our devotion to the doctrines of the Republican party and its policies as set forth in the National platform of 1892."

MONEY.—"The American people, from tradition and interest, favor bimetallicism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and such provisions, to be determined by legislation, as will secure the maintenance of the parity of values of the two metals, so that the purchasing and debt-paying power of the dollar, whether silver, gold or paper, shall be at all times equal, and we are in favor of a circulating medium of volume sufficient to meet the demands of business and commerce."

PENSIONS.—"That the Republicans of Tennessee, ever mindful of the patriotic and loyal services of the veteran soldiers of the Republic, reaffirm their unswerving devotion to them and unreservedly condemn the present Administration for its illiberal, unjust and unpatriotic crusade against the Nation's defenders in the matter of pensions."

MISCELLANEOUS.—Opposes the repeal of the State Bank Tax law; favors a law restricting immigration; favors arbitration of differences between labor and capital.

TENNESSEE DEMOCRATIC.

August 15, 1894.

TARIFF.—Favors a "tariff for revenue only, and commends all legislation reducing protective taxes as a step toward the consummation of the Jeffersonian policy, of 'free commerce with all nations.'"

TRUSTS.—Regards the growth of trusts and combinations to arbitrarily control the production and prices of the necessities of life as one of the worst evils of the protective system."

IMMIGRATION.—Favors such legislation as will exclude criminals, paupers, Anarchists and others of the scum of European population; also favors the rigid enforcement of the laws against the importation of foreign workmen under contracts to degrade American workmen and to lessen wages.

FEDERAL ELECTION LAWS.—Commends the repeal of the Federal Election laws.

NICARAGUA CANAL.—Favors its early construction and such action on the part of Congress as may be necessary to promote it and keep it under American control.

INCOME TAX.—Favors a "Federal tax upon incomes as a fair, just and equitable method of raising revenue."

STATE BANK TAX.—Favors a repeal of the prohibitory 10 per cent. tax on State banks of issue.

FINANCIAL.—Favors the bimetallic standard, the coinage, without reference to the policy of other nations, of both gold and silver in such manner as will maintain both metals in circulation at parity.

MISCELLANEOUS.—Opposes "all sects, political organizations, and all political proscription on account of religious opinion."

TENNESSEE POPULISTS.**June 22, 1894.**

Demands a National currency, safe, sound and flexible, issued by the general Government only, a full legal tender for all debts, public and private, and that without the use of banking corporations; a just, equitable and efficient means of distribution, direct to the people; free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1; that the amount of circulating medium be speedily increased to not less than \$50 per capita; a graduated income tax; that all State and National revenue shall be limited to the necessary expense of the Government economically and honestly administered; the abolition of the internal revenue laws; that the Congress of the United States shall submit an amendment to the Constitution providing for the election of United States Senators by direct vote of the people of each State; an abolition of the lease system and condemn the working of convicts in competition with free labor.

TEXAS REPUBLICAN.**August 6, 1894.**

TARIFF.—"Believing in America for Americans, we affirm our allegiance to the National Republican platform as adopted at Minneapolis in 1892. We demand a tariff for the protection of all American industries, and articles which cannot be produced in the United States, except luxuries, should be admitted free of duty; and on all imports coming into competition with American labor there should be duties levied equal to the difference between wages at home and abroad. We condemn the action of our Texas Congressmen in so voting on a tariff as to blight the lumber, wool and other industries of our State."

RECIPROCITY.—"We condemn free trade with foreign nations in any form unless by reciprocity or treaties that will open up the markets of other countries to American producers. We believe in the Republican doctrine of protection by the general government of life, liberty and property of every American citizen at home or abroad."

LABOR.—"We sympathize with the laboring classes of our country in all lawful efforts to better their condition and obtain a more equal distribution of the wealth produced by labor."

FARM PRODUCTS.—"We extend a willing hand to the farmers of the United States and demand for them the enactment of such laws as will insure fair returns for the products of their toil. We believe in the coinage of both gold and silver and the issuance of paper money so adjusted that the purchasing power of every Government dollar shall be equal."

CONVICT LABOR.—"We condemn the leasing of convict labor of the State outside of the walls of the penitentiary."

TEXAS REPUBLICAN. ("LILLY-WHITE.")**August 30, 1894.**

TARIFF.—"We reaffirm the American doctrine of protection, and we favor more

uniform protection to manufacturers and producers in every branch of industry which shall equal the difference between the compensation paid to American labor and the earnings of labor abroad. We denounce the attitude of the Democratic Congress in legislating against the industrial interests of the country. We denounce their flagrant discrimination against the agricultural and pastoral growth everywhere, while fostering the combinations and trusts of aggregated capital, creating and maintaining monopolies at the expense of every consumer and injury of the entire country. We point with pride to the success of the Republican policy of reciprocity, under which our interchange of trade had grown enormously, leading to free intercourse and freer commerce with every American nation, and we denounce the action of the Democratic Congress which has abrogated these trade relations to the injury of every interest and every point of the country."

MONEY.—"We are in favor of sound money—gold, silver and currency—its volume as large as practicable, so coined and issued that every dollar shall be equal in value the one to the other."

NICARAGUA CANAL.—"We favor the indorsement of the Nicaragua Canal project by the National Government."

TEXAS DEMOCRATIC.**August 16, 1894.**

LABOR TROUBLES.—"Demands the passage of such laws as may be necessary to protect every citizen in the full enjoyment of such individual liberty; views with grave apprehension the growing tendency to set at defiance the laws devised for the protection of life and property, and demands the enactment of such laws as will give the State Executive the use of all the powers of the State, when necessary, for the suppression of lawlessness and the protection of lives of the citizens and all classes of property within the State."

MONEY.—"We hold to the use of both gold and silver as the standard money of the country, and the equal coinage of both metals without discrimination against either metal or charge for mintage; but the dollar unit of coinage of both metals must be of equal intrinsic and exchangeable value or be adjusted through international agreement or by such safeguards of legislation as shall insure the maintenance of parity of the two metals and the equal power of every dollar at all times in the markets and in payment of debts, and we demand that all paper currency shall be kept at par with and redeemable in such coin. We insist upon this policy as especially necessary for the protection of farmers and laboring classes, the first and most defenceless victims of unstable money and a fluctuating currency."

TARIFF.—"We demand of Congress the passage of such tariff legislation as may be in strict accordance with the principles announced in our last National platform, and denounce all attempts to secure special protection or privileges for any

particular class or classes as unwise, unpatriotic and undemocratic."

MISCELLANEOUS.—Demands of the Senators and Representatives in Congress that they exert their efforts to secure adequate appropriations for the improvement of the ports and inland waterways of the State; favors the adoption of a constitutional amendment authorizing annual appropriations for the support of the Confederate Home, and pledges the Democratic party to the continued maintenance and support of the same.

TEXAS POPULIST.

June 21, 1894.

FINANCE.—Demands a National currency, "which shall be a full legal-tender for all debt, public and private, and that without the use of banking corporations, a just, equitable and efficient means of distribution direct to the people, at a tax not exceeding 2 per cent per annum, be provided, as set forth in the sub-treasury plan of the Farmers' Alliance, or some better system; also by payments in discharge of its obligations for public improvements"; also the free and unlimited coinage of silver and gold at the present ratio of 16 to 1, and that the amount of circulating medium be increased to not less than \$50 per capita.

MISCELLANEOUS.—Demands a graduated income tax; the establishment of postal savings banks; government ownership of railroads, telegraph and telephones; the abolition of private banks of issue, whether they be State or National. Condemns the issue of gold bonds in times of peace. Favors the completion of the Nicaragua Canal, providing it is owned and operated by the Government, in proper co-operation with Nicaragua and Costa Rica.

VERMONT REPUBLICAN.

June 20, 1894.

TARIFF.—"We denounce as especially injurious to the State the provisions of the Wilson bill. We denounce the increase of the tax on the poor man's breakfast table, which is accompanied by a decrease in the tariff on articles of luxury. We denounce the Wilson bill as sectional in its provisions, subservient to gigantic monopolies, a menace to business interests, and we predict that if it becomes a law, prosperity will not return to our land until the Republican party is again in power."

ELECTIONS.—"We declare our belief that the repeal of the Federal election law was passed in the interests of the fraudulent election methods of the Democratic party."

SILVER.—"We approve the strenuous efforts of the Vermont Senators and Representatives in Congress to render as harmless as possible the prospective tariff legislation. We favor the continued and extended use of silver in our circulation within the extent of the ability of the Government to preserve the present parity between gold and silver. To this end we will hail with enthusiasm all efforts of the Government to obtain an agreement with all other commercial nations to secure the free coinage of silver on any proper ratio."

VERMONT DEMOCRATIC.

June 28, 1894.

TARIFF.—"We approve of the measures proposed by the representatives of the Democratic party in Congress for the relief of the country from unjust and discriminating tariff taxations. We denounce and hold the Republican party responsible for the present depressed condition of the country and do not allow their cowardly attempts at shifting their responsibility, as it was directly traced to the efforts of the McKinley Tariff act, which fostered temporarily extravagant and reckless financial business schemes to the present disastrous results. We demand a tariff which shall be a protection to American labor and keep the country in a steady and conservative condition and not a cause of such violent inflations and depressions as have occurred under the present McKinley bill."

FEDERAL ELECTIONS.—"We approve of the repeal of the Federal Election law, that insidious instrument for the destruction of the constitutional freedom of the ballot."

SILVER.—"We recognize the fact that the progress of civilization has made the large nations of the world dependent upon each other financially, and we demand a currency that shall be of its face value in every part of the globe. We believe in gold and silver as a circulating medium, and that they shall be made of equal value, as demanded in the National Democratic platform of 1892."

VIRGINIA DEMOCRATIC,

August 18, 1893.

CONFEDERATE PENSIONS.—"The Democratic party of Virginia, remembering the unselfish services of her patriotic defenders during the Civil War, and recognizing her sacred obligations to care for her surviving sons who were disabled during that great struggle and the widows of those who sacrificed their lives, will continue to favor such liberal appropriations within the resources of the State as will tend to the accomplishment of that end."

FEDERAL ELECTION LAWS.—"Denounces the policy of Federal control of elections and demands the repeal of 'all Congressional legislation that countenances interference with the freedom of elections by the appointment of Federal supervisors to revise the registration lists and scrutinize the ballots, and Federal marshals to overawe the people by their presence at the polls.'"

CURRENCY AND STATE BANK ISSUES.—"Reiterates the principles announced in the National Convention at Chicago, and urges the speedy enactment of such laws as will 'carry out the provisions of that platform and relieve the country from the disastrous financial condition to which the unwise and reckless legislation of the Republican party has brought it'; insists upon such legislation as will provide for an expansion of the currency of the country sufficient to meet the business needs of the country without delay; indorses 'the principles announced by the Chicago Convention upon the subject of tariff taxation, and urges upon

Congress the imperative duty of carrying into effect by appropriate legislation the declarations of that platform as soon as the more pressing needs of the currency problem have received attention"; recommends that the prohibitory 10 per cent tax on State bank issues be repealed.

VIRGINIA POPULIST.

August 3, 1893.

DEMOCRATIC PARTY.—"We have had promise of government economically administered until hope has given place to despair. The party now in power claim that they 'never had a chance,' while, in fact, they have many times had a large majority in the lower house of Congress and have recently proved to the country that they had 'chance' enough to increase their own salaries. They might at least have outlined a policy which would have inspired the people with confidence. . . . We cannot here enumerate in detail the long list of unfulfilled pledges made to the people by the Democratic party. . . . Have we fared any better in our State administration, which has been under exclusive Democratic control for nearly eight years?"

FINANCE.—"We favor the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1; a National currency, safe, sound and flexible; a full legal tender for all debts, public and private, issued by the general Government only, based on its credit and not on its indebtedness, in volume sufficient to maintain a healthy condition of business, and distributed directly among the people, when demanded on the security of their property, at a reasonable rate of interest, under such system as the wisdom of Congress may devise. We are unalterably opposed to State banks, or any other than National currency, because of its undesirableness and because the Constitution of the United States conferred the power to issue money on the general Government only, and this power cannot be delegated."

TAXATION.—"We demand a rigid listing of all stocks, bonds and evidences of debt property, subject to taxation at their true market value, and the imposition, both by National and State governments, of a graduated income tax, with severe penalties for the evasion of the law. Non-resident corporations doing business in the State should be taxed according to the value of the business done. National and State legislation should be so framed as not to build up the few at the expense of the many, whether under a tariff law, an internal revenue law or an oyster law."

VIRGINIA PROHIBITIONIST.

September 6, 1893.

It declares that both the Democrats and Populists have intentionally avoided the declarations upon the subject of morals and temperance. "The Populists," this paper says, "have fused with the Democrats wherever they considered it politic to do so, and believing that the Democratic party in Virginia, which is now and has been for years the dominant party, has fallen largely into the hands of professional politicians, whose first aim is

self-aggrandizement through division of the spoils, and that the better elements of the party no longer control its actions, we view with alarm the continued indifference and studied avoidance of all moral and reform measures. Corrupting methods, enforced by the liberty-destroying Anderson-McCormick election law, constitute in a majority of instances their sole claim to political advancement." The last plank in the platform declares in favor of "a graduated income tax, supported by effective laws, that the poor man may not alone bear the burden of taxation, while the rich man, declining ownership of real estate because it can be listed and estimating his own wealth, possesses a pocket bulging with bonds upon which he defiantly pays no taxes." This is understood to mean a State income tax, though this is not made clear by the language of the text.

WASHINGTON REPUBLICAN.

September 19, 1894.

We affirm our allegiance to the principles of the Republican party, and indorse unreservedly the platform of 1892, believing a return to these principles in the Administration of the Government is absolutely necessary to insure a return of National prosperity.

We deplore the terrible calamity that has befallen our common country by reason of the gross incompetency and misrule of the Democratic party, which for nearly two years has had absolute control of the Federal Government. We condemn it for its so-called policy of tariff reform, which in practice its leader and head denounces as one of "perfidy and dishonor," a policy which taxes the poor man's breakfast table for the sake of enriching its political friends and benefactor, the colossal Sugar Trust of America, a policy the very menace of which has destroyed confidence, ruined values, demoralized capital and starved labor.

WASHINGTON DEMOCRATIC.

September 28, 1894.

TARIFF.—"Resolved, That we earnestly and cordially indorse the efforts of the present Democratic Administration to reform the enormities of the Republican tariff system as indorsed in the late McKinley bill, and we heartily commend the bill recently passed by a Democratic Congress as an intelligent and patriotic step in the direction of an enlightened international policy, and which is approved by the highest statesmanship of the world. A policy which shall throw open the seaports of the United States, and particularly the seaports of our own State, to those raw staple products, such as wool, flax, hemp, jute and other such staples, which experience has proven must ever be the basis of a sound manufacturing system. That by the importation into our own ports of these staples we shall at one and the same time encourage the building up to a State and local manufacturing system, which shall free our people from the exactions of manufacturing trusts 3,000 miles distant, and at the same time, by encouraging the importation of such staples, stimulate a system of international interchange

and thus directly foster and encourage the export of our manufactured products, and other products in which we excel all the nations of the earth."

MISCELLANEOUS.—Approves of the policy of an income tax; denounces the Reilly Pacific railroads funding bill, and demands that Congress use every effort to further the foreclosure of the Government mortgage on the Union and Central Pacific railroads, and that one transcontinental railroad shall be owned, controlled and operated by the Government; favors the election of United States Senators by a direct vote of the people; favors Government aid and control of the Nicaragua Canal, and demands its speedy construction; demands the free and unlimited coinage of both silver and gold in the ratio of 16 to 1, and the passage of such laws as will make silver receivable for all debts, public and private, and be equal in purchasing power with gold.

WASHINGTON POPULIST.

June 29, 1894.

Demands "free and unlimited coinage of silver at the ratio of 16 to 1 without the consent of any other nation on earth"; also the exemption of homesteads, while occupied by the owners or their families as such, from forced sales, executions or otherwise to the value of \$3,000, and a like exemption of personal property instead of specific exemption from forced sales; also the reduction of salaries of all public officers commensurate with the duties performed; also a graduated annual tax on all lands owned by any individual or corporation above the assessed valuation of \$10,000, exclusive of improvements, the rate continually increasing on such additional valuation until land monopoly in the city, town and country shall be destroyed.

WEST VIRGINIA REPUBLICAN.

May 5, 1892.

Reaffirms Republican platform of 1888, condemns the Gubernatorial steal four years ago, indorses protection as a principle, and commends the McKinley Tariff law and reciprocity; asserts belief in American ability to make all the tinplate consumed in the country, and exhorts all Americans to purchase American products in preference to imported goods; condemns the Free Wool bill as an unjust and hurtful attack on the agricultural interests of the country; demands better immigration legislation; regards as of highest importance that every dollar issued by the United States shall have a purchasing power of 100 cents, so that our gold, silver and paper issues may be kept on an equal footing; favors liberal pensions and denounces as partisan the Democratic attacks on the present administration of the Pension Office.

WEST VIRGINIA REPUBLICAN,

August 3, 1892.

Indorses Minneapolis nominations and platform; policy of Protection as necessary to the development of the country; favors anti-Pinkerton law, and denounces Democratic State administration for creation of a State debt, legislative gerry-

mander and steal of the Governorship in 1889.

WISCONSIN REPUBLICAN.

July 25, 1894.

TARIFF.—"The present condition of the country resulting from the threatened change in its industrial policy by the Democratic party, the hundreds of factories and workshops closed down, the thousands of men out of employment, are the best witnesses which can be gotten to testify to the wisdom of the policy of protection to home industries which has always been sustained and fostered by the Republican party."

LABOR.—"We recognize the right of labor to organize, using all honorable measures for the purpose of dignifying and bettering their condition and placing them on an equal footing with capital, to the end that both may fully realize the fact that they are friends and equally essential to each other and the prosperity of all people."

FINANCIAL.—"The Republican party is in favor of honest money. We are opposed to any scheme that will give the country a depreciated and debased currency. We favor the use of silver as a currency to the extent only that it can be circulated on a parity with gold."

MISCELLANEOUS.—"The Republican party is the party of religious liberty, of absolute non-sectarianism, of entire separation of Church and State, of free common schools and of the utmost independence of individual thought, speech and action within the law."

WISCONSIN DEMOCRATIC.

September 6, 1894.

TARIFF.—"The new tariff law affords the country substantial relief, and is a broad stride in the direction of accomplishing the results that the Democratic party has so long contended for."

SILVER.—"By the repeal of the Republican measure known as the Sherman Silver law, the money of the country is restored to a sound basis, and no proposed legislation should be entertained which does not provide that every dollar issued by the Government should be of equal intrinsic and interchangeable value."

INCOME TAX.—"The income tax feature of the Tariff bill meets our approval."

ADMINISTRATION.—"The Administration of President Cleveland has been wise, patriotic and courageous, and commends itself to the Democracy of the State of Wisconsin."

MISCELLANEOUS.—"Denounces the American Protective Association, and commends the Democratic Administration of the State."

WYOMING REPUBLICAN.

September 27, 1894.

TARIFF.—"We once more renew our allegiance to the Republican party, proclaim our devotion to its cardinal principles and again pronounce in favor of protection and reciprocity as expressed in the McKinley bill; and we demand the continuance of the tariff system as advocated by the Republican party for the past thirty years. We are opposed

to the Democratic schemes of forcing the workmen of America to compete with the cheap labor of Europe and Asia, by admitting the products of such labor free, and we believe in the equal and full protection of life and property and the equal fostering and encouragement of every industry. We denounce the manifest incompetency of the Democratic party in the administration of National affairs as exhibited by its weak and vacillating foreign policy, by the shameful violations of its party pledges, and by its repeated attacks upon the beneficial provisions of our tariff system, in consequence of which the business of the country has been prostrated and its industries paralyzed. We denounce the manifestly unwise and un-American tariff bill now pending in Congress as a measure calculated to protect trusts and to reduce American labor to the conditions known in foreign countries. We denounce all attempts on the part of the Democratic party to place our principal products upon the free list, thus directing a positive blow at the prosperity of our own State."

PENSIONS.—"We favor the payment of liberal pensions to the soldiers and sailors of the Union and to their surviving dependents, as a sacred obligation due from the entire people, and we insist that in the allotment and distribution of pension funds inimical and burdensome restrictions should not be imposed, and that in Government, State and municipal employment they should be given preference over others, qualifications being equal."

SILVER.—Favors the free and unlimited coinage of silver and gold at a ratio of 16 to 1, with full legal-tender functions accorded to each in payment of public and private debts.

IMMIGRATION.—Favors such restriction upon immigration as shall more completely protect the laborers of America.

LABOR DISPUTES.—Favors courts of

arbitration, with jurisdiction to hear and determine controversies between laborer and employe.

WYOMING DEMOCRATIC.

August 9, 1894.

TARIFF.—"We regard the tariff question as settled by the overwhelming voice of the people, in favor of such tariff taxes only as are needed to pay the expenses of the Government when economically administered. We condemn those representatives of the people in Congress and out who have stood in the way of the complete fulfillment of the promises of the party on this question. We accept the Wilson bill as it passed the House of Representatives, as but a partial fulfillment of the promises of the Democratic party to reduce the tariff. We favor still lower tariff taxation for the relief of the people in these times of depression."

SILVER.—Favors the "free and unlimited coinage of gold and silver at the ratio of 16 to 1, without charge for mintage, and demand that the Nation return to such system of coinage at once without waiting for any other Nation."

STATEHOOD.—Commends the act admitting Utah to Statehood, and urges that the same treatment be promptly extended to Arizona and New-Mexico.

U. S. SENATORS.—Favors the election of United States Senators by direct vote of the people.

INCOME TAX.—Favors an income tax as a part of the fiscal system, recognizes the principle as safe and just, and welcomes it as a step toward the restoration of equality of taxation.

MISCELLANEOUS.—Opposes secret political organizations, based on religious prejudices, because they are contrary to the spirit and genius of American institutions, thoroughly un-American and calculated to breed discord and contention and unseemly strife.

LIVTH CONGRESS.

THE SENATE.

March 4, 1895—March 3, 1897.

In the LIIId Congress there are 36 Republicans, 44 Democrats, 5 Independents, and 3 vacancies. The Republicans retain their majorities in these State Legislatures electing U. S. Senators: Colorado, Delaware, Idaho, Illinois, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New-Hampshire, Oregon, Rhode Island, South Dakota and Wyoming. They carry these Legislatures, formerly Democratic, electing U. S. Senators: Kansas, New-Jersey and West Virginia. These gains increase the Republican vote to 39. They carry the North Carolina Legislature on a fusion, making a gain of one Senator, and increasing their vote to 40. They gain the three existing vacancies—Montana, Washington and Wyoming—increasing their vote to 43. The Populist and Independent vote will be increased one by the long-term Senator to be elected from North Carolina. These changes will reduce the Democratic vote to 39. The Independent element will number 6. Included in these is Mr. Jones, of Nevada, who announced his withdrawal from the Republican party at the close of the last session of Congress and his adhesion to the "Silver Party." The Independent Senators are Messrs. Pepper, of Kansas; Allen, of Nebraska; Jones and Stewart, of Nevada; Kyle, of South Dakota, and the Populist Senator from North Carolina to be elected.

INTERNATIONAL TRIBUNAL OF EGYPT.

In 1876, as the result of negotiations between the Ottoman and Egyptian governments and the various Christian powers having representatives at Cairo, certain courts were created in Egypt for the trial of mixed civil causes arising between persons of different foreign nationalities, and suits of foreigners against natives, the Egyptian Government and members of the Khedival family. These mixed tribunals, in civil matters within their exclusive jurisdiction, superseded the consular courts. A mixed tribunal consists of five judges, three of whom are foreigners and two natives. The foreign judges are appointed by the Khedive on the recommendation of the great Powers, each of which is represented by from one to three judges. There are several tribunals of original jurisdiction (first instance) and a court of appeals at Alexandria. The United States is represented in these courts by the following judges:

Court of Appeals at Alexandria—Anthony M. Keiley, Virginia (app'd 1894).

Court of First Instance at Cairo—Walker Fearn, Alabama (app'd 1894).

Court of First Instance at Mansourah—Somerville P. Tuck, New-York (app'd 1894).

UNITED STATES MILITARY ACADEMY.

METHOD OF APPOINTMENT.—Each Congressional District and Territory and the District of Columbia is entitled to have one cadet at the academy. Ten are also appointed at large. The appointments (except those at large) are made by the Secretary of War at the request of the Representative or Delegate in Congress from the district or territory of which the appointee must be an actual resident. The appointments at large are specially conferred by the President of the United States.

MANNER OF APPLICATION.—Applications can be made at any time, by letter, to the Secretary of War, to have the applicant's name registered for submission to the proper representative when a vacancy occurs. The application must exhibit the full name, date of birth and permanent abode of applicant, with the number of the Congressional district in which his residence is situated.

DATE OF APPOINTMENT.—Appointments must be made one year in advance of date of admission, except in cases where, by death or otherwise, a vacancy occurs which cannot be provided for by such appointment in advance. These vacancies are filled in time for the next annual examination.

ALTERNATES.—The Representative or Delegate in Congress may nominate a legally qualified second candidate, to be designated the alternate. The alternate will receive from the War Department a letter of appointment, and will be examined with the regular appointee, and if duly qualified will be admitted to the academy if the principal fails to pass the prescribed preliminary examinations. The alternate will not be allowed to defer reporting for examination until the result of the examination of the regular appointee is known, but must report at the time designated in his letter of appointment. The alternate, like the nominee, should be designated as nearly one year in advance of the date of admission as possible.

ADMISSION OF CADETS.—The candidate, upon receiving his conditional appointment, will be instructed to appear for mental and physical examination before a board of Army officers, to be convened at the military post nearest his place of residence on March 1, annually

(except when that day comes on Sunday, in which case the examinations will commence on the following Tuesday). The candidate who passes successfully will be admitted to the Academy without further examination, upon reporting in person to the Superintendent at West Point before noon on June 15. Immediately after his admission, and before receiving his warrant of appointment, he must sign the following engagement for service, in the presence of the Superintendent, or some officer deputed by him:

I, _____, of the State (or Territory) of _____, aged _____ years _____ months, do hereby engage (with the consent of my parent or guardian) that, from the date of my admission as a Cadet of the U. S. Military Academy, I will serve in the Army of the U. S. for eight years, unless sooner discharged by competent authority. In the presence _____.

The candidate must then take the following oath or affirmation:

I, _____, do solemnly swear that I will support the Constitution of the U. S., and bear true allegiance to the National Government; that I will maintain and defend the sovereignty of the U. S. paramount to any and all allegiance, sovereignty or fealty I may owe to any State or country whatsoever; and that I will at all times obey the legal orders of my superior officers, and the rules and articles governing the armies of the U. S.

QUALIFICATIONS.—The age for the admission of cadets to the Academy is between 17 and 22 years. Candidates must be unmarried, at least 5 feet in height, free from any infectious or immoral disorder, and generally, from any deformity, disease, or infirmity which may render them unfit for military service. They must be well versed in reading, in writing, including orthography, in arithmetic, and have a knowledge of the elements of English grammar, of descriptive geography (particularly of our own country), and of the history of the U. S.

The Military Academy was established on March 16, 1802; its present superintendent is Colonel O. H. Ernst, and the number of instructors (officers of the Army) is 64. The number of cadet students is now 317, and 3,616 have been graduated since the organization.

PATENT OFFICE PROCEDURE AND STATISTICS.

Applications for United States patents must be addressed to the Commissioner of Patents, Washington, D. C., and signed and sworn to by the inventor. The invention must not have been in public use or on sale for more than two years prior to the application. The applicant must fully describe his invention and distinctly claim those parts which he believes to be new. The application must be illustrated with drawings when possible. When filed, a first fee of \$15 is payable, and a second fee of \$20 is exacted, if the application is allowed, before the patent will be issued. The patent runs 17 years from date of issue. Extensions can be obtained only by special act of Congress. A pamphlet of rules and forms is distributed free by the Commissioner of Patents. Suits to

enjoin infringement of letters patent are brought by bill in equity in U. S. District or Circuit courts. The profits realized by an infringer can also be recovered.

The total number of United States Patents granted up to June 30, 1894, was 522,185. The total number of applications and caveats received for the fiscal year was 41,399, and the number of patents granted was 22,546. The receipts for the year were \$1,183,523 18, and the expenditures were \$1,053,962 38. The total balance to the credit of the Patent Fund in the United States Treasury on June 30, 1894, was \$4,409,366 74. The Patent Office Library contains 65,000 volumes. The model hall has 154,000 models. The office does not require models now, except in special cases.

UNITED STATES NAVAL ACADEMY.

STUDENTS AND COURSE.—The students of the United States Naval Academy at Annapolis, Md., are styled Naval Cadets. One cadet is allowed for every member or delegate of the House of Representatives, one for the District of Columbia, and ten at large. No more than ten appointed at large are allowed in the Academy at any one time. The course of study is six years, four years at the Academy and two at sea, at the end of which time the cadet returns to the Academy for final graduation, and the district then becomes vacant.

NOMINATIONS.—The Secretary of the Navy, as soon after March 5 in each year as possible, notifies in writing each member or delegate of the House of Representatives of any vacancy in his district. The nomination of a candidate to fill the vacancy is made on the recommendation of the member or delegate, if such recommendation is made by July 1 of that year; but if not the Secretary of the Navy fills the vacancy. The candidate allowed for the District of Columbia and all the candidates appointed at large are selected by the President. Candidates allowed for Congressional districts, for Territories and for the District of Columbia must be actual residents of the districts or Territories from which they are nominated. And all candidates must, at the time of their examination for admission, be between the ages of fifteen and twenty,

physically sound, well formed, and of robust constitution.

ENTRANCE EXAMINATION.—Candidates nominated in time to enable them to reach the Academy by May 15 receive permission to present themselves on that date to the Superintendent for examination for admission. Those not nominated in time to present themselves at the May examination are examined on the 1st of September following. When either of the above dates falls on Sunday the candidates present themselves on the Monday following. Candidates are required to enter the Academy immediately after passing the prescribed examinations. No leave of absence is granted to cadets of the fourth class.

GRADUATE APPOINTMENTS.—Appointments to fill all vacancies that may occur during a year in the lower grades of the Line and Engineer Corps of the Navy and of the Marine Corps are made from the Naval Cadets, graduates of the year, at the conclusion of their six years' course, in the order of merit as determined by the Academic Board. At least fifteen appointments from such graduates will be made each year. To surplus graduates who do not receive such appointments will be given a certificate of graduation, an honorable discharge, and one year's sea pay, as provided for Naval Cadets.

UNITED STATES NAVAL INSTITUTE.

The United States Naval Institute, having for its object the advancement of professional, literary and scientific knowledge among the officers of the Navy, was founded in 1873; it now has a total membership of 875. The annual meeting is held on the second Friday in October. Its headquarters is at Annapolis, Md., and its officers are as follows: President, Rear-Admiral S. B. Luce, U. S. Navy;

vice-president, Commander A. S. Snow, U. S. Navy; secretary and treasurer, Lieutenant J. H. Glennon, U. S. Navy. Board of Control—Lieutenant-Commander Uriel Sebree and B. F. Tilley, U. S. Navy; Lieutenants George L. Dyer, C. E. Colahan, Hugo Osterhaus, U. S. Navy; Professor N. M. Terry, A. M., Ph. D., and the secretary and treasurer.

The "grog" ration was abolished in the Navy several years ago, and in lieu of the regular Navy ration officers on the active list are allowed 30 cents a day in addition to their annual pay. The law provides that no officer on the retired list shall be employed on active duty except in time of war. Officers retired after forty years of service, or on attaining the age of sixty-two years, or those retired

from incapacity resulting from long and faithful service, from wounds or injuries received in the line of duty, or from sickness or exposure therein, receive 75 per cent of the sea-pay of their grade at the time of retirement. REGULAR ARMY AND NAVY UNION.

Incorporated March, 1888, Cincinnati, Ohio. It has 127 branches, called garrisons. The prerequisite for membership is an honorable discharge from the regular service of either the Army or Navy. Its objects are to bring together and unite in benevolent and social fellowship those who have served honorably in the Regular Army, Navy or Marine Corps of the United States; to provide for comrades when sick or in need; to assist in the burial of dead; to extend aid to members or to the family or dependents of a deceased comrade; to

foster social and fraternal intercourse between comrades; also to secure from Congress and other legislative bodies, the passage of laws beneficial to the welfare of members in the service.

Officers: National commander, James P. Lockwood, Chicago; vice-commander, Henry Shindler, Leavenworth, Kan.; department commander, W. T. Daugherty, Philadelphia; adjutant, R. J. Fanning, Columbus, Ohio; paymaster, A. C. G. de Hens, Milwaukee; chaplain, John E. Cox, Owensville, Ind. Annual meeting, February 22, 1895, Chicago.

In the foregoing tables of Consulates the letters "C. G." indicate Consul-General; "C," Consul; "V. C.," Vice-Consul; "C. A.," Commercial Agent. The letter "a" means "also diplomatic agent"; "b" that he is authorized to transact business; "n" that he is a naturalized citizen; *Also E. E. and M. P. †Also Secretary of Legation. ‡Also Minister Resident. The aggregate of official fees, when not exceeding \$2,500, is retained by officers who are not allowed a fixed salary by law; any surplus over \$2,500 is turned into the Treasury. Consuls who receive a fixed salary retain notarial fees only, and are accountable to the Government for all official fees received by them. Clerk hire, except when especially authorized by law, is not chargeable to the Government. It is the usual practice for the agent, subject to agreement with the Consul, to retain one-half of the fees of the agency until the sum retained by him amounts to \$1,000. This rule is not universal as regards the proportion, but the maximum of \$1,000 cannot be exceeded. The agent cannot, however, take precedence over the Consul in the division of the fees. The Consul is entitled to retain not more than \$1,000 a year in the aggregate from the agencies under his consulate.

GOLD PRODUCTION IN UNITED STATES, 1893.

The total production of gold in the United States in 1893, was 1,739,081 ounces, valued at \$35,950,000, an increase over 1892 of 73,455 ounces, representing \$1,518,423. The following table shows the production in fine ounces for 1893, by States, with the increase or decrease as compared with 1892.

IRON AND STEEL TRADE IN 1893.

The annual report of the American Iron and Steel Association gives the following information of the production, etc., of iron and steel in the United States in 1893:

The production of iron ore was 11,587,629 gross tons, against 16,296,668 tons in 1892, a decrease of 4,709,036 tons. The shipments of iron ore from the Lake Superior mines in 1893 amounted to 6,060,492 tons, against 9,069,556 tons in 1892, a decrease of 3,009,064 tons. Our imports of iron ore in 1893 amounted to 526,951 gross tons, against 806,585 tons in 1892. The imports in 1893 were the smallest since 1885.

The production of pig iron was 7,124,502 gross tons, against 9,157,000 tons in

1892, a decrease of 2,032,498 tons. This decrease was almost entirely in the second half of 1893, the production in the first half being 4,562,918 tons and in the second half only 2,531,584 tons. The production of pig iron in the first half of 1894 was 2,717,983 tons, which was but slightly in excess of that in the second half of 1893.

The production of Bessemer steel ingots was 3,215,686 gross tons; in 1892, 4,168,435 tons. The production of all kinds of rails in 1893 was 1,135,458 gross tons against 1,551,844 tons in 1892. Tin plates and terne plates to the amount of 123,606,707 pounds were produced in 1893, compared with 42,119,192 pounds in the preceding year.

The above table exhibits, in a concise form, the prices of the three grades of a standard domestic fleece wool, in the seaboard markets, and is compiled from Mauer & Avery's reports. In the special features of character and condition, "washed Ohio fleece wool" is less subject to variation than any other, hence is more a basis of value than any other class.

POSTAL INFORMATION.

CLASSES OF MAIL MATTER.

Domestic mail matter is divided into four classes:

First Class—Letters, postal cards, and matter wholly or partly in writing, whether sealed or unsealed (except manuscript copy accompanying proof-sheets or corrected proof-sheets of the same), and all matter sealed or otherwise closed against inspection. Rates of postage—Two cents per ounce or fraction thereof. Postal cards, one cent each. On "drop" letters two cents per ounce or fraction thereof, when mailed at letter-carrier's office; and one cent per ounce or fraction thereof at other offices.

Second Class—Newspapers and publications issued at stated intervals as often as four times a year, bearing a date of issue and numbered consecutively, issued from a known office of publication, and formed of printed sheets, without board, cloth, leather or other substantial binding. Such publications must be originated and published for the dissemination of information of a public character, or devoted to literature, the sciences, art, or some special industry. They must have a legitimate list of subscribers, and must not be designed primarily for advertising purposes, or for circulation free, or at nominal rates. Rate of postage—For publishers and news agents, one cent a pound or fraction thereof. For others than publishers and news agents, one cent for each four ounces or fraction thereof.

Third Class—Books, periodicals and matter wholly in print (not included in second class), proof-sheets, corrected proof-sheets and manuscript copy accompanying the same. Rate of postage—One cent for each two ounces or fraction thereof.

Fourth Class—Merchandise—namely, all matter not embraced in the other three classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service, and not above the weight provided by law. Rate of postage—One cent per ounce or fraction thereof, but on seeds, cuttings, roots, scions and plants, one cent for each two ounces or fraction thereof.

LIMIT OF WEIGHT.

A package must not exceed four pounds in weight, unless it be a single book. Second-class matter is not subject to the four-pound limitation.

PAYMENT OF POSTAGE.

On first-class matter the postage should be fully prepaid, but if two cents in stamps be affixed the matter will be forwarded and remainder due collected of addressee before delivery.

On second-class matter the postage must be fully prepaid when sent by others than publishers or news agents.

On third-class matter the postage must be fully prepaid.

On fourth-class matter the postage must be fully prepaid.

WHAT MAY BE WRITTEN OR PRINTED ON MAIL MATTER.

Second Class—Name and address of persons to whom the matter is to be sent; index-figures of subscription book printed or written; printed title of publication; printed or written name or address, without advertisement of publisher or sender;

written or printed words or figures, or both, indicating date on which subscription ends; correction of typographical errors, a mark except by written or printed words to designate a word or passage to which it is desired to call attention; the words "sample copy"; publishers' or news agents' bills, receipts and orders for subscription, but the same shall convey no other information than the name, place of publication, subscription price, and amount of subscription due. The number of copies inclosed may be indicated on wrapper or face of package.

Third Class—Sender's name and address, with the word "from"; marks other than by written or printed words to call attention to word or passage; correction of typographical errors; on the blank leaves or cover of any book may be placed a simple manuscript dedication or inscription not in the nature of a personal correspondence; upon the address side of wrapper, envelope, tag or label must be left space sufficient for legible address and necessary stamps.

Fourth Class—With matter of this kind may be inclosed any mailable third-class matter. On wrapper, cover, tag or label may be written name and address of sender, with word "from"; marks, numbers, names or letters for purposes of description, or same may be printed; any printed matter not in nature of a personal correspondence. On address side must be left space sufficient for legible address and necessary stamps.

THE REGISTRY SYSTEM.

All mail matter, including drop letters, may be registered; but not matter addressed to fictitious names, initials or box numbers, or bearing vague and indefinite addresses.

The registry fee is eight cents in addition to postage. It must be prepaid by stamps affixed.

The rates of postage to all other countries and colonies (except Canada and Mexico) are as follows:

Letters, 15 grams ($\frac{1}{2}$ ounce).....	5 cents.
Postal cards, each.....	2 cents.
Newspapers and other printed matter, per 2 ounces.....	1 cent.
Commercial papers:	
Packets not in excess of 10 ounces	5 cents.
Packets in excess of 10 ounces, for each 2 ounces or fraction thereof	1 cent.
Samples of merchandise:	
Packets not in excess of 4 ounces	2 cents.
Packets in excess of 4 ounces, for each 2 ounces or fraction thereof	1 cent.
Registration fee on letters or other articles	8 cents.

Ordinary letters for countries of the Postal Union (except Canada and Mexico) must be forwarded whether any postage is prepaid on them or not. All other mailable matter must be prepaid, at least, partially.

CANADA AND MEXICO.

Matter mailed in the United States addressed to Canada or Mexico is subject to the same postage rates and conditions as it would be if it were addressed for delivery in the United States.

HOW TO DETECT COUNTERFEITS.

The principal defects of some of the counterfeits are given in the following notes from Dickerman's "United States Treasury Counterfeit Detector":

SILVER CERTIFICATES.—\$1.—No silk thread. **\$2.** B—Lacks silk threads, large seal printed in different shades of color; a fourth issue bears the small carmine red seal. C—One-quarter inch too short; Hancock's head smaller and narrower than in genuine. **\$5.** A—Silk thread imitated by line on back; Grant's portrait bad. D—Stud on Grant's shirt-front missing; in word "Pluribus" the "i" is missing. C, Series 1891—Grant's portrait poor, nose broad and flat; green on back has bluish tinge; geometric lines untrue and indistinct. **\$10.** Series 1880—On back "all" in "and all public dues" omitted; or "Engraved and printed at the Bureau of Engraving and Printing" or small lettering on face omitted; lettering blotched, blurred and soiled. B, Series 1886—"This certifies that there have been deposited in the Treasury" omitted from top centre. **\$10** and **\$20**—Penwork counterfeits are numerous; Treasury number washes off **\$10** D and **\$20.** E, Series 1880—Color of seal disturbed by moisture. **\$20.** C, Series 1880—A dangerous counterfeit; patent fibre paper imitated. C—In left panel R, T and F in word "certificate" upside down; on back, "taxes" and "engraved" spelled "tares" and "engravod."

GOLD CERTIFICATES.—\$20. A, Series of 1892—A dangerous counterfeit, for, apart from the counter containing the figures 20 on the face and the portrait of Garfield, there is little of the gray of the photograph about it; the seal is small and scalloped, having a reddish

tinge, apparently applied with brush; the numbering is very pronounced and heavier than the genuine; the surface of the note is one-half inch shorter and one-eighth of an inch narrower than the genuine. It has the two parallel silk threads running through it; the tint on back of note is light brown, while in genuine it is orange; persons handling gold notes must not forget that in this counterfeit they are left to determine its character by its tints rather than by the lines in the engraving, seeing it is a photograph of genuine work.

NATIONAL BANK NOTES.—\$1. Nat'l Eagle Bank, Boston, red numbering inferior. **\$2.** Nat'l Union, Kinderhook, N. Y., under check letter A at left are two flourishes instead of one; Linderpark, N. Y., no such bank; Market Nat'l, N. Y., only one flourish over AR in Market instead of three; Marine Nat'l, N. Y., "city of" omitted before New-York, black panel under title; Ninth Nat'l, N. Y., "the" after "of" omitted in title; St. Nicholas Nat'l, N. Y., "New-York" over date, July 1, 1865, in script instead of italics; Westchester Co. Nat'l, Peekskill, under left check letter A two flourishes instead of one; Nat'l of Rhode Island, imprint of Bank Note Company hardly legible. **\$5.** C. Jewett City Nat'l, Norwalk Central Nat'l, series 1882; refuse all. First Nat'l, Aurora, Ill.; Central Nat'l, First Nat'l, German Nat'l, Chicago; First Nat'l, Paxton, Ill.; First Nat'l, Peru, Ill.; First Nat'l, Canton, Ill.; First Nat'l, Northampton, Mass.; refuse all signed S. B. Colby, Register of the Treasury; First Nat'l, Merchants' Nat'l, Traders' Nat'l, Chicago; Nat'l of Pontiac, Ill., vertical lines di-

viding vignette on back from coat of arms if continued down would pass between two 5s instead of cutting one. Union Nat'l, Chicago; Farmers' Nat'l, Virginia, Ill., refuse; May 10, 1865. Boylston Nat'l, Boston; Leicester Nat'l, First Nat'l St. Johnsbury, new process photograph. Globe Nat'l, Boston; Pocasset Nat'l, Fall River; People's Nat'l, Boston; Southbridge Nat'l, Montpelier Nat'l, Dedham Nat'l, green tint uneven and smeared; omitted in space at top where "National Currency" appears. First Nat'l of New-Bedford, Treasury and charter numbers and pink seal too bright. Merchants' Nat'l, New-Bedford; Hampden Nat'l, Westfield; Pacific Nat'l, Boston, vignette of Columbus imperfect; vertical lines at left of vignette on back would pass between figures instead of through one. First Nat'l, Cecil, Ill.; First Nat'l, Galena, Ill., no such banks. People's Nat'l, Jackson, Mich., coarse, defects numerous. Manufacturers' Nat'l, Amsterdam, N. Y., no shading inside first "a" in "Manufacturers'" face of man kneeling wild, not devout; in vignette on back line of horizon not distinct above head of Columbus. Nat'l of Pawling, N. Y., signatures of president and cashier printed, not written; Columbus's mustache straight instead of curved; "f" in word "Five" does not touch ornament in left upper corner. Fort Stanwix Nat'l, Rome, N. Y.; see Manufacturers' Nat'l, Amsterdam. Nat'l State, Troy, N. Y., signed "Jno. C. New, Treasurer of the United States," and bears at same time old pointed Treasury seal. First Nat'l, Hanover, Penn., "Act approved June 30, 1864," instead of "Act approved Feb. 25th, 1863." First Nat'l, Tamaqua, Penn., on back, "owing" spelled "ownig," and "thousand," "thousaud." First Nat'l, Milwaukee, Wis., poor counterfeit; color very bad. \$10. NOTE. Most Indiana counterfeits are coarse, especially in vignette, lower left corner; in border, upper left end, "Currency" lettered in reverse and spelled backward. In most Pennsylvania, post in vignette, lower left corner, has no knothole or nick; no charter number.

In most of New-York, lathework irregular; in counters "10," right upper corner, face, small heart-shaped centres variable, work incomplete, title lines of banks irregular; in counters "TEN," left upper corner, heavy white line just above word is continuous and touches top of E; no knothole quarter length of post from bottom. Lafayette Nat'l, of Ind., refuse any charter number except 2,215. Muncie Nat'l, of Ind., refuse any charter number except 793. Richmond Nat'l, of Ind., portion of eagle's wing covers bottom of "1873." First Nat'l, Atchison, Kan., refuse bank numbers 655 to 668 and Treasury numbers 679,929 to 679,942 inclusive. Germania Nat'l, New-Orleans, no silk threads, vignettes coarse and scratchy. Albany City Nat'l, City Nat'l, Poughkeepsie, Highland Nat'l, Newburg. Croton Nat'l, N. Y., see note. Auburn City Nat'l, in vignette, lower left corner; Franklin's kitestrng not wholly visible. Merchants' Nat'l, Albany, refuse bank numbers 759 to 766 and Treasury numbers 45,195 to 45,202 inclusive. Farmers and Manuf'r's Nat'l,

Buffalo, no such bank. First Nat'l, Lockport, N. Y.; First Nat'l, Poughkeepsie, refuse all signed by S. B. Colby, Register of the Treasury. American Nat'l, Market Nat'l, Nat'l B'k of Commerce, N. Y.; Nat'l B'k of the State of N. Y., Union Nat'l, N. Y.; Flour City Nat'l, Rochester, N. Y., refuse all dated July 1, 1865. Croton Nat'l, N. Y., refuse all. Marine Nat'l, Mechanics' Nat'l, N. Y., refuse all whose title omits words "the city of." Mechanics' Nat'l, N. Y., signatures printed instead of written. Farmers and Man'f'rs' Nat'l, Poughkeepsie, "P" in title strikes "O" and extends below base of other letters. First Nat'l, Red Hook, N. Y., refuse all dated February 20, 1865. Central Nat'l, Rome, N. Y., refuse all dated May 12, 1865. Syracuse, N. Y., Nat'l, very dangerous; see note and compare back of bill with genuine. Mutual Nat'l, Troy, N. Y., eagle's wing covers bottom of "65." Saratoga County, N. B., Waterford, N. Y., refuse all bank number 1,048, Treasury number 810,516. Watkins Nat'l, Watkins, N. Y., refuse all dated Aug. 1, 1865. Third Nat'l, Cincinnati, no parallel silk threads, paper greasy and stiff, vignettes coarse and scratchy. First Nat'l, Philadelphia, refuse all dated Feb. 20, 1864. Third Nat'l, Philadelphia, see note; first "P" in "Philadelphia" extends below other letters. Nat'l B'k of Barre, Vt., refuse bank numbers 911 to 936, Treasury numbers 932,805 to 932,830 inclusive. \$20. NOTE.—In most New-York counterfeits word "Loyalty" in vignette hardly legible. Liberty's toes missing, faces wild. In Conn., Ind. and Penn., foliage to right of "20," upper left end, bunchy and heavy; musket on ground in vignette seems to pierce leg of fallen man; eyes of kneeling woman mere dots. First Nat'l, Portland, Conn., First Nat'l, Indianapolis, see note. Atchison, Kan., refuse bank numbers 655 to 668, Treasury numbers 679,929 to 679,942. Merchants' Nat'l, Albany, refuse bank numbers 759 to 766, Treasury numbers 45,195 to 45,202 inclusive. First Nat'l, N. Y., refuse all dated July 19, 1865. Market Nat'l, Merchants' Nat'l, Nat'l B'k of Commerce, Nat'l Shoe and Leather, Tradesmen's Nat'l, N. Y., Oneida Nat'l, Utica, N. Y., refuse all signed "L. E. Chittenden, Register of the Treasury." City Nat'l, Utica, N. Y., no such bank; should be "Utica City Nat'l." Fourth Nat'l, Philadelphia, "a" in Philadelphia not crossed, "w" in "twenty," lower right end border face, shorter than other letters. Nat'l B'k of Barre, Vt., refuse bank numbers 911 to 936, Treasury numbers 932,805 to 932,830 inclusive. \$50. NOTE.—In all these counterfeits, in upper right corner face, Victory's up-lifted arm ends in stump without hand at bottom of shading of 5 in 50. On the back of New-York counterfeits, bandage crosses forehead instead of eyes of Justice in State coat-of-arms. Third Nat'l, Buffalo, none genuine bearing other charter number than 850, or signed "L. E. Chittenden, Register of the Treasury." Central Nat'l, N. Y., refuse all except charter number of 376; none genuine signed "L. E. Chittenden," etc., and having imprint of Bureau of Engraving and Printing in left upper corner. Mechanics' Nat'l, N. Y., refuse all except charter number 1,250. Metropolitan Nat'l, N. Y.,

refuse all except charter number 1,121. Nat'l B'k of Commerce, refuse all except charter number 733, all signed "J. L. Everett, Cashier," and "F. L. Palmer, President," all having other check letter than "a," and all dated January 10, 1865. Nat'l, Broadway, N. Y., see note; the genuine bill bears check letter "a." Tradesmen's National, N. Y., see note. Union Nat'l, N. Y., refuse all bearing other charter number than 1,278, all signed "L. E. Chittenden," etc., and all dated April 15, 1864. \$100. First Nat'l, Boston, "Maintain," under Liberty's hand in sunburst, spelled "mainain," sailor's mouth closed instead of partly opened, on back comma omitted after "it," line 2 and "printed," line 4; under "Boston," large panel face, four flourishes omitted. Nat'l Revere, Boston, "N" of "National Currency" 1-16 of an inch from border scroll ornament, sailor's mouth wide open, space between edge of Liberty's

wing and shading of "C," right under corner, 1-32 inch instead of 1-16. Merchants' Nat'l, New-Bedford, hair line under president's name, if extended, would strike middle of "r," in "Casnr.,"; see Nat'l Revere, Boston. Pittsfield Nat'l, Mass., lower loop of "s" in Colby's signature does not touch sail of frigate; see Nat'l Revere. Nat'l Exchange, Baltimore, small heart-shaped figure at left of panel "Baltimore," shows eight lines instead of seven; see Nat'l Revere, Central Nat'l, N. Y., four flourishes under panel "City of New-York" omitted; see First Nat'l, Boston. Ohio Nat'l, Cincinnati, white line around panel inclosing Cincinnati broader than those in body of panel; see First Nat'l, Boston. Nat'l B'k of Commerce, Pittsburg, cashier's name printed; see Nat'l Revere, Boston. Second Nat'l, Wilkesbarre, Penn., names of officers of bank printed; see National Revere, Boston.

COPYRIGHT IN THE UNITED STATES, ETC.

Under the International Copyright act (approved March 3, 1891; took effect July 1, 1891) any United States citizen, or citizen or subject of foreign nations granting copyright to United States citizens on substantially the same basis with their own citizens, or which become parties to an international agreement for reciprocity in copyright, who is "the author, inventor, designer or proprietor of any book, map, chart, dramatic or musical composition, engraving, cut, print or photograph or negative thereof, or of a painting, drawing, chromo, statue, statuary, and of models or designs intended to be perfected as works of the fine arts, and the executors, administrators, or assigns of any such person" may secure for 28 years the sole liberty of printing, reprinting, publishing, completing, copying, executing, finishing and vending the same; and, in case of a dramatic composition, of publicly performing or representing it or causing it to be performed or represented by others.

The applicant, on or before the day of publication in this or any foreign country, must deliver at the office of the Librarian of Congress, or deposit in the mail within the United States, addressed to him at Washington, D. C., a printed

copy of the title of the book, map, etc., or a description of the painting, drawing, statue, or model or design for a work of the fine arts for which he desires a copyright. He must also, not later than the day of publication in this or any foreign country, deliver at the Librarian's office, or deposit in the mail within the United States, addressed to him at Washington, D. C., two copies of a book, photograph, chromo or lithograph printed from type set within the United States, or from plates made therefrom, or from negatives or drawings on stone made within the United States, or from transfers made therefrom, or a photograph of a painting, drawing, statue, model or design. Free mailing labels are furnished by the Librarian. The Librarian's fees are: 1. For recording the title or description of any copyright book or other article, 50 cents. 2. For every copy under seal (certificate) of such record, 50 cents, which will be mailed as soon as reached in the records. 3. For recording and certifying any instrument of writing for the assignment of a copyright, \$1. 4. For copy of an assignment, \$1. The charge for recording the title of any article entered for copyright, the production of a foreigner, is \$1, or \$1 50 with certificate.

The Secretary of the Treasury prints weekly catalogues of copyright publications deposited, for distribution, at \$5 annual subscription.

Failure to deposit two copies forfeits copyright, and involves a penalty of \$25.

Proprietors of copyrights must send to the Librarian copies of all subsequent editions in which substantial changes are made. Authors have exclusive right to dramatize or translate their works copyrighted in the United States. An author or designer, or his widow or children, may secure an extension of the copyright for 14 years, by recording the title a second time within 6 months before the expiration of the first period. The penalty for unauthorized use of a copyright notice is \$100.

Each number of a periodical claiming copyright must be entered separately, the same as a book.

Every person who shall "without the consent of the proprietor of the copyright first obtained in writing, print, publish, dramatize, translate or import, or knowing the same to be so printed, published, dramatized, translated or imported, shall sell, or expose to sale" any copy of a copyrighted book, must forfeit every copy to the proprietor and is liable for damages in a civil action. In the case of paintings or statuary, the infringer forfeits \$10 for every copy he sells, possesses or exposes for sale. With other copyrighted articles, he forfeits the plates and \$1 for every sheet he possesses or exposes for sale. Persons purchasing

for use, and not for sale, may import, subject to duty, not more than two foreign copies of a copyrighted book.

Switzerland, France, Belgium, Great Britain, Germany, Denmark, Portugal and Italy have been admitted to the benefits of the new law. For an American citizen to secure copyright in Great Britain, the title must be entered at Stationers' Hall, London, the fee for which is five shillings; the work must be published in Great Britain simultaneously with its publication in the United States, and five copies of the publication are required.

A foreigner may secure copyright in France by depositing two copies of the publication at the Ministry of the Interior in Paris.

In Germany a foreigner must enter his work in the general registry book of copyrights at Leipzig, and have it published by a firm having its place of business within the German Empire.

Copyright in Canada is to be registered with the Minister of Agriculture, fee \$1, the work to be published in Canada.

The increase of copyright business in the United States is shown in the following:

Copyright entered in 1890.....	42,794
Copyright entered in 1891.....	48,908
Copyright entered in 1892.....	54,735

PENSION OFFICE PROCEDURE.

PENSION LEGISLATION—The present pension system has been built up between 1862 and 1890. In that time sixteen acts have been passed, fifteen of which may be classified as an extension of the original Pension Law to fit the necessities of Union Veterans. The sixteenth is the great Dependent Pension Law. Most of the pensions range between \$2 and \$30 a month for privates, though \$72 a month is granted to those who have lost both hands, both feet and both eyes.

METHOD OF APPLICATION—The first step toward securing a pension under the law of June 27, 1890, generally known as the Dependent Pension Law, is to apply to the Commissioner of Pensions, setting forth the military or naval service of the applicant, and the nature and character of his disabilities. The applicant must be identified by two witnesses. When the application is filed in the Pension Office he is informed of the fact, and is then ordered to go before a Pension Board of Surgeons for physical examination. If a disability is found sufficient to entitle him to a pension, he gets one on the report of the Board, or on the report of the Board his application is rejected. Widows are required to make application in the same form. With the application they must furnish proof of marriage to the soldier or sailor by

a verified transcript from a church or other public record, if one exists, or by affidavits of the clergyman or magistrate who performed the ceremony, or by affidavits of two witnesses of the marriage, or by the record of the baptism of children. There must be evidence of witnesses that the widow has not married since her husband's death and that she depends on her daily labor for support. If she or her husband had been previously married, the date of death or divorce of former husband or wife must be cited. The widow must also prove the death of the soldier, and, if enlisted under an assumed name, must prove his identity.

CHILDREN AND PARENTS—Children under sixteen and dependent parents are entitled to pensions under the law, but must show by the evidence of comrades or officers that the soldier's or sailor's death was due to his services.

RECONSIDERATION—On the evidence of two physicians that disability exists, an application rejected by a Board of Pension Surgeons may be reconsidered. In this case the applicant is ordered to go before another board of surgeons.

Procedure under the original Pension Law is similar to that outlined above, though the requirements for identification are more rigid.

*This contract was made in 1892 with the Board of Home Missions of the Methodist Episcopal Church. As that organization did not wish to make any contracts for 1893, the contract was renewed with Mrs. Daggett.

Congress at its late session directed the Secretary of the Interior to inquire into and investigate the propriety of discontinuing contract schools, and whether, in his judgment, the same can be done without detriment to the education of the Indian children; and that he submit to Congress at the next session the result of such investigation, including an estimate of the additional cost, if any, of substituting Government schools for contract schools, together with such recommendations as he may deem proper.

All, over Harrison, 506,544. ‡ 1892.—In the Harrison vote in Texas are included 3,969 votes cast for a Republican electoral ticket known as the "Lilly White" in Alabama and Louisiana there were some Republican fusions with the People's party, and in Colorado, Idaho, Kansas, Nevada, North Dakota and Wyoming there were Democratic fusions with the People's party. In each case the "fusion" vote is counted for Weaver, except in Louisiana where it is equally divided between Harrison and Weaver. In Minnesota, the Weaver electors who had Democratic indorsement received 107,077 votes. In Oregon the one Weaver elector who had Democratic indorsement was elected. *Wing*, *Soc. THE PRINCIPAL TELESCOPES IN THE WORLD.

Astronomical telescopes are of two kinds, reflecting and refracting. The former is essentially a concave mirror or speculum, at the focus of which an eyepiece is fixed. Formerly the speculum was constructed of an alloy of copper and tin, ground to the required curvature and highly polished. In late years, however, the mirror is a glass disk, ground to the proper curvature, on the concave face of which silver is deposited by chemical processes. The refracting telescope con-

sists of an achromatic lens or object-glass mounted in one end of a tube, at the other end of which, at focal distance, the eyepiece is attached. Most astronomical telescopes, and all refracting instruments, are equatorially mounted; that is, the motion on one axis is in the plane of a parallel, while that on the other is in the plane of a meridian. Most telescopes are mounted so as to be geared to clockwork that exactly neutralizes the rotation of the earth.

In addition to the foregoing, Yale University has a 28-inch refractor in construction and Harvard University has two telescopes of medium power at temporary observatories in peaks of the Andes. The telescope, the objective for which is being made by Alvan Clark & Sons, for the University of Chicago, to which institution Mr. Yerkes, of Chicago, has presented it, will doubtless be completed early this year. This has an aperture of

40 inches, and will be the largest refracting telescope in the world. The mounting, by Warner & Swazey, was exhibited at the World's Fair. A new 26-inch glass, to be made by Sir Howard Grubb, and presented by Sir Henry Thompson, has been promised to the Royal Observatory, Cape of Good Hope, where Dr. Gill already has done some admirable photographic work with a much smaller instrument.

WEATHER SIGNALS BY FLAG AND WHISTLE.

FLAGS.—Flags, signals, communicating the forecasts telegraphed at 10 a. m. and 10 p. m. from the Government Weather Bureau in Washington, are now displayed at nearly 2,000 points in the U. S. The flags employed are represented herewith:

All but one of these flags are 6 feet square; No. 4 is 6 feet long and 4 feet wide at the base. Sometimes they are displayed singly, and sometimes two are used together.

No. 1, white flag, indicates clear or fair weather. No. 2, blue flag, indicates rain or snow. No. 3, white and blue flag (parallel bars of white and blue), indicates that local rains or showers will occur, and 4, black triangular flag, always refers to temperature; when placed above Nos. 1, 2 or 3 it indicates warmer weather; when placed below Nos. 1, 2 or 3 it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in temperature will not vary more than four degrees from the temperature of the same hour of the preceding day from March to October, inclusive, and not more than six degrees for the remaining months of the year. No. 5, white flag, with black square in centre, indicates the approach of a sudden and decided fall in temperature, and is usually ordered at least twenty-four hours in advance of the cold wave. When No. 5 is displayed No. 4 is always omitted.

The "Inland Storm Signal" (red flag with black centre) is used in the States of North Dakota, South Dakota, Minnesota (except at lake stations), Iowa, Nebraska and Wyoming, to indicate the approach of high winds accompanied by snow, with temperature below freezing. When displayed on poles the signals should be arranged to read downward; when displayed from horizontal supports a small streamer should be attached to indicate the point from which the signals are to be read.

These flags are to be obtained from dealers, whose addresses can be procured

at almost any weather station. They cost \$2 apiece. The necessary information is sent daily by telegraph, without charge, from the weather station to a single person in a town or village who will employ the signals. Other applicants will be furnished at their own expense. Many business men find it a good advertisement to buy one of these flag outfits and provide their community with daily forecasts. The Chief of the U. S. Weather Bureau, Washington, D. C., or the Chief of any of the State Weather Services may be consulted on the subject by letter. Tin or sheet-iron signal flags, painted to correspond with the foregoing schedule, have also been employed for weather forecasts. These latter are displayed from the baggage cars of railway trains, the baggage-master being guided by telegraphic information.

Whistle Signals.—The warning signal is a long blast of from 15 to 20 seconds' duration; after this has been sounded long blasts (from 4 to 6 seconds' duration) refer to weather, and short blasts (from 1 to 3 seconds' duration) refer to temperature, those for weather to be sounded first. For instance: One long blast indicates fair weather; two long, rain or snow; three long, local rains; one short, lower temperature; two short, higher temperature; three short, cold wave; one long and one short, fair weather, lower temperature; two long and two short, rain or snow, higher temperature; one long and three short, fair weather, cold wave; three long and two short, local rains, higher temperature.

THE TRIBUNE FRESH-AIR FUND.

Organized in 1877, its object being to send children of the New-York poor into the country for a summer vacation of two weeks. Hospitable country people receive them, not as boarders, but give them food and lodging and freedom of the country grounds. 271,921 children have had the benefits of this fund, at an average cost of \$2 63. The fund is dependent upon voluntary contributions. The following table shows a continued and steady growth of the work from the beginning.

HAWAII.

The ceremony of officially declaring the Republic of Hawaii, the inauguration of Sanford Ballard Dole as President, and the appointment of the Cabinet on July 4, 1894, was essentially a civil one. No attempt at display was made, everything passed off quietly and according to the programme arranged. The following were the officers of the new Government: President, Sanford B. Dole; Minister of Foreign Affairs, F. M. Hatch; Minister of the Interior, J. A. King; Minister of Finance, S. M. Danon; Attorney-General, W. O. Smith.

Executive Council: Vice-President, W. C. Wilder; Cecil Brown, John Nott, John Ena, James F. Morgan, Edward Suhr, J. P. Mendonca, John Emmeluth, E. D. Tanney, C. Bolte, W. F. Allen, Henry Waterhouse, A. Young, D. B. Smith.

Supreme Court: Chief Justice, A. F. Judd; R. F. Bickerton, First Associate Justice; W. E. Friar, Second Associate Justice. Circuit Judges—First Circuit, Oahu, H. E. Cooper, W. A. Whiting; Second Circuit, Mani, A. N. Kepoikai; Third and Fourth Circuits, Hawaii, S. L. Austin; Fifth Circuit, Kauai, J. Hardy.

The draft of the Constitution adopted by the Convention is, in substance, as follows: Name of Government, "Republic of Hawaii." Administration—President, Cabinet of four Ministers, Advisory Council of fifteen, Senate and House of Representatives (sitting separately) of fifteen members each. Electors of Senators must possess property valued at \$4,000, or a yearly income of \$600. All voters must be born or naturalized citizens, and must be able to read, write and speak the English or Hawaiian language with fluency. An alien who wishes to qualify for naturalization must come from a country with which Hawaii has a treaty concerning naturalization. He must be able to read and write English fluently; must possess property valued at \$200, and must renounce all foreign allegiance. A special exception is, however, made in the case of all aliens who aided and supported the Provisional Government. They may receive denization or naturaliza-

tion and be free to vote without the above qualifications. All voters must adjure monarchy.

The President is to be elected for a term of six years, and cannot succeed himself. He is to be chosen by a majority of both Houses, sitting together, but the majority must also include a majority of the Senate. He is to have the usual powers of the Chief Magistrate. President Dole, named in the Constitution, is to continue in office until December 31, 1900. The Advisory Council is appointed—five members by each House of Congress and five by the President. The Council is to act in cases of pardons, the appropriation of money, and in great emergencies. In case of a Presidential vacancy or suspension, the office is to be filled by a member of the Cabinet until a new President can be elected. If one House adjourns without the consent of the other, the latter goes on alone with complete legislative power. No session can exceed sixty working days without the consent of the President. The President may veto any specification of the Appropriation bill. The President and Senate have power to conclude a treaty of commercial and political union with the United States. A special Board of Registration shall act on each island. The qualifications of voters are to be rigidly scrutinized. The Legislature may provide by-laws for the supervision, registration, control and identification of all persons, and any class or nationality of persons, and may also restrict and limit the term of residence and business or employment of all persons coming into the Republic. This meets the case of Asiatic immigrants. Freedom of speech and press does not permit advocacy of the restoration of the monarchy. No alien entering the Republic is entitled to a writ of habeas corpus as of right. All treaties are ratified and confirmed. The Legislature is to meet biennially. The provisions for naturalization tend to exclude all Asiatics from voting. All existing laws and rights are confirmed, and lotteries are prohibited.

FRENCH MARRIAGE RESTRICTIONS.

On April 21, 1894, President Carnot signed a decree forbidding French diplomats, consuls, consular agents, etc., to marry without the consent of the Minister of Foreign Affairs. If an Ambassador, Minister, consul or other French official desires to marry a foreigner, permission must be obtained from the Foreign Minister one month before the first publication of the bans. It was declared that

any infraction of this decree would be punished by the dismissal or recall of the offender. The decree was provoked, it was said, by the marriage of M. Jules Patenotre and Count Daunay to American women. This report was subsequently denied as being aimed at Americans, but against the marriage of French representatives to women of certain other nationalities.

VENEZUELA'S DECREE ON TOURISTS.

Congress voted a law in 1894 decreeing that any person landing in Venezuela shall be inscribed in a special register. After the name, profession, and other information required from the newly arrived person has been recorded, a per-

mit of sojourn will be issued to him. The enactment of such law is in order to prevent the immigration and residence in Venezuela of the "detritus," or scum of other nations so long as there are no extradition treaties covering such cases.

THE EARTH.

The area of the earth is 197,500,425 square miles, of which 145,000,000 are of water and 52,500,425 land; its circumference at the equator is 24,896,8214 statute miles. The diameter of the earth at the poles is 7,898,8809 statute miles, and at the equator 7,924,9111 statute miles. Of the principal land divisions, North America occupies 8,155,438 square miles; South America, 7,410,042 square miles; Europe, 3,807,115 square miles; Asia, 16,428,854 square miles; Africa, 11,000,000 square miles; Oceanica, 5,198,451 square miles. The highest mountains in the world are, respectively, Mount Hercules (Island of Papua), 32,786 feet; Mt. Everest (India), 29,002 feet; Mt. Illamper (Bolivia), 24,800 feet; Mt. Urangle (Alaska), 20,400 feet; Mt. Kilimandjaro, 20,065 feet; Mt. Elbrooz (Russia), 18,526 feet. The largest lakes are Lake Superior, covering an area of 32,000 square miles, and Lake Michigan, covering 25,600 square miles.

DEPTHS OF THE OCEAN.

The greatest known depths of the different oceans that have been reliably sounded are the following, the data having been obtained from the Bureau of Navigation, Navy Department.

DEEPEST WATER IN THE WORLD.

In many respects the North Pacific Ocean resembles the North Atlantic. A great warm current, much like the Gulf Stream and of equal magnitude, called the Black Stream or Japan current, runs northward along the eastern shore of Asia. Close to the east coast of Japan it flows through a marine valley, which holds the deepest water in the world. It was sounded at a depth of five and a

quarter miles by the United States steamer Tuscarora in 1875, while surveying for a projected cable route between the United States and Japan. The heavy sounding-weight took more than an hour to sink to the bottom. But trial was made of a chasm yet more profound, where the lead did not fetch it up at all. It is the only depth of ocean that yet remains unfathomed.

SEA WATER'S SATURATION.

German scientists, who claim to have made most careful computations, declare that if all the salt in the sea waters of the globe was extracted the amount would be greater than the land, so far as the latter appears above the surface. The statement is that the seas cover 73 per cent of the earth's surface, estimated at 9,260,000 (German) square miles. The percentage of chloronatrium in the sea

is the same at all depths. Assuming that the average depth of the sea is a half (German) mile, there are then 3,400,000 cubic miles of sea water. A cubic mile of sea water contains, on the average, about twenty-five kilograms of salt. The 3,400,000 cubic miles of sea water would therefore contain 85,000 cubic miles of distilled pure salt.

SALT PRODUCTION.

There were 11,435,487 barrels of salt produced in the United States in the year 1893, as against 11,785,754 barrels in 1892, a falling off of 350,267 barrels. Each barrel weighed 280 pounds, making a total of 3,201,936,360 pounds. In addition

to this there were importations of 391,966,537 pounds, so that this country counteracted the effects of the enormous quantities of sugar used by making way with 3,593,902,897 pounds, or about 1,796,951 tons of salt.

CZAR OF RUSSIA'S COURT.

The Court of the Emperor of Russia consists of the following: Chief Chamberlain, five chief court-masters, one chief gentleman-of-the-table, one chief hunting-master, one chief court marshal, one chief carver, one chief stable-master, thirty-five court-masters, seventeen stable-masters, six hunting-masters, one director of the

Imperial theatres, two chief masters of ceremonies, eight assistant hunting-masters, nine assistant masters of ceremonies, 173 chamberlains, 249 assistant chamberlains, twenty-four court physicians, twenty-three court priests, ten ladies-in-waiting, four ladies of the bed chamber, and 180 assistant ladies in waiting.

NEW-YORK CONSTITUTIONAL AMENDMENTS.

(Adopted by vote of the people, November 6, 1894.)

1. Permits the Legislature to abolish coroners, by removing from the Constitution all mention of the office.
 2. Requires that all bills shall be printed in final form at least three days before their passage, thus providing further safeguards against abuses in legislation.
 3. Authorizes the Speaker of the Assembly to fill a vacancy as Governor after the Lieutenant-Governor, thus defining more fully the succession to the chief magistracy.
 4. Abolishes the limitation of \$5,000 for damages from injuries causing death.
 5. Authorizes the President of the Senate to act as Lieutenant-Governor, thus enlarging the express constitutional powers of the former.
 6. Includes institutions supported by private charity among those whose inmates do not acquire or lose a residence for the purpose of voting.
 7. Removes the prohibition against the sale of the Onondaga Salt Springs.
 8. Permits the trial of voting machines or some method of recording and counting votes, if found to be superior to the present system of election by ballot.
 9. Abolishes the Code Commission, whose work has been completed.
 10. Prohibits "riders" on appropriation bills.
 11. Requires a period of ninety days instead of only ten days of citizenship before the right to vote can be exercised.
 12. Changes the date of meeting of the Legislature from Tuesday to Wednesday, so that the Sunday before the beginning of the session need not be taken up by the Speakership contest.
 13. Prohibits the issue of passes by railroad, telegraph and telephone companies to public officers.
 14. Abolishes the contract system of convict labor.
 15. Provides for securing fair elections by requiring that the two principal parties shall be equally represented on all election boards.
 16. Requires the Legislature to provide for free public schools in which all the children of the State may be educated; and to prohibit absolutely the use of public money in aid of sectarian schools.
 17. Secures a more speedy and effective administration of justice throughout the State by such a revision of the judiciary system as will remedy prevailing evils due to the overcrowding of trial calendars and of the calendar of the Court of Appeals. The principal features of this amendment are the consolidation of the Superior city courts with the Supreme Court and the establishment, in place of the nine general terms now existing, of four tribunals, each composed of five justices of the Supreme Court, who shall form a court of last resort upon all questions of fact and upon all interlocutory proceedings in each of the new departments. The imposition of a money limit upon the right of appeal to the Court of Appeals for a declaration and settlement of the law is prohibited.
 18. Provides for a new apportionment of Senators and Assemblymen, the membership of the Senate to be 50 and of the Assembly 150.
 19. Prohibits the sale of public lands in the forest preserve and the cutting of timber thereon.
 20. Establishes in the Constitution the present system of registration, forbidding, however, any requirement of personal attendance on the first day of registration in the thinly settled regions outside of the cities and large villages.
 - 21 and 22. Separates in the larger cities municipal elections from the State and National elections. This is accomplished by rearranging the terms of office and times of election of certain public servants so that State officers will be elected in even-numbered years and municipal officers in odd-numbered years.
 23. Permits the sale of the Hamburg Canal in Buffalo.
 24. Authorizes the Legislature to provide for the improvement of the canals, without, however, borrowing money for that purpose, unless the people authorize it according to Article VII, Section 12, of the present Constitution.
 25. Provides for regulating and limiting the payment of public money to private institutions for the support of certain wards of the State who could not otherwise be provided for, by depriving the Legislature of the power to pass mandatory laws compelling municipal subdivisions to make such payments, and by subjecting such expenditures to the control of the State Board of Charities.
 26. Places a limitation upon city and county debts and effects a classification of cities. An important feature of this amendment is a provision that notice shall be given to municipal authorities before special acts affecting the larger cities can take effect. In case the consent of such authorities is withheld from any measure, the Legislature can pass it again by a majority vote.
 27. Fixed the date for the Constitution to take effect—January 1, 1895.
 28. Declares in the Constitution the principle of Civil Service Reform; that appointments and promotions are to be based on merit, and made when practicable after competitive examination; preference, however, being given to honorably discharged veterans of the Civil War.
 29. Provides for progress in agriculture by giving the right of drainage across adjoining lands.
 30. Regulates future amendments.
 31. Defines the liability of bank stockholders.
 32. Extends the prohibition against lotteries so as to include all pool-selling, bookmaking and other forms of gambling.
 33. Provides for a naval as well as a land force; to prevent the reduction of the militia below 10,000 men; and to compel the Legislature to provide for their support.
- Provides for an additional county judge in Kings County, and for an increase in the number of Supreme Court Justices in the Second Judicial District.

REGISTRATION OF TRADE MARKS UNDER ACT OF MAR. 3, 1881.

The following classes may obtain registration:

1. (a) Any person, firm, or corporation domiciled in the United States or located in any foreign country which, by treaty, convention or law, affords similar privileges to citizens of the United States, and who is entitled to the exclusive use of any trade-mark and uses the same in commerce with foreign nations or with Indian tribes.

(b) Any citizen or resident of this country wishing the protection of his trade-mark in any foreign country, the laws of which require registration in the United States as a condition precedent.

2. Every applicant for registration of a trade-mark must cause to be recorded in the Patent Office—

(a) The name, domicile and place of business or location of the firm or corporation desiring the protection of the trade-mark, and the residence and citizenship of individual applicants.

(b) The class of merchandise and the particular description of goods comprised in such class to which the trade-mark has been appropriated.

(c) A description of the trade-mark itself, with fac-similes thereof, and the mode in which it has been applied and used.

(d) The length of time during which the trade-mark has been used by the applicant on the class of goods described.

3. A fee of \$25 is required on filing each application.

An application will consist of a statement or specification, a declaration or oath, and the fac-simile with duplicates thereof. It shall contain a full and clear specification of the trade-mark, particularly discriminating between its essential and non-essential features. It should also state for what time the trade-mark has been used by the applicant, the class of merchandise, and the particular goods comprised in such class to which the trade-mark is appropriated, and the manner in which the trade-mark has been applied to the goods.

No trade-mark will be registered unless it shall be made to appear that the same is used as such by the applicant in commerce between the United States and some foreign nation or Indian tribe, or is within the provisions of a treaty, convention or declaration with a foreign Power, nor which is merely the name of the applicant, nor which is identical with a known or registered trade-mark owned by another and appropriated to the same class of merchandise, or which so nearly resembles some other person's lawful trade-mark as to be likely to cause confusion in the mind of the public or to deceive purchasers, or which is merely descriptive in nature.

All letters should be addressed to the Commissioner of Patents, Washington, D. C.

NATURALIZATION LAWS OF THE UNITED STATES.

DECLARATION OF INTENTION.—An alien seeking naturalization as a citizen of the United States must declare on oath before a Circuit or District Court of the United States, or a District or Supreme Court of the Territories, or a court of record of any of the States having common law jurisdiction and a seal and a clerk, at least two years before his admission that it is, bona-fide, his intention to become a citizen of the United States, and to renounce forever all allegiance and fidelity to any foreign State or ruler, and particularly to the one of which he may be at the time a citizen or subject.

OATH ON APPLICATION FOR ADMISSION.—At the time of his application for admission he must also declare on oath, before some one of the courts above specified, "that he will support the Constitution of the United States, and that he absolutely and entirely renounces and abjures all allegiance and fidelity to every foreign prince, potentate, State or sovereignty, and particularly, by name, to the prince, potentate, State or sovereignty of which he was before a citizen or subject."

CONDITIONS OF CITIZENSHIP.—It must appear to the satisfaction of the court to which the alien has applied for final admission that he has resided continuously within the United States for at least five years, and in the State or Territory where the court is held at least one year, and that during that time "he has behaved as a man of good moral character, attached to the principles of the Constitution of the United States, and well disposed to the good order and happiness of the same."

TITLES OF NOBILITY.—If the applicant bears any hereditary title or belongs to any order of nobility, he must make an express renunciation at the time of his application.

SOLDIERS.—Any alien twenty-one years old and upward who has been honorably discharged from the armies of the United States may become a citizen on his petition, without any previous declaration of intention, provided he has resided in the United States at least one year previous to his application and is of good moral character.

MINORS.—Any alien under the age of twenty-one, who has resided in the United States three years next preceding his twenty-first birthday, and has continued to reside therein up to the time he makes application to be admitted a citizen, may, after he arrives at the age of twenty-one, and after he has resided five years within the United States, including the three years of his minority, be admitted a citizen; but he must make a declaration on oath and prove to the satisfaction of the court that for the two years next preceding it has been his bona-fide intention to become a citizen.

CHILDREN OF NATURALIZED CITIZENS.—The children of persons who have been duly naturalized, being under twenty-one at the time of the naturalization of their parents, shall, if dwelling in the United States, be considered as citizens.

CITIZENS' CHILDREN BORN ABROAD.—The children of persons who now are or have been citizens of the United States are considered as citizens, though they may be born out of the limits and jurisdiction of the United States.

CHINESE.—The naturalization of Chinese is prohibited by Section 14, Chapter 126. Laws of 1882.

PROTECTION OF NATURALIZED CITIZENS.—Section 2,000 of the Revised Statutes of the United States expressly declares that "all naturalized citizens of the United States while in foreign countries are entitled to and shall receive from this Government the same protection of person and property which is accorded to native-born citizens."

THE RIGHT OF SUFFRAGE.—The right to vote is conferred by the State, naturalization by the United States. In several States aliens who have declared their intentions enjoy the right to vote equally with naturalized or native-born citizens. But the Federal Naturalization laws apply to the whole Union alike, and no alien may be naturalized until after five years' residence, except an honorably discharged soldier or a person whose parents have been naturalized while he was under twenty-one years of age, as above recited. Even after five years' residence and due naturalization he is not entitled to vote unless the laws of the State confer the privilege upon him.

BROOKLYN'S INCREASED TERRITORY.

The territorial extent of Brooklyn was practically doubled when the bills of the Legislature of 1894 annexing the towns of Gravesend, Flatlands, New-Utrecht, and Flatbush, were signed by the Governor. This makes the corporate limits of the municipality cover the entire Kings County. But this will not be fully accomplished until January 1, 1896, since the act relating to the town of Flatlands does not take effect till then. Flatbush

becomes the Twenty-ninth Ward; New-Utrecht the Thirtieth, Gravesend the Thirty-first, and Flatlands will be included in the Thirty-first when the consolidation is completed. Brooklyn, by these additions, becomes the largest city, territorially, in the State of New-York; in other words, it has grown from 28.99 square miles to 66.39 square miles, and from 957,959 population in 1892 to above 1,000,000.

Metric Measures.—Hectare, 2.47 acres; hectoditre (dry), 2.83 bushels; hectolitre (liquid), 26.41 gallons; kilogram, 2.20 pounds; kilometre, 0.62 mile; libra, pound; litre, 1.02 quarts; millimetre, 0.039 inch;

centimetre, 0.39 inch; decimetre, 3.93 inches; metre, 39.37 inches; decametre, 393.7 inches; hectometre, 328 1-12 feet; kilometre, 3,280 10-12 feet; myriametre, 6,2137 miles.

lawful, Kentucky, Massachusetts and New-Hampshire; indicted for felony and is a fugitive from justice, Louisiana and Virginia; husband indicted for felony and flees from the State, North Carolina; refusal of wife to "remove with her husband to this State," Tennessee; indignities rendering condition intolerable or life burdensome, Arkansas, Missouri, Oregon, Pennsylvania, Tennessee, Washington and Wyoming; conduct rendering it unsafe for wife to live with husband, Tennessee; turning wife out of doors, Tennessee; habitually violent and ungovernable temper, Florida; attempt by either party upon the life of the other, Illinois, Louisiana and Tennessee; gross neglect of duty, Kansas and Ohio; wife "given to intoxication," Wisconsin; husband a vagrant under the statutes, Missouri and Wyoming; insanity or mental incapacity at time of marriage, District of Columbia, Georgia and Mississippi; insanity, permanent and incurable, occurring subsequent to marriage, Arkansas; incurable chronic mania or dementia, having existed ten years or more, Washington; any cause rendering the marriage originally void, Maryland and Rhode Island; or voidable, Rhode Island; marriage within prohibited degrees, Florida, Georgia, Mississippi, New-Jersey and Pennsylvania; marriage by force, duress or fraud, Connecticut, Georgia, Kansas, Kentucky, Ohio, Pennsylvania and Washington; marriage solemnized while either party was under the age of consent, Delaware; when one of the parties has obtained a divorce in another State, Florida, Michigan and Ohio; public defamation, Louisiana; any other cause deemed by the court sufficient and when the court shall be satisfied that the parties can no longer live together, Washington.

LIMITED DIVORCE—Limited divorce exists in the following States: Alabama, Arkansas, Delaware, District of Columbia, Georgia, Kentucky, Louisiana, Maryland, Michigan, Minnesota (in favor of wife only), Nebraska, New-Jersey, New-York, North Carolina, Pennsylvania (in favor of wife only), Rhode Island, Tennessee (in favor of wife only), Virginia, West Virginia, Wisconsin.

PREVIOUS RESIDENCE REQUIRED.

Five years, Massachusetts (if when married both parties were residents three years); three years, Connecticut, New-Jersey; two years, District of Columbia, Florida, Indiana, Maryland, Michigan (when the cause for divorce occurred out of the State, otherwise one year), North Carolina, Tennessee, Vermont; one year, Alabama (abandonment, three years), Arkansas (if cause occurred out of the State, plaintiff must have been a resident of the State at time of occurrence), Colorado (unless cause for divorce occurred within the State, or while one or both of the parties resided in the State); Illinois (same as Colorado), Iowa, Kansas, Kentucky (if cause occurred out of the State, plaintiff must have been a resident of the State at time of occurrence), Maine, Minnesota, Mississippi (in case of desertion, two years); Missouri (same as Colorado), Montana, New-Hampshire, Ohio, Oregon, Pennsylvania, Rhode Island, Utah, Virginia, Washington, West Virginia, Wisconsin; six months, Arizona, California, Idaho, Nebraska, Nevada, New-Mexico, Texas, Wyoming; ninety days, the Dakotas.

The Supreme Court of Oklahoma, on September 8, 1894, handed down a decision nullifying all divorces granted by probate judges in Oklahoma since March, 1893.

CONJUGAL CONDITION.

The Census Bureau, on April 12, 1894, completed its report on the number of single, married, widowed and divorced persons in the United States, on June 1, 1890. This is the first presentation of data regarding conjugal condition as a part of the United States census. Of the entire population at the time the census was taken 59.29 per cent were single, 35.66 per cent were married, and 4.74 per cent were widowed. The divorced constituted only one-fifth of one per cent, while those whose conjugal condition was unknown was only a fraction above one-tenth of one per cent. Of the 32,067,880 male population, 19,945,576 were single, 11,205,228 were married, 815,437 were widowed, and 49,101 were divorced. Of the 30,554,370 female population, 17,183,988 were single, 11,126,196 were married, and 2,154,615 were widows. The proportion of widows is shown to be three times as great as the widowers, thus proving that a greater proportion of widowers than widows remarry. Of the males under fifteen years, the proportion of married was inappreciable, while of the females under fifteen about one in every 10,000 was married. Between the ages of fifteen and nineteen only 0.52 per cent of the males were married, and 9.49 per

cent of the females. Between the ages from twenty to twenty-four less than one-fifth of the males were married, while of the females nearly one-half were married; from twenty-five to twenty-nine over one-half of the males and nearly three-fourths of the females were married; from thirty to thirty-four nearly three-fourths of the males and four-fifths of the females were married; from thirty-five to forty-four the proportions were practically equal, and above this age the proportion of married women diminished, owing to the increased proportion of widows.

Of the native white of native parentage the proportions were as follows: Single, 59.76 per cent; married, 35.40 per cent; widowed, 4.52 per cent, and divorced, 0.22 per cent, while among the native white of foreign parentage the proportions were: Single, 76.77 per cent; married, 21.47 per cent; widowed, 1.63 per cent, and divorced, 0.11 per cent. From the tables prepared it is seen that in the North Atlantic division, which constitutes the principal manufacturing section of the country, a section made up largely of urban population, the single are found in smaller proportion than in any other part of the country and the

married and widowed in larger proportion. Conversely, the South Atlantic and South Central divisions, which are almost purely agricultural and rural, contain the largest proportion of single persons and the smallest proportion of the married. These results are directly opposed to popular belief. It is assumed that the development of urban population diminishes the number of the married. The figures appear to indicate that in the most densely settled parts of the country, parts where the urban element is greatest, the native white of native parentage marry more freely than in the rural parts of the United States. Considering the conjugal condition of the native white of foreign parentage, the

largest proportions of married and widowed are found in the South Atlantic and South Central divisions. In the three other divisions, where this element is much more numerous, the proportions of the married and widowed differ but slightly. The presentation regarding the conjugal condition of the foreign white develops the fact that the largest proportion of the married is found in the North Central division and the smallest proportion in the Western division. This difference doubtless arises from the character of the immigration to these two sections, that to the North Central division consisting largely of Germans and Scandinavians and that to the Western largely of English, Scotch and Irish.

AMERICAN BOARD OF COMMISSIONERS FOR FOREIGN MISSIONS.

The "American Board," the oldest foreign missionary society in the United States, organized June 29, 1810, "to propa-

gate the Gospel among unevangelized nations and communities," is an incorporated body with 275 members, mostly representatives of Congregational churches. It supports 571 missionaries. In more than 1,100 populous centres a force of 3,441 laborers, foreign and native, is preaching the gospel in twenty-six different languages and conducting a great evangelistic and educational enterprise. In 421 churches there is gathered a total membership of 41,871, 3,055 of whom made profession of their faith last year. In sixteen theological schools 230 students are in direct training for the ministry; 128 colleges and high schools gather 7,611 picked youths of both sexes and prepare them to reinforce the native agency, besides 39,366 pupils under Christian instruction and influence in common schools. Medical service steadily expands and broadens the area of missionary labor; the volume of Christian literature widens and exerts a deep and stimulating influence. Total receipts for the year ending August 31, 1894, \$705,132 70.

NAVAL MILITIA ORGANIZATIONS OF THE SEVERAL STATES.

Secretary Tracy, in his first and second annual reports, called attention to the great importance of a trained militia for the Navy. On March 2, 1891, Congress, accordingly, appropriated \$25,000 to purchase arms for the militia, to be expended under direction of the Secretary of the Navy. This fund is not distributed directly to the States, but is used, under supervision of the Bureau of Ordnance, to fill requisitions from Governors for arms and equipment. The appropriation for 1894 was apportioned on June 6 as follows: New-York \$5,033 64; Massachusetts, \$4,243 53; California, \$3,552 69; Illinois, \$3,548 32; South Carolina, \$2,508 87; Maryland, \$2,693 28; Pennsylvania, \$2,113 87; North Carolina, \$1,653 37; Rhode Island, \$1,685 07; Michigan, \$744 18; Connecticut, \$657 90. The various battalions formed

had, on June 30, 1894, the following strength: New-York, one battalion (two separate companies), of 432 men, Commander J. W. Miller, ship New-Hampshire, foot of East Twenty-eighth-st., N. Y. City; also two separate companies at Rochester, Lieutenants James M. Angie and E. N. Walbridge, commanding. Massachusetts—Two battalions (four divisions) of 448 men, Captain J. W. Weeks, No. 53 State-st., Boston. Rhode Island—One division, 148 men, Lieutenant William Hodgkinson, Bristol, Connecticut—One company, 65 men, Lieutenant E. V. Reynolds, No. 62 Trumbull-st., New-Haven. Pennsylvania—One battalion, 217 men, Lieutenant-Commander R. K. Wright, jr., No. 505 Chestnut-st., Philadelphia. Maryland—128 men, C. A. Dunn, No. 131 East Baltimore-st., Baltimore.

North Carolina—168 men, Lieutenant-Commander I. Winslow, New-Berne. South Carolina—208 men, Lieutenant-Commander R. H. Pinckney, Mount Pleasant, California—One battalion, 320 men, Lieutenant-Commander F. H. Stable, No. 1,027 Mission-st., San Francisco. Illinois—Two battalions, 367 men, Lieutenant-Commander B. M. Schaffner, No. 129 Randolph-st., Chicago, and D. C. Daggett, Moline, commanding. Michigan—73 men, Lieutenant-Commander C. C. Poe, No. 131 East Congress-st., Detroit. Louisiana and Virginia have passed naval militia laws, and a bill was introduced in the first session of the Lullid Congress to organize a naval militia in the District of Columbia.

SOCIETY OF THE CINCINNATI.

OFFICERS. — Acting president-general and vice-president-general, Hon. Robt. M. McLane, Maryland; secretary-general, Asa Bird Gardiner, L.L.D., Rhode Island; treasurer-general, John Schuyler, C. E., New-York; assistant secretary-general, Thomas Pinckney Lowndes, South Carolina; assistant treasurer-general, Henry Thayer Drowne, Rhode Island. The office of the secretary-general is at Garden City, L. I.

The society was founded by the officers of the American Revolutionary Army in May, 1783. The French officers were made honorary members. Baron Steuben presided at the meeting for organization. The institution was drafted by General Knox, and declared that the officers of the American Army "associated themselves into one society of friends to endure as long as they shall endure or any of their eldest male posterity; and in failure thereof the collateral branches who may be judged worthy of becoming its supporters." Washington was elected president-general in 1783. Robert Burnett, of New-York, who died in 1854, was the last survivor of the original members. Eight of the original thirteen State societies still survive, and hold annual meetings on July 4.

The secretaries of the State societies are as follows: Massachusetts, David Greene Haskins, jr., No. 83 Devonshire-st., Boston; Rhode Island, Asa Bird Gardiner, Garden City, L. I., N. Y.; New-York, William L. Keese, Flatbush, L. Merwin, Wilton, Conn.

COMRADES OF THE BATTLEFIELD.

The military order of the Comrades of the Battlefield was organized Aug. 5, 1891, its object being the preservation of individual records of service in action and to collect and preserve for future ages the true history of the War of the Rebellion as made by the soldiers and sailors under the fire of the enemy. While not a secret nor political association, its members are bound together by the ties formed amid the crash and carnage of battle. Any one who was actually under fire of the enemy, or who was wounded or taken prisoner in action during the war, is eligible to membership, and a certificate of service under fire is issued to the members that is positively and unquestionably a correct and true record of service. The officers of the order are: General Commanding, George E. Dalton, St. Louis, Mo.; Lieutenant-General, John R. Moore, Puyallup, Wash.; Register-General, Thomas Trahey, St. Louis, Mo.; Judge-Advocate-General, Jacob Shively, Anderson, Ohio; Quartermaster-General, E. T. Sowers, St. Louis, Mo.; National Chief of Staff, L. J. Allen, St. Charles, Mich.; National Adjutant-General, John

F. Hoffman, Wilson, Ohio. Executive Council—George E. Dalton, St. Louis, Mo., president; Eugene Paine, Iowa City, Iowa, chairman; Robert S. Giberson, East Newbern, Ill.; Dr. Thomas H. Briggs, Battle Creek, Mich.; Magnus Tait, Los Gatos, Cal.; S. J. Murphy, Grant Park, Ill.; Thomas W. Cook, Newbern, Ill.

CONFEDERATE VETERAN ASSOCIATION.

This is an independent organization, having for its chief object the relief of disabled and needy Confederate veterans. There are many sister organizations at the South and one in Chicago. The president of the latter is General John C. Underwood, who has erected in Chicago a handsome monument as a memorial to the prisoners-of-war who died there. The New-York association was organized as the Confederate Veteran Camp on April 11, 1890, and it now has a membership, including, "The Sons of Confederate Veterans," of about 200. The headquarters are at St. James Hotel, and the officers are: President, Dr. George T. Harrison; vice-president, Henry Harney; treasurer and secretary of the Executive Committee, Edward Owen; chaplain, the Rev. Dr. O. A. Glazebrook; medical director, Dr. J. H. Dew; secretary of the association, H. N. Ballington. Executive Committee—William S. Keiley, Edwin Selvage, J. H. Murray, J. L. De Treville and Dr. G. H. Winkler.

TAMMANY SOCIETY AND COLUMBIAN ORDER.

OFFICERS—Sachems, Hugh J. Grant, Richard Croker, John J. Gorman, Henry D. Purroy, John McQuade, Charles Welde, Bernard F. Martin, William H. Clark, W. Bourke Cockran, Charles E. Simmons, Thomas L. Feitner, J. Sergeant Cram, George B. McClellan; Secretary, John B. McGoldrick; treasurer, Peter F. Meyer; sagamore, William H. Dobbs; wiskinkie, Daniel M. Donegan.

Tammany was a Delaware chieftain who lived for over 100 years, and in Revolutionary days was popularly styled the patron saint of the Republic. His name was adopted by several secret charitable societies organized in different cities of the Union soon after the Revolution as an offset to the aristocratic Society of the Cincinnati. The New-York society was established on May 12, 1789, and incorporated in 1805, but soon became a political instrument in the hands of the Democratic managers. William Mooney, its principal founder, was the first Grand Sachem. Its date of meeting is the first Monday in each month, and its motto, "Freedom Our Rock."

NAVAL ORDER OF THE UNITED STATES.

The Naval Order of the United States was instituted July 4, 1891, at Boston, Mass., under the title of the "Naval Legion of the United States." On June 19, 1893, a convention of active and retired Naval officers was held at Boston, a new constitution was adopted, the name of the organization altered to the Naval Order of the United States, and a general commandery established, to which the State commanderies became subordinates.

Officers, to serve till the triennial congress, October 4, 1895, at Boston: General commander, Lieutenant John C. Soley, U. S. N.; Boston; vice-general commanders, Rear-Admirals John L. Worden and Francis A. Roe, and Commander Henry C. Taylor, U. S. N.; general recorder, Lieutenant-Commander, F. W. Nichols, U. S. N.; general treasurer, Dr. Thomas A. De Blois; general registrar, Charles C. Philbrook; general historian, Lieutenant-Commander T. B. M. Mason, U. S. N.; general chaplain, Rev. Minot J. Savage. There are at present five State commanderies, the oldest of which is the Massachusetts Commandery, which is the parent organization. The membership consists of two classes: 1. Officers, sailors, or marines in actual service in the United States Navy, Marine Corps, Revenue or Privateer services, during the wars, or in face of the enemy in any engagement in which the navy of the United States has participated, and who resigned or were discharged with honor, or who are still in the service. 2. Male lineal descendants of officers, sailors or marines in actual service in the Navy, Marine Corps, Revenue, or Privateer services under the authority of any of the thirteen original Colonies or States, or of the Continental Congress during the war of the Revolution, or of the United States during the war with France, the war with Tripoli, the War of 1812, the war with Mexico, the Civil War, or in face of the enemy in any engagement in which the navy of the U. S. has participated, and who resigned or were discharged with honor, or who are still in the service.

AMERICAN MEDICAL ASSOCIATION.

Officers—President, Donald Maclean, Detroit, Mich.; vice-presidents, Starling Loring, Columbus, Ohio; William Watson, Dubuque, Iowa; W. B. Rodgers, Memphis, Tenn.; F. S. Bascom, Salt Lake City; permanent secretary, Dr. William B. Atkinson, No. 1,400 Pine-st., Philadelphia, Penn.; assistant secretary, George H. Rohe, Catonsville, Md.; treasurer, Henry P. Newman, Chicago.

The objects of the society are the cultivation and advancement of medical knowledge; the elevation of the standard of medical education; the promotion of the usefulness, honor and interests of the medical profession; the enlightening and directing of public opinion in regard to the duties, responsibilities, and requirements of medical men; to encourage and emulate a concert of action among medical men, and to facilitate and foster a friendly intercourse between those who are engaged in it.

The estimated number of physicians of this school is 100,000; number of colleges, 100; professors and instructors, 1,800. The libraries of the schools equal 5,000 volumes. The buildings, lands and scientific apparatus are worth \$4,000,000. There are besides a number of special organizations, such as the American Academy of Medicine, composed only of medical graduates who have received a degree in

letters prior to graduation (membership about 600); American Association for the Study and Cure of Inebriates, American Climatological Association, American Gynaecological Association, American Public Health Association, etc.

Forty-three States have State medical societies, and about 800 local or district societies. The aggregate membership of these State and local medical societies is 40,000.

AMERICAN MEDICO-PSYCHOLOGICAL ASSOCIATION.

Officers—President, Dr. E. Cowles, Somerville, Mass.; vice-president, Dr. Richard Dewey, Chicago, Ill.; secretary and treasurer, Henry M. Hurd, Johns Hopkins University, Baltimore, Md.; auditor, Dr. A. R. Moulton, Pennsylvania Hospital for the Insane, Philadelphia, Penn.

AMERICAN GEOGRAPHICAL SOCIETY.

Headquarters, No. 11 West Twenty-ninth-st., New-York City; membership, about 1,500; organized, 1852; monthly meetings from November to May. Officers—President, Charles P. Daly, LL. D.; vice-presidents, Gen. Egbert L. Viele, W. H. H. Moore, Rev. C. C. Tiffany, D. D.; foreign corresponding secretary, Professor W. Libbey, jr., Princeton, N. Mills, Levi Holbrook, Morris K. Jesup, Gustav E. Kissel, Henry Parish, Chandler Robbins, William G. Hamilton, Henry Holt, Clarence King, William Remsen, Cyrus C. Adams, Austin G. Fox, Alexis A. Julien, Charles A. Peabody.

The objects of the society are to encourage geographical exploration and discovery; to investigate and disseminate new geographical information by discussion, lectures and publications; to establish in the chief maritime city of the country, for the benefit of commerce, navigation and the great industrial and material interests of the United States, a place where the means will be afforded for obtaining accurate information for public use of every part of the globe. The society has a geographical library of 25,000 volumes, and a large and very valuable collection of maps, charts and atlases relating to every part of the world. It publishes a bulletin and an annual journal, and co-operates and interchanges information with 200 domestic and foreign geographical and other scientific societies.

NATIONAL EDUCATIONAL ASSOCIATION.

Officers—President, Dr. Nicholas Murray Butler, Paterson, N. J.; secretary, Irwin Shepard, Winona, Minn.; treasurer, J. M. Greenwood, Kansas City, Mo.; vice-presidents, A. G. Lane, Chicago; G. M. Phillips, of Pennsylvania; L. E. Wolfe,

of Missouri; W. H. Bartholomew, of Kentucky; W. F. Slaton, of Georgia; D. B. Johnson, of South Carolina; H. A. Wise, of Maryland; W. E. Sheldon, of Massachusetts; S. S. Packard, of New-York; W. R. Malone, of Utah; D. L. Kiehle, of Minnesota; F. A. Fitzpatrick, of Nebraska. Board of Trustees—N. A. Calkins, of New-York; E. C. Hewitt, of Illinois; H. S. Tarbell, of Rhode Island, and Zalman Richards, Washington, D. C. Each State has also a director in the Association.

OBJECTS—To elevate the character and advance the interests of the profession of teaching, and to promote the cause of popular education in the United States.

It consists of ten departments, as follows: Superintendence of National schools, higher instruction, secondary education, industrial education, art education, music education, business education, elementary schools, kindergarten instruction and a National Council of Education. It has 200 life members, and its annual membership during the last eight years has averaged more than 4,000, that of 1894 being 5,500. The Association and its departments hold annual meetings in July. The Board of Trustees consists of five members, four of whom are chosen—one each year—for a term of four years. The president is an ex-officio member, and the board constitutes the executive financial council. The Association has a permanent fund of \$40,000.

AMERICAN LIBRARY ASSOCIATION.

Officers—President, H. M. Utley, Detroit, Mich.; vice-presidents, J. C. Dana, Denver Public Library, Col.; Mary S. Cutter, N. Y. State Library, Albany; Ellen M. Coe, Free Circulating Library, N. Y. City; secretary, Frank P. Hill, Newark, N. J.; recorder, Henry J. Carr, Scranton, Penn.; treasurer, George W. Cole, Jersey City. The A. L. A. was organized in 1876 and incorporated in 1879. Its present membership numbers some 600, comprising leading librarians and libraries of all parts of the United States, together with other persons interested in its work. The annual fee is \$2 for persons and \$5 for institutions. The association seeks in every practicable way to develop and strengthen the public library as an essential part of the American education system. It therefore strives by individual effort of members and where practicable by local organization to stimulate public interest in establishing or improving libraries and thus to bring the best reading within reach of all. The seventeenth general meeting of the A. L. A. is to be held at Denver, Col., in August, 1895.

LYCEUM LEAGUE OF AMERICA.

Officers—President, Theodore Roosevelt; secretary, Walter H. Church. Headquarters, Boston, Mass.

The Lyceum League was organized in 1891 by "The Youth's Companion" for the purpose of training young men in the duties of citizenship. The method chosen

was the debate; in a measure, a revival of the old lyceum. By means of debates on American topics of the day and political problems the young men are made familiar with current issues. They are led to interest themselves in practical politics, chiefly municipal affairs, working in any party, for partisanship is not recognized by the League. Much attention is given to the development of a patriotic spirit by means of the ritual and the general sentiment of the League, which now numbers about 13,000 members. On October 2, 1894, the League was transferred from "The Youth's Companion" to a National directorate. A monthly paper, "The New Century," is the organ of the League.

UNIVERSITY EXTENSION.

The University Extension movement was started in 1890, and is a system of instruction for adults embracing lecture courses, determined upon by each local organization, with classes, examinations and certificates. The "unit of instruction" is a course of six or twelve weekly or fortnightly lectures, followed by a special conference or class. The "unit of organization" is a committee of citizens or the directors of a literary or social club, willing to assume the local management of the course. Lecturers are secured through the central office, either from the faculty of a neighboring college or from the society's regular staff.

The department for New-York State is at Albany, with Melvil Dewey as director; Myrtila Avery, assistant director; J. Eugene Whitney, inspector for Western New-York, Rochester. The department gives needed advice and suggestions to centres organized or in process of organization, and saves unnecessary duplication of local expenses by effecting cooperation among centres in all parts of the State.

American Society—115 South 15th-st., Philadelphia. Dr. William Pepper, honorary president; Prof. E. J. James, president; Prof. E. T. Devine, secretary; F. B. Miles, treasurer.

SMITHSONIAN INSTITUTION.

President ex-officio, Grover Cleveland, President of the U. S.; chancellor, Melville W. Fuller, Chief Justice of the U. S.; secretary, S. P. Langley, LL. D.; assistant in charge of Office, William C. Winlock; regents—Melville W. Fuller, Adlai E. Stevenson, Senators J. S. Morrill, George Gray, S. M. Cullom, Representatives Robert R. Hitt, Joseph Wheeler and Henry Coppee, John B. Henderson, J. B. Angell, Andrew D. White, William Preston Johnston; executive committee—Henry Coppee and John B. Henderson.

An establishment "for the increase and diffusion of knowledge among men," founded in 1846, on the bequest of James Smithson, of England, and located at Washington, D. C., in the centre of one of the largest Government reservations. The total amount of the original bequest was \$541,379, which has been swelled by subsequent additions to about \$900,000. The President and Vice-President of the U. S., the Chief Justice, Secretary of State, Secretary of the Treasury, Secretary of War, Secretary of the Navy, Postmaster-General, Attorney-General, Commissioner of Patents, and such honorary members as they may elect form the "establishment." The building of the Institution is one of the most imposing in the U. S.

Under the charge of the Smithsonian Institution are the National Museum; keeper, S. P. Langley; assistant secretary in charge, G. Brown Goode; chief clerk, W. V. Cox. Bureau of Ethnology: Director, John W. Powell; chief clerk, Henry C. Rizer. The National Zoological Park: Superintendent, Frank Baker. Astrophysical Observatory: Senior assistant, R. C. Child.

OUR YOUNG PEOPLE'S CHRISTIAN UNION.

This is a society of the United Presbyterian Church of North America, organized on May 25, 1889, with headquarters at No. 1,336 Orthodox-st., Frankford, Philadelphia. It has a membership of 30,824, and the number of local societies is 710, the objects of the society being the training of young people for Christian work in the congregation, and the development of an earnest Christian life among its members. The principal officers are: Chairman of general committee, Rev. D. F. McGill, D. D., Allegheny, Penn.; general secretary, Rev. J. A. Duff, Englewood, Chicago.

ROMAN CATHOLIC SUMMER SCHOOL.

Organized in summer of 1892, at New-London, Conn. Objects are similar to those of the Chautauqua Society, with lecture courses, classes in literature, science and art, concerts and other forms of entertainment and recreation. Officers: President, Rev. Thomas J. Conaty, D. D., Worcester, Mass.; vice-presidents, Rev. P. A. Halpin, S. J., New-York City, and T. B. Fitzpatrick, Boston; treasurer, Rev.

M. M. Sheedy, Pittsburg, Penn.; secretary, Warren E. Mosher, A. M., Youngstown, Ohio. The next session will be in July and August, 1895, at the assembly grounds, Lake Champlain, near Plattsburg, N. Y.

CHAUTAQUA.

Headquarters, 87 West Genesee-st., Buffalo, N. Y.

Lewis Miller, President; W. A. Duncan, Secretary; E. A. Skinner, Treasurer; John H. Vincent, Chancellor; William R. Harper, Principal; George F. Vincent, Vice-Chancellor; Chief Officer of Instruction, Rev. Dr. John H. Vincent, Buffalo, N. Y.; Jesse L. Hurlbut, General Superintendent; Kate F. Kimball, Executive Secretary.

The Chautauqua plan of summer education was started in 1874. The institution was organized by Lewis Miller, of Akron, Ohio, and the Rev. Dr. John H. Vincent, now a Bishop of the Methodist Episcopal Church. In August, 1878, Mr. Miller and his associate selected a site for a summer Assembly at Fair Point, on the west side of Chautauqua Lake, in Chautauqua Co., N. Y., where the village of Chautauqua now stands. The first Assembly was called for the discussion of religious and secular topics and opened on the first Tuesday in August, 1874. It lasted three weeks. Since then an Assembly has been held regularly every year. That of 1894 opened on June 29 and closed on August 26. About 35,000 persons visited the Assembly between those dates.

Besides the platform lectures and entertainments, the Chautauqua managers employ several other methods for placing education within the reach of the people. These are described below in the order of their establishment:

Counsellors—Lyman Abbott, D. D.; J. M. Gibson, D. D.; Edward Everett Hale, D. D.; Bishop H. W. Warren, D. D.; W. C. Wilkinson, D. D.; James H. Carlisle, LL. D.

The C. L. S. C. comprises a system of home reading circles, the members of which pursue courses of reading laid out by the officers in books and magazine articles approved by the Board of Counsellors. Anybody can join it, and at any time, by sending his name to Miss K. F. Kimball, Buffalo, N. Y., with a 50-cent fee. In return he will receive a membership book, telling him what books to read and how to read them, and containing examination papers, by which, at stated periods, his proficiency may be ascertained. Two or more members form a local circle. The course covers four years, requiring an average of forty minutes' reading a day during ten months of each year. All the classes, though in different periods of their course, study the same subjects simultaneously. No reader is pledged to continue the work for the four years. Special courses are provided for graduates wishing to continue their readings. The Order of the White Seal, League of the Round Table and other associations are formed of those who have passed examinations in the special courses.

CHAUTAQUA ASSEMBLIES IN THE UNITED STATES.

THE EPWORTH LEAGUE.

An organization of young people of the Methodist Episcopal Church, formed in May, 1889, by the union of five general societies to train them in experimental religion, practical benevolence and church work, and to promote intelligent and vital piety in the young members and friends of the church, and formally recognized by the General Conference of 1892 as a department of the church. There are now 16,500 local chapters, and over 900,000 members. The subordinate bodies are the Junior League and Epworth Guards. President, Bishop James N. FitzGerald, New-Orleans. Vice-presidents, W. W. Cooper, St. Joseph, Mich.; Rev. W. I. Haven, 23 Marion-st., Brookline, Mass.; R. R. Doherty, 150 Fifth-

ave., New-York; Rev. H. C. Jennings, Marshall, Minn. Secretary, Rev. Edwin A. Schell, central office, 57 Washington-st., Chicago. Treasurer, Charles E. Piper, 108 La Salle-st., Chicago.

BROTHERHOOD OF ST. ANDREW.

An organization connected with the Protestant Episcopal Church. Its membership is limited to men only, and it is under the control of the bishops and clergy. It was organized as a parochial guild on November 30, 1883, and a general organization was effected October 23, 1886. There are local assemblies in the following cities and districts: Chicago, New-York, Cleveland, New-England, Philadelphia, St. Louis, Utica, Detroit, Cincinnati, Long Island, Nashville, District of Columbia, Central New-York, Louisville, Norfolk, Pittsburg, Newark, Richmond, Baltimore, Elizabeth, N. J.; Boston, Providence, Savannah, Indiana, Ohio. In addition to these there are separate Brotherhoods of St. Andrew connected with the Church of England in Canada, Church of England in Australia, and the Scotch Episcopal Church.

The objects of the society are the same as those of the Daughters of the King, and its headquarters is at No. 281 Fourth-ave., New-York City. Its officers are: James L. Houghteling, president, No. 59 Dearborn-st., Chicago; John P. Faure, treasurer, and John W. Wood, secretary, No. 281 Fourth-ave.

BROTHERHOOD OF ANDREW AND PHILIP.

President, Rev. Rufus W. Miller; general secretary and treasurer, T. A. Wonder, 1,423 Mosher-st., Baltimore, Md. The society was organized at Reading, Penn., on May 4, 1888.

The object of the organization is the spreading of Christ's kingdom among young men. Each member must pledge himself to pray daily for the success of his work among young men, and to bring at least one young man within the hearing of the Gospel each week. The governing body is a Federal Council composed of two members from each denomination embraced in the federation. These members are elected from the Executive Council of each denomination. There are at present only four denominations—the Reformed Church in the United States, and the Reformed Church of America, the Congregational Church, and the Presbyterian Church. The total membership is about 5,000, embracing 185 chapters, scattered throughout 23 States, the District of Columbia and Canada.

UNITED BRETHREN IN CHRIST.

Headquarters, Dayton, Ohio. The manager is the Rev. W. J. Shuey. Objects: Bible study, salvation of men and training for church work. The total membership at last report was 208,452; number of church buildings, 3,053, of the value of \$4,661,770.

THE SALVATION ARMY.

This is a body of men and women organized in the form of a military force, for the evangelization of the unchurched masses. It has its international headquarters at No. 101 Queen Victoria-st., London, E. C., England, and the headquarters for the United States at 111 Reade-st., New-York City. Its officers are: General, Chief-of-Staff, Commissioner, Colonel, Brigadier, Major, Staff-Captain, Adjutant, Ensign, Captain and Lieutenant. At the present time there are 11,036 officers, 4,253 corps, or societies, operating in forty countries and colonies, in thirty-four languages. The periodicals printed, or published, are 44, with a combined weekly circulation of over a million. The United States Division of the Salvation Army has to-day 2,000 officers, 602 corps, or societies, 16 slum posts, 5 rescue homes, 4 food and shelter depots. They publish the "War Cry," one edition in New-York City and another on the Pacific Coast, a Swedish and also German edition in New-York City, with a combined circulation of 86,000. The New-York City branch holds meetings every night during the week and all day Sunday in twelve different halls. The Society had its origin in 1865, when the Rev. William Booth resigned from the Methodist New Connection, and commenced mission work among the lowest classes in London. It was then known as the "Christian Mission," but in 1878 the name "Salvation Army" was adopted.

AMERICAN INSTITUTE OF CHRISTIAN PHILOSOPHY.

Organized in 1881, to cultivate the study of the relations between science and religion, but mainly to produce and circulate literature antagonizing agnosticism and materialism. President, Rev. A. H. Bradford, D. D., Montclair, N. J.; vice-president for New-York, Bishop H. C. Potter, New-York City, and Bishop John H. Vincent, Chautauqua; treasurer, William Harman Brown, 45 Exchange Place, New-York; secretary, Charles M. Davis, Bayonne, N. J.; corresponding secretary, Rev. John B. Devins, Hope Chapel, 339 East Fourth-st., New-York. Its vice-presidents represent fifty States and Territories and countries in which members live. The total membership is 573, and to promote its objects the Institute has meetings every month during the winter, and also summer schools at which lectures are given and papers read. The expenses are borne by an endowment fund and annual membership fees.

AMERICAN SOCIETY OF RELIGIOUS EDUCATION.

Organized 1888. Objects: To awaken increased interest in the subject of religious education; to engage scholars in the study of man's spiritual nature; to devise improved methods of Bible study and teaching for the home, the Sunday-school, the public school and the college; to collect and preserve at the national capital information of all systems of re-

ligious instruction. Governing Council: Presbyterian—Dr. John M. Coulter, Dr. E. M. Willits, General John Eaton, John Wanamaker. Baptist—Dr. F. B. Palmer, General T. J. Morgan, Dr. J. M. Gregory, Professor W. W. Grant. Methodist Episcopal—Dr. S. L. Beller, Dr. W. F. King, Dr. A. B. Duvall, Dr. J. E. Gilbert. Southern Baptist—J. Levering, Representative W. L. Wilson, Dr. J. A. THE KING'S DAUGHTERS.

Officers of the Central Council.—Office, 158 West Twenty-third-st., New-York; President, Mrs. Margaret Bottome; vice-president, Miss Kate Bond; general secretary, Mrs. M. L. Dickinson; treasurer, Miss M. P. Barker; corresponding secretary, Mrs. Isabella Charles Davis; recording secretary, Mrs. Robert Sturgis.

This order, founded in January, 1886, has about 300,000 members. Its object is to "develop spiritual life and stimulate Christian activity." Its members are bound to "serve the needy and the suffering, to consider the poor and be helpful in good work." The motto of the society is "In His Name." The badge is a small silver cross bearing the initials I. H. N. Any woman may form a branch by uniting other women with herself for joint effort in doing good. The yearly membership fee is 10 cents, payable to the treasurer.

The corporate title of the society is: "The International Order of the King's Daughters and Sons." There is no annual meeting of the whole society, but the annual business meeting is held by the Central Council (Executive Board) on the first Monday of May. Annual meetings of the State organizations are held at different times throughout the year.

DAUGHTERS OF THE KING.

Officers.—President, E. A. Bradley; vice-president, Mrs. E. J. Warner; treasurer, Mrs. J. H. Kahrs; secretary, Miss Elizabeth L. Ryerson, 520 East 87th-st., N. Y. City. Next annual meeting, November, 1895.

The Order of the Daughters of the King is often confounded with that of the Order of the King's Daughters, but the two are separate organizations, the former being an organization of the Protestant Episcopal Church, and the other being limited to no single Christian denomination. The Order of the Daughters of the King is a sister society to the Brotherhood of St. Andrew, with a central council, local assemblies and parochial chapters. The organization had its origin in the Church of the Holy

Sepulchre, New-York City, when one of the Bible classes, during Lent, 1885, formed Alpha Chapter. There are now upward of 300 chapters and about 10,000 members. The main object of the society is the extension of Christian work among young women, and the strengthening of parish life; each member pledging herself to observe the two rules of the order—namely, to pray daily for the growth of and blessing upon the work of the parish and all its members, and to make an earnest effort each week to bring at least one young woman into the Church, and to offer at all times such aid to the minister in charge of the parish as he may deem necessary for the furtherance of the work of Christ. The badge of the society is a Greek cross fleury of silver, with these words upon the horizontal arms: "Magnanimeter Crucem Sustine." At the base of the perpendicular are these letters: "I. H. S."—"For His Sake."

REFORMED CHURCH OF AMERICA.

Officers: President, Rev. E. R. Collier, D. D., Kinderhook, N. Y.; vice-president, Rev. Austin Scott, D. D., Rutgers College, New-Brunswick, N. J.; clerks, P. T. Phelps, J. Lamer.

LOYAL WOMEN OF AMERICAN LIBERTY.

The National Association of Loyal Women of American Liberty is an organization of Christian women having for their special work the exercise of their influence, by lectures and otherwise, as opportunity offers, toward urging legislation to a limitation of immigration, the absolute separation of Church and State in all matters pertaining to taxation and education, compulsory education, and retention of the Bible in public schools. The motto of the order is "For God and American Liberty." Any woman who will promise to work for the increase of God's Kingdom and for the furtherance of American liberties may become a member; and persons of either sex, eligible by the conditions noted above, may become honorary members. The National headquarters is 171 Tremont-st., Boston, and the officers are as follows: President, Mrs. I. C. Manchester, Providence, R. I.; vice-presidents, Mrs. General N. P. Banks, Waltham, Mass.; Mrs. Mary A. Livermore, Melrose, Mass.; Mrs. Sarah D. D. La Fetra, Washington, D. C., and Mrs. Mary D. Copeland, Boston; secretary, Mrs. Stella Archer, 171 Tremont-st., Boston; treasurer, Mrs. Mary S. Rogers, Boston. There is a membership of about 5,000.

THE NATIONAL WOMAN'S CHRISTIAN TEMPERANCE UNION.

General Officers.—President, Miss Frances E. Willard, Evanston, Ill.; private secretary, Miss Anna A. Gordon, Evanston, Ill.; corresponding secretary, Mrs. Katherine Stevenson, Chicago; recording

secretary, Mrs. Clara Hoffman; treasurer, Miss Helen M. Barker; vice-president-at-large, Mrs. Lillian N. M. Stevens, Portland, Me.

Pledge.—"I hereby solemnly promise, God helping me, to abstain from all distilled, fermented and malt liquors, including wine, beer and cider, and to employ all proper means to discourage the use of and traffic in the same."

Origin and Objects.—This society is the lineal descendant of the great temperance crusade of 1873-74, and is a union of Christian women for educating the young, forming a better public sentiment, reforming the drinking classes, transforming by the power of Divine Grace those enslaved by alcohol, and securing the entire abolition of the liquor traffic. With forty-eight auxiliary State and four Territorial unions, besides those of the District of Columbia and Alaska, it is the largest society ever composed exclusively of women and conducted entirely by them. It has been organized in every State and Territory of the Nation, Great Britain, Canada and Australia, Hawaiian Islands, New-Zealand, India and Japan. Madagascar and South Africa have also organized. The number of local unions in the United States is estimated at 7,000, including Young Women's Christian Temperance Unions, with 160,000 members, and a following of 400,000.

NON-PARTISAN W. C. T. U.

President, Mrs. C. Cornelia Alford, Barnardstown, Mass.; vice-president, Mrs. T. B. Walker, Minneapolis, Minn.; recording secretary, Mrs. Florence C. Porter, Caribou, Me.; treasurer, Mrs. Howard M.ingham, Cleveland, Ohio.

Organized at Cleveland in January, 1890, as a protest against the attitude of the W. C. T. U. toward political parties. An amendment to the constitution was adopted in November, 1891, providing that the right of individual members to take part in political and denominational work should not be abridged. The objects are the promotion of temperance through total abstinence; the instruction of the youth in scientific temperance and industrial training; also the rescuing of inebriates by way of a medical cure. The total membership is about 10,000, including the State organizations in Maine, Vermont, New-York, Ohio, Pennsylvania, Iowa, Illinois, Missouri and Minnesota. In addition to the general officers each State organization has its president, and each department has a secretary. The next National convention will be held in Kansas City, Mo., in November, 1895.

Members are entitled to send all applicants for labor to the office. A thorough system of investigation is employed. Correspondence relative to the general work of the society, etc., should be sent to the president, or the secretary. Checks should be drawn to the order of the treasurer.

Officers: President, Rev. John B. Devins, No. 330 East Fourth-st.; vice-president, W. D'H. Washington, No. 145 Broadway; secretary, John Seely Ward, jr., No. 1 Broadway; treasurer, John P. Townsend, president Bowery Savings Bank, No. 130 Bowery.

TAXATION ON SHIPPING.

The following memorandum, prepared by the United States Commissioner of Navigation, relates to taxation of vessels:

"Vessels are not subject to Federal taxation in the United States except in the form of a few small fees on entry and clearance, for specific services and tonnage tax. As imposed under the act of June 19, 1886, these taxes do not put vessels of the United States at a disadvantage compared with the vessels of other nations; indeed, for the fiscal year 1893 American vessels paid \$70,019 tonnage taxes; foreign vessels, \$464,920, of which British vessels alone paid \$338,674. For purposes of comparison it may be noted that the total British subvention to steamships enrolled as cruisers by the Admiralty in this year's naval estimates is \$106,839, and that the British postoffice estimates for this year allow a loss of \$302,934 on the cost of mail transportation to the United States over receipts from such postage, which may be taken as a rough measure of subsidy under the form of mail contract.

"The only taxes, therefore, on vessel property which may be deemed to place vessels owned in the United States at a disadvantage, compared with vessels owned in other countries, are imposed by State Tax laws. These have been modified by decisions of the Supreme Court of the United States, particularly in the case of the Philadelphia Steamship Company against Pennsylvania, 122 United States reports, 326, in which it is held:

"The corporate franchises, the property, the business, the incomes of corporations created by a State may undoubtedly be taxed by the State; but in imposing such taxes care should be taken not to interfere with or hamper, directly or by indirection, interstate or foreign

commerce, or any other matter exclusively within the jurisdiction of the Federal Government."

"Since 1881 New-York State has exempted 'from all taxation for State and local purposes' all vessels registered in the State engaged in foreign commerce; and this exemption, drawn in the broadest terms, is to continue to the year 1922. Under the decision of the Supreme Court of the United States noted above, Pennsylvania levies no taxes on vessels in foreign commerce. Delaware imposes no taxes on vessels. Alabama exempts from tax vessels engaged in foreign trade. In the four States named vessels registered for foreign trade, in so far as taxation is concerned, are more advantageously placed than those subject to income tax in Great Britain, Germany and France.

"Massachusetts and Connecticut tax vessels in the foreign trade on the valuation of net earnings, not deducting insurance, for the preceding year, thus placing them substantially on an equality with vessels owned in Great Britain, France and Germany. New-Hampshire taxes vessels as 'stock in trade.' In the remaining twenty-one seaboard and lake States, all vessels are taxed as personal property.

"While nominally assessments are at the full valuation, the valuation varies not only in one State, as compared with other States, but also at different ports in the same State. The twenty-one States where this system obtains, are Maine, Rhode Island, New-Jersey, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Mississippi, Louisiana, Texas, California, Oregon, Washington, Ohio, Indiana, Illinois, Wisconsin, Michigan and Minnesota. In North Carolina, South Carolina and Georgia more or less elaborate systems of license charges and occupation taxes impose further burdens on shipping."

YACHTING.

The yachting season of 1894 was not especially lively on this side of the Atlantic. The new racing class of the season was the 21-footers. The contests in this class did not attract such universal attention as had been hoped. Most of the interest of the general public in yachting affairs was centred in the races of the Vigilant abroad. The principal regattas and races in American waters by the several yacht clubs were as follows:

May 30—Harlem. Annual regatta; winners: Mary B., Peerless, Iola, Yantic, Cygnus, Florence K. Norman, Regina, Bertha, Emily, Lottie K., Wasp, Annie T., Alice, Mary B., Brooklyn. Annual regatta; winners: Edda, Win or Loose, Ex-lie, Golden Hope, Forsythe, Tigress, Siesta.

June 7—New-York. Annual regatta; Winners: Ariel, Viator, Wasp, Queen Mab.
 June 9—Larchmont. Spring regatta;

winners: Ariel, Loyal, Gossoon, Drusilla, Audax, Pyxie, Mary, Kittie, Violet, Queen Mab.

June 26 to 30—Seawanhaka. Annual racing cruise; winners: Ariel, Gloriana, Navahoe.

July 4—Larchmont. Annual regatta; winners: Emerald, Sachem, Elsemarie, Viator, Queen Mab, Wasp, Nymph, Tigress, Memory, Audax, Christine, Onaway, Kittie, Pauline B., Edna, Ione, Vaquero. Corinthian Y. C. of Marblehead regatta; winners: Reaper, Edith, Nancy, Snipe.

July 7—Riverside. Annual regatta; winners: Viator, Minerva, Eidolon, Vorant, Pyxie, Santa, Aimir, Kitty, Sirene, Chip-pie. Eastern. Annual regatta; winners: Barbara, Mayflower, Carmita, Hawk.

July 14 to 21—Larchmont. Annual cruise.

July 28—Indian Harbor. Annual cruise.

August 6—New-York. Rendezvous for annual cruise at Glen Cove, and races for Semi-Centennial cups; winners: Emerald, Ariel, Elsemarie, Wasp, Queen Mab, Gossoon. August 7—Squadron run to Morris Cove; winners: Merlin, Ariel, Elsemarie, Queen Mab, Eclipse, Wasp, Gossoon, Navahoe. August 8—Morris Cove to New-London; winners: Emerald, Ariel, Elsemarie, Queen Mab, Eclipse, Wasp, Minerva, Navahoe. August 9—New-London to Newport; winners: Constellation, Mayflower, Elsemarie, Navahoe, Eclipse, Wasp, Gossoon. August 10—Goelet cup races; winners: Emerald and Navahoe. August 11—Newport to Vineyard Haven; winners: Emerald, Ariel, Elsemarie, Navahoe, Wasp, Minerva, Katrina. August 13—Vineyard Haven to New-Bedford; winners: Emerald, Ariel, Neaera, Wasp, Minerva, Constellation. August 14—New-Bedford to Newport; winners: Emerald, Marguerite, Neaera, Gloriana, Gossoon, Queen Mab.

September 1—Larchmont. Fall regatta; winners: Shamrock, Wasp, Minerva, Kathleen, Marjorie, Pyxie, Wave, Punch, Almir, Terrapin, Vaquero.

September 3—N. Y. Yacht Racing Association. Annual regatta; winners: Aeolus,

Lottie, Exile, Bessie, Polly, Clara S, Zetus, May, Win or Loose, Own, Henry Dauer, U and I, Emma K, Cinch and Chippie.

September 8—Larchmont. Race for 21-footers; winner: Dorothy.

September 15—Larchmont. Races for schooners and 21-footers; winners: Schooner Emerald, 21-footer Dorothy.

The Vigilant, from July 5 to September 1, inclusive, sailed in nineteen races in European waters. In seventeen of these her chief competitor was the Britannia, and in the other two the Satanita. The Vigilant won only six of these races, and she really won the first race at Ryde, as she was far ahead when the committee decided to call the race off. The Vigilant sailed in regattas of the Mudhook, Royal Clyde, Clyde Corinthian, Royal Northern, Royal Ulster, Royal St. George, Royal Munster, Royal Cork, Mount's Bay, Royal London and Royal Dart Yacht Clubs; a private match on the Solent, and for the Cowes Town Cup and the Wolverton Cup. In the latter part of her racing career the Vigilant met with two accidents to her centreboard, the latter of which prevented her from sailing other matches which had been arranged.

Some pretty fast fielding was done in 1894. For the catchers, Zimmer, of Cleveland, led with a percentage of .931. Clements, who stood third the year before, was second with .924, and Kittridge third. Farrell led for New-York, and "Con" Dailey for Brooklyn. Motz, Cincinnati, led the first basemen with an average of .995, but as he only played in eighteen games, the palm really belongs to Anson, who played in 83 games, and had an average of .988. Doyle was 17. Reitz, Baltimore, headed the second basemen with an average of 966; Quinn was second, and McPhee third. Ward was 10. Nash, Boston, led the third basemen with .932; McGarr was second, Cross third and Davis fourth. Glasscock, Pittsburg, led the short stops with .934; Jennings was second, and Richardson third. Fuller was 16. Griffin, Brooklyn, led the outfielders with .963; Hamilton was second and Thompson third.

Baltimore and New-York played for the Temple Cup after the regular championship season ended, and New-York defeated the champions in four straight games.

This was the first time the Temple Cup was played for, it having been presented in the spring to the League by W. C. Temple, ex-president of Pittsburg club.

FOOTBALL.

There was no Intercollegiate Football Association in 1894, hence the college championship remained in doubt. The season was remarkable for the splendid showing of Pennsylvania University and the coming to the front of Cornell. Yale and Pennsylvania proved the most formidable. Yale defeated Harvard and Princeton, which feat was duplicated by Pennsylvania; but, as the two winners did not meet, on account of Yale's hard feeling toward Pennsylvania, it was not demonstrated which had the superior team. The new rules failed to stop slugging, and there was as much, if not more, than in any previous season. There were fatalities all over the country, and several players were killed. The roughest game between any of the big colleges was between Yale and Harvard, in which several contestants were badly injured. The season was the most successful financially ever held. As soon as the teams broke training there came from all parts of the country protests against the rules governing the game, which, instead of having become more scientific through open playing, had become more brutal. It was seen that to retain its popularity and make it safer for life and limbs the rules would have to be further modified. The annual game between the cadets of West Point and Annapolis was stopped by a joint order of the War and Navy departments. The scores of the principal games of the colleges are as follows:

BILLARDS.

The billiard interests of the year of 1894 were centred in the two matches, of six nights each, played between "Jake" Schaefer and Frank Ives. The first match was played in New-York, 600 points each night; Ives won with 3,600 to

3,074 for Schaefer. The games were at balk line. In the Chicago tournament Ives won by 3,600 to 2,831. On the fourth day at Chicago Ives broke all records with a run of 359. The following is the record of the matches:

GOLF.

Golf took a sudden and violent hold on the American people last spring. The game was first introduced in this country by the St. Andrew's Golf Club, of Yonkers, N. Y., several years ago, but did not take the public fancy then. Last season, however, it sprang into such extreme popularity that links were laid out on the grounds of nearly all the country clubs in the East, and dozens of clubs devoted exclusively to the sport sprang up in every locality. Among the most important which came into prominence last summer by holding large tournaments are those at Yonkers, N. Y.; Southampton, L. I.; Newport, R. I.; Tuxedo Park, N. Y.; Bar Harbor, Me.; Manchester-by-the-Sea, Mass.; Staten Island, N. Y.; Washington, D. C.; Meadow Brook, L. I.; Morristown, N. J.; Lenox, Mass.; Chicago, Ill.; Boston, Mass.; Brookline, Mass., and Morris Park, N. Y.

Throughout the season tournaments, both open to all comers, and to club members only, handicap and scratch, were held at the many new clubs which had been formed. There was no general organization and no rules to govern the play, so those used in England were adopted by nearly all. The lack of any association to govern the sport in America led to a curious state of affairs. Two different clubs held tournaments for the amateur championship of the country, and each proclaimed its winner to be the holder of that title. William G. Lawrence won that held at Newport, R. I., in September, while the championship event given under the auspices of the St. Andrew's Golf Club, at Yonkers, N. Y., in October, was won by L. B. Stoddart, of the home club. Both now claim the amateur championship of the country, although Stoddart is more generally recognized.

The scores in the Newport tournament were as follows: W. G. Lawrence, Newport, R. I., 47, 49, 46, 46—188; Charles B. MacDonald, Chicago, Ill. (second), 46, 50, 43, 50—189; G. McClure Sargent, Es-

sex Country Club (third), 52, 51, 49, 49—201. The play was twice over the course of 18 holes each day for two days. The figures given show the number of strokes required for each time over the course and the total upon which the prizes were awarded. Stoddart played in this tournament, but dropped out after the first day's play, in which he took 102 strokes to cover the course twice.

The St. Andrew's Golf Club's tournament was played on a different system, the contestants being drawn against each other, and the losers in such round dropping out of the tournament. The winners were again drawn, and the operation repeated until only one player was left, and he was proclaimed the champion. In the semi-final round Stoddart beat Lawrence and MacDonald beat Rogers. In the finals Stoddart defeated MacDonald and won the championship medal. C. B. MacDonald, of Chicago, received second prize, and Archibald Rogers, of New-York, third.

The championship at "foursomes" was won in this tournament by L. B. Stoddart and J. B. Upham, of St. Andrew's Golf Club. The Tuxedo Club, of Tuxedo Park, N. Y., held a team contest late in September, when that of the Massachusetts Country Club, of Brookline, Mass. (composed of H. C. Leeds, L. Curtis, R. Bachon and W. B. Thomas), won first prizes and the championship. In the final match they defeated the St. Andrew's Golf Club's team.

The Morris County Club, of Morristown, N. J., is probably the largest organization devoted to golf in the country, and numbers among its members about 200 women and as many more men. A championship tournament for women was held there in October for a cup given by Mrs. Nina Howland, the club's president. The trophy and championship were won after two days' play by Miss A. Howland Ford, with a score of 94. Mrs. H. P. Phipps was second with 108, and Miss Lois Raymond third with 117.

LAWN TENNIS.

(For records of previous years, see Almanac for 1894.)

The lawn tennis season of 1894 was made memorable by a visit from M. F. Goodbody, one of the most famous of the English amateur experts, to American courts, who took part in all of the most important tournaments, and returned home with many American victories to his credit. He was beaten by Wrenn twice, by Larned twice and by Chace and Howland. He defeated Larned twice, Hovey, Hobart, Stevens, Parker and Howland. In the championship tournament at Newport he carried off first prize and won the right to challenge Wrenn, the previous holder of the championship trophy. The American champion, however, proved too strong for the Englishman, and won by three sets to one. Score: 6-8, 6-1, 6-4, 6-4.

The National championship at doubles was again won at Newport by Clarence Hobart, of New-York, and Frederick H. Hovey, of Boston. C. B. and S. R. Neel, of Chicago, who challenged for the championship, were beaten in three straight sets (score 3-3, 8-6, 6-1). The women's championship tournament at Philadelphia in June resulted in the downfall of the previous holder of the title, Miss Aline M. Terry, of Princeton, N. J., who was defeated by the challenger, Miss Helen R. Hellwig, of Brooklyn, N. Y., after a hard five-set match (score, 7-5, 3-6, 6-0, 3-6, 6-3). With Miss Juliette P. Atkinson, also of Brooklyn, N. Y., Miss Hellwig won the championship at women's doubles; while in mixed doubles, Miss Atkinson and Edwin P. Fischer, of New-York, won the championship. At the end of the season, the best players of the year were ranked as follows: 1, R. D. Wrenn, of Chicago, Ill.; 2, M. F. Goodbody, of England; 3, W. A. Larned, of Summit, N. J.; 4, Frederick H. Hovey, of Boston, Mass.; 5, M. G. Chace, of Providence, R. I.; 6, Clarence Hobart, of New-York; 7, C. B. Neel, of Chicago, Ill.; 8, W. G. Parker, of New-York; 9, J. Howland, of New-York; 10, C. R. Budlong, of Providence, R. I.

The English championship tournament at Wimbledon, Eng., in July, was contested for almost entirely by the same men as last year. J. Pim successfully defended his title as champion of "All-Eng-

land" by beating the challenger, ex-champion W. Baddeley, by three sets to one. Score: 10-8, 6-2, 8-6. Mrs. G. W. Hillyard won the championship at women's singles, Miss L. Dod, the previous holder, defaulting to her. Ex-Champions W. and H. Baddeley regained the championship in men's doubles, Pim and Stoker, the holders, defaulting to them.

OCEAN RECORDS.

In the last fifty years the time of a transatlantic steam voyage has been cut down more than half, the size of the ships has been multiplied by 12, and the carrying capacity by more than 50. In 1840 the Acadia was a crack ocean liner. Her tonnage was 1,150, and her horse-power 425. The tonnage of the Campania is 13,000, and her horse-power 25,000. The Great Eastern, which was built in 1858, was 680 feet long and 83 feet breadth of beam; but her horse-power was only 7,650. The record of a transatlantic voyage from Queenstown to New-York has, since 1866, when the Scotia made the then remarkable time of 8 days, 2 hours, 48 minutes, been brought down to the Lucania's present record, 5 days, 7 hours, 23 minutes. The Baltic was the first to reduce the time of passage below 8 days, making the trip in 7 days, 20 hours, 9 minutes in 1873. Not until 1882 was the record reduced to less than 7 days, when the Alaska astonished the world by coming across in 6 days, 18 hours, 37 minutes. The following table shows the record-holders for the past 10 years and their fastest trips. These are western records.

The eastward record between this port and Queenstown is held by the Lucania, which, in September, 1894, made the trip in 5 days, 8 hours, 38 minutes. The biggest day's run ever made was made by the Lucania, which, from noon October 5, to noon

October 6, 1893, made 560 knots, or 645½ miles. The record for the greatest average speed from port to port is held by the *Campania*, making the average of 22.78 knots per hour from Queenstown to New-York. The record for a westward trip between Southampton and New-York is held by the *New-York*, of the American Line, which made the voyage in September, 1894, in 6 days, 7 hours, 14 minutes. The record between Havre and New-York is held by the French line steamer *La Touraine* which, in July, 1893, crossed the ocean in 6 days, 17 hours, 30 minutes.

The largest amount of gold, gross, ever held in the Treasury was in September, 1888, when the total was \$332,551,305; at that time, however, there were \$134,838,-

190 gold certificates in circulation, making the net gold owned by the Government \$197,713,115. The largest amount of net gold in the Treasury at any time

was \$218,818,253, in March, 1888. Then the Government had \$310,772,202 gold in the Treasury, but had issued against it \$91,953,949 certificates. The largest amount of gold certificates in circulation at any time was \$163,178,959, in January, 1892, which left the Government owner of only \$119,574,904 gold, although having in its Treasury \$282,753,863 gold gross. Between August, 1891, and January, 1892, in spite of the fact that there was an increase of nearly \$42,000,000 in the gross amount of gold in the Treasury,

there was a decrease of nearly \$13,000,000 in the net gold, because there were \$55,000,000 of gold certificates issued. In the last few months the Government has succeeded in keeping most of its gold, by refusing to issue gold certificates. There are now \$70,000,000 less certificates outstanding than in January, 1892, and \$24,000,000 less than at the beginning of the current year. It will not be surprising if Congress takes some step to prevent the draining of gold from the Treasury by the employment of gold certificates.

INTEROCEANIC CANALS.

NICARAGUA.—The Maritime Canal Company of Nicaragua, capital \$100,000,000 (which may be doubled), was incorporated under a charter granted by Congress in 1889. It had previously secured from the Nicaragua Government the exclusive right to construct and operate an interoceanic ship canal. On October 8, 1889, excavation was begun at San Juan del Norte, or Greytown. The total length of the proposed waterway is 169 2-3 miles, of which 26.75 miles represent canal in excavation. The minimum depth is 30 feet. From Greytown to Ochoa there will be 15.25 miles of excavated canal and 16.15 miles of free navigation in natural basins, with three locks; from Ochoa, 121.10 miles of free navigation in the San Juan River and Lake Nicaragua; from the lake to Brito, on the Pacific Coast, 5.50 miles of free navigation in a natural basin and 11.50 miles of excavated canal, with three locks. The great reservoir of Lake Nicaragua furnishes an adequate high-level water supply.

The Nicaragua Canal Construction Company, which had a contract with the Maritime Canal Company for construction of the canal and had done considerable work thereunder, suffered under the general depressed monetary conditions of 1892-3, and was obliged first to limit its expenditures, and finally to suspend all payments. This resulted in the appointment of a receiver, when measures were at once taken to reorganize the company upon a strong financial basis, providing for the liquidation of its debts and the active prosecution of work, under its contract, in the immediate future. These measures are now well under way, with every assurance of a successful issue. A charter for a company with a capital of \$12,000,000 has been granted for the purpose by the State of Vermont.

The officers of the Maritime Canal Company are: Hiram Hitchcock, president; Charles P. Daly, vice-president; Thomas B. Atkins, secretary and treasurer.

THE NATIONAL ENSIGN.

On November 13, 1890, Secretary Tracy issued an order that until July 4, 1891, the union of the National ensign and the union jack used in the naval service should be composed of five rows of seven stars and one row of eight stars, to provide for the addition of the five new States of North and South Dakota, Montana, Washington and Idaho. In the arrangement space was left for the addition of another star to represent Wyoming, which was added on July 4, 1891. June 14, the anniversary of the adoption of the stars and stripes as the National flag, is now celebrated by the Sons of the American Revolution as Flag Day, by a display of the flag, and the society invites the people of the whole country to follow its example. The official National ensigns of 10-day are of five sizes, the following being the dimensions: 36 feet long, 19 feet wide; 27.2 feet long, 14 1-3 feet wide; 23.1 feet long, 12 1-5 feet wide; 16.9 feet long, 8.9 feet wide; 9 3-4 feet wide; 5 1-7 feet wide.

SILVER CERTIFICATES.

Attorney-General Olney on February 20, 1894, rendered the following opinion in regard to the legal status of silver certificates: "Silver certificates are just what they purport to be on their face and by their terms—that is, they attest the fact that the United States has on deposit so many silver dollars which will be paid to the holder upon the presentation and

surrender of such certificates. If they can be regarded as money at all, it is only because the United States agrees to receive them 'for customs, taxes and all public dues,' and only to that extent and for those specific purposes. In my opinion, they are not 'lawful money' within the meaning of Section 4, of the Act of June 20, 1874, and Section 9, of the Act of July 12, 1882."

CHINESE TREATY OF 1894.

The new Emigration Convention between the United States and China was signed by Yang Yu, the Chinese Minister to the United States, and W. Q. Gresham, Secretary of State, on March 17, 1894. It was ratified by the Senate on August 13, 1894, the vote standing 47 to 20 in favor of ratification. Almost all of the Northwestern Senators opposed it, but the Eastern Senators (with the exception of Messrs. Lodge and Hoar, of Massachusetts) voted for it. It was provided that the treaty should remain in force ten years after ratifications should be exchanged, with the privilege of renewal for another ten years. The Chinese Government delayed approval until November, and the final action of the United States took place on December 6, so that the time of its going into effect did not begin until that date.

Article I stipulates that except under conditions subsequently specified the entrance of Chinese laborers into the United States shall be absolutely prohibited.

Article II excepts from the provisions of the preceding article the return to the

United States of every registered Chinese laborer who has a lawful wife, child or parent in the United States, or property to the value of \$1,000, or debts of like amount pending settlement.

Article III excepts the right at present enjoyed of Chinese subjects being officials, teachers, students, merchants or travellers for curiosity or pleasure, but not laborers, of coming to or residing in the United States. The privilege of transit of Chinese laborers across the United States in journeying to or from other countries is continued.

By Article IV it is agreed that Chinese of the laboring or any other class, either permanently or temporarily in the United States, shall have all the protection to their persons and property that is given to citizens of most favored nations, except the right to become naturalized citizens.

Article V recognizes the right of China to enact and enforce similar laws and regulations, providing for the registration of all American skilled and unskilled laborers residing in China, and binds this

Government to report to the Government of China the full name, age, occupation and place of residence of all citizens of the United States, including missionaries, within and without the treaty ports of China.

BALLOT REFORM.

The following States and Territories have adopted new ballot laws, based more or less on the Australian system: Alabama, Arkansas, California, Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New-Hampshire, New-Jersey, New-Mexico, New-York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Dakota, Tennessee, Texas, Vermont, Washington, West Virginia, Wisconsin, Wyoming.

The Australian plan (titles of offices arranged alphabetically) is followed in California, Idaho, Kentucky (Louisville only), Massachusetts, Minnesota, Montana, Nebraska, New-Hampshire, Oregon, Rhode Island, Tennessee, Vermont, Washington and Wyoming.

Under the New-York and New-Jersey laws each party ticket is printed on a separate ballot. In all the other States having the ballot-reform laws the single or "blanket" ballot is used; that is, all the names in nomination are printed on one sheet, the voter's choice to be indicated by marking.

The only States in which ballot-reform does not yet exist are: Georgia, Louisiana, N. Carolina, S. Carolina and Virginia.

The Alabama Legislature, immediately after the conclusion of the campaign of 1892, enacted what is known as the Sayre Election Law. This law in its general effect is a modification of the Australian ballot. But the Sayre Law contains one provision which requires that election returns from no county shall record a number of votes greater than the registration list of that county warrants, and then it goes on with almost preternatural ingenuity to guard against fraudulent registration lists. As soon as the registration is completed the lists are required to be displayed in the courthouse, where, during June and July, they are subject to inspection and to whatever investigation interested parties may see fit to prosecute. A false registration makes the offenders subject to prosecution for perjury and forgery, and the mere presence on the list of the name of a voter who did not actually register is held to be prima-facie evidence of guilt.

Everybody has heard of the "eight boxes" used in South Carolina. The law says:

"At each precinct a space or inclosure, such as the managers of election shall deem fit and sufficient, shall be railed off or otherwise provided with an opening at one end or side for the entrance of the voter, and an opening at the other for his exit, as a polling-place in which to hold the election for the State, circuit and county offices." The statute then declares that "but one voter shall be allowed to enter any polling-place at a time, and no one except the managers shall be

allowed to speak to the voter while in the polling-place casting his vote."

NOTE.—See "Tribune Almanac," 1893, for dates when ballot-reform laws passed.

WOMAN SUFFRAGE.

Women have equal suffrage with men at elections in Colorado and Wyoming.

In Montana women who are taxpayers have the same voting privilege as men at elections.

Judge Dixon, of the Supreme Court of New Jersey, on Nov. 8, 1894, handed down a decision in the Vineland School case, which involved the right of women to vote at school elections. The decision, in brief, was that "school trustees are officers within Article II, Paragraph 1, of the Constitution, so that if they are made elective by the people only males can vote for them." Justices Abbett and Reed concurred in the opinion.

At the last election the proposition to give women equal suffrage with men at elections was rejected by a vote of 130,129 against to 95,302 in favor.

The act of the Michigan Legislature of 1893 giving women the right to vote at municipal elections was declared unconstitutional by the Supreme Court of that State in October, 1893.

Women formerly voted in Washington, but the Territorial Supreme Court subsequently decided against the right being given to them. When the State Constitution was adopted a clause allowing women to vote was defeated.

In some form, mainly as to taxation and school matters, women may vote in the following States and Territories: Arizona, Colorado, Connecticut, Delaware, Idaho, Illinois, Kansas, Massachusetts, Minnesota, Montana, Nebraska, New-Hampshire, New-York, North Dakota, Oklahoma, South Dakota, Vermont, Washington, Wisconsin and Wyoming.

The Cape Colony, the Russian colonies in Siberia, Australia, New-Zealand and Tasmania have municipal woman suffrage. Iceland, the Isle of Man and Pitcairn Island have full woman suffrage.

EUROPE—In England, Scotland and Wales women vote for all elective officers but members of Parliament. In France the women teachers elect women members of all boards of education. In Sweden women vote for all elective officers but Representatives; also, indirectly, for members of the House of Lords. In Norway they have school suffrage. In Ireland they vote for harbor boards, poor-law guardians, and in Belfast for municipal officers. In Russia women householders vote for all elective officers and on all local matters. In Finland for all elective officers. In Austria-Hungary they vote, by proxy, for all elective officers. In Croatia and Damatia they do so at local elections in person. In Italy widows vote for members of Parliament. In Prussia women vote, mainly by proxy, at local elections and for members of provincial Diets. In Belgium women taxpayers have municipal suffrage by proxy, and in Luxemburg for members of the Legislature also. In Switzerland women real estate owners have local suffrage in the canton of Berne. In Rumania women taxpayers have municipal suffrage by proxy.

NATIONAL REPUBLICAN LEAGUE OF THE UNITED STATES.

Organized, Chickering Hall, New-York City, December 17, 1887. Headquarters 140 Dearborn-st., Chicago. Chairman, William W. Tracy, Chicago; treasurer, Edward B. *Scattering, 646. a Augur (Pro.), 3,926.

*The returns of the election of 1894 had been canvassed only in part, officially, up to January 1. The official count for Governor, etc., is made by the Legislature, which meets on January 2. The vote for John Campbell, Republican candidate for Supreme Judge, is practically the same as that for Albert W. McIntire, Republican candidate for Governor. The vote for J. Warner Mills, the Populist candidate for Judge of Supreme Court, would be the same as that for Davis H. Waite, the Populist candidate for Governor, but for the fact that Mills was on the Prohibition ticket also. The Prohibition vote of the two Congress districts was 4,497, and subtracting this from the total received by Mills makes the total Populist vote 71,990, the total Populist and Democratic vote being 83,773, or 6,306 less than the Republican vote.

* Reapportionment of 1892 divided the county into 30, instead of 24 districts, hence the comparison with vote for Governor in 1891 would be of no value. The vote of the county for Governor in 1891 was: Fassett (Rep.), 86,565; Flower (Dem.), 146,067; Bruce (Pro.), 1,286; De Leon (Lab.), 5,190.
 † Weaver (Pop.), 2,439; Wing (Lab.), 5,945.

POLITICAL MISCELLANY.

ALABAMA—November 27, 1894, Hon. John T. Morgan (Dem.) was reelected United States Senator for six years from March 3, 1895. The vote was: Senate—Morgan, 23; Warren Reese (Pop.), 9. House—Morgan, 61; Reese, 24.

ARKANSAS—The following amendments to the Constitution were adopted at the election on September 3:

To empower quorum courts to levy a special tax, not exceeding three mills, for the purpose of building and repairing public roads, building courthouses, jails, bridges and other internal improvements, and for no other purpose.

To abolish special elections and to authorize the Governor to fill vacancies in any State, district, county or township office.

The returns on the liquor license question at the election in 1894 gave the vote as follows: For, 47,662; against, 49,595; a majority against the continuation of the liquor traffic of 1,933.

CALIFORNIA—The Supreme Court decided that in order to allow a candidate's name to appear on the official ballots the original petition of the voters must contain the signatures. In other words if several petitions are circulated and the headings and signatures are all fastened together, they may be counted as one petition, and the names may be received as signed to a single petition; but if the

names are cut off from other petitions exactly similar, and pasted on the first sheet, they will not be considered as signed.

GEORGIA—Three constitutional amendments were submitted to popular vote at the October election. One authorizing the Legislature to pension those Confederate soldiers who, by reason of age and poverty, or infirmity, are unable to provide a living for themselves, had 17,360 majority. Another, to increase the number of Supreme Court judges to five, was rejected by a majority of about 1,500. Another, to permit a summer session of the Legislature, was rejected by 33,798 majority.

INDIANA—On April 23, 1894, the Marion Circuit Court declared the Apportionment act of 1893 constitutional. The action to test the validity of the act was brought at the instigation of the State Republican Committee, which took the ground that the Democratic Legislature of 1893 had foisted an illegal gerrymander upon the people. The Supreme Court later rendered this decision: "It is unnecessary for us to express any opinion upon any other question raised by counsel in their argument, but upon the sole ground that the cases as made by the bill are not within the jurisdiction of a court of equity, the decrees of the

courts below dismissing the bills for want of equity will be affirmed."

INDIAN TERRITORY—Governor Wolfe, in his message dated January 27, referring to Statehood, said: "There is a great question being agitated throughout the United States, upon which depends the very existence of the five civilized tribes. The policy advocated almost universally by the press in the Territory as well as abroad is detrimental to our existence and calculated to do our nation grievous harm. This question is allotment and Statehood, and it should be strenuously opposed by each of the five tribes to the end that we may retain our tribal forms of government and the holding of our lands in common, as it is to-day.

ILLINOIS—Judge Bookwalter, on May 19, 1894, declined to grant an injunction in the gerrymander case. He sustained the apportionment and said that the Supreme Court alone should determine on the question at issue. On June 15 the Supreme Court decided against the petitioners and affirmed the decrees of the courts below dismissing the bills for want of equity.

IOWA—The Jamison joint resolution proposing a constitutional amendment granting woman suffrage and the right to hold any office was defeated in the Senate—20 to 26. In the House, a bill granting municipal suffrage to women was passed—yeas 51, nays 44. A mulct Tax bill became law, which, in effect, provides a restricted local option for cities and towns of the State. It allows the assessment of a tax of \$600 against any real estate upon which liquor is sold. Upon the filing of a petition bearing the signatures of a majority of the voters in cities of 5,000 and upward, and of 65 per cent of the voters in cities and towns of less size, the payment of this annual tax shall be a bar to prosecutions under the prohibitory law. The votes in favor of the bill were all cast by Republicans. The bill was passed as a compromise in response to an almost universal demand from the cities for relief from the Prohibitory law. The vote in the House was 53 to 45. The law does not permit the manufacture of liquor.

KANSAS—Mrs. Anna Austin was elected Mayor of Pleasanton on January 16 by a majority of 8, in a total of 338 votes, of which women cast 123.

MASSACHUSETTS—Governor Greenhalge, on March 16, 1894, signed the bill abolishing Fast Day as a holiday, and, in its stead, making April 19 a holiday. This is to be known as "Patriots' Day," the anniversary of the ever-memorable Concord fight, at which the 'embattled farmers' fired the shot heard round the world.

The majority of the Supreme Court (three justices dissenting) hold that an act of the Legislature granting municipal suffrage for women, with the proviso that it shall be operative only upon acceptance by a majority vote of the people of the State or of any separate city or town in the State, is not constitutional.

MICHIGAN—The Supreme Court sustained the Governor's power to remove

officers who were detected in falsifying election returns so that the amendments to the State Constitution increasing their salaries might be declared passed.

NEW-JERSEY—Chief-Justice Beasley on June 11, 1894, rendered a decision to the effect that women have not the right to vote for anything in the State, whether it appertains to local or State government, and that the Legislature under the present Constitution cannot enact laws of any kind that will give to women the right of political suffrage. On June 13, 1894, Attorney-General Stockton rendered an opinion that women can vote at school meetings, and that the Chief-Justice's opinion cannot be interpreted to deny to women the right to vote on other matters than election of officers.

In January, 1894, there was a prolonged contest over the validity of two Senates organized at Trenton. The controversy was finally brought before the Supreme Court, which body, after full argument, decided, March 21, that the Senate organized by the Republicans was the only legal one, and that the title of President Maurice A. Rogers was perfectly valid. The opinion denies, as maintained by the Democrats, that the Senate is a continuous body, and that the hold-over Senators have an exclusive right to pass upon the qualifications and credentials of new members. Each of the twenty-one Senators has equal right in the organization, and the majority rules. The Adrain Senate was not constituted by a majority, and is therefore not a constitutional body. The Rogers Senate was organized by a majority, and is therefore valid. Chief-Justice Beasley delivered the opinion, which was concurred in by all the judges, though Judge Abbett filed a separate opinion. He concurred in the judgment, but differed as to the reasons.

On Nov. 8, 1894, Judge Dixon, of the Supreme Court, handed down a decision in the Vineland School case, which involved the right of women to vote at school elections, that, as "school trustees are officers within Article 2, paragraph 1, of the Constitution, so that if they are made elective by the people, only males can vote for them." Judges Abbett and Reed concurred in the opinion.

NEW-YORK—The Legislature enacted a law, which took effect on January 1, 1895, requiring children between the ages of 8 and 12 years to attend school during the entire school year; between 12 and 14 years of age to attend school at least eighty secular days, which shall be consecutive except for holidays, vacations and detentions by sickness, which shall not be counted as a part of such eighty days; between 14 and 16 years of age, to attend school when not lawfully and regularly employed. It is provided that violations of the law shall be punishable as follows: For the first offence, a fine not exceeding \$5; for each subsequent offence, a fine not exceeding \$50, or by imprisonment not exceeding thirty days, or both such fine and imprisonment. A fine of \$50 is to be imposed upon any person, firm or corporation employing children unlawfully, the same, when paid, to be added to the public school moneys of the

city, village or district in which the offence is committed. Truants are to be arrested and turned over to their parents or teachers; but truants that are incorrigible may be taken before a magistrate to be dealt with.

The Legislature of 1894 amended the Penal Code, making it a misdemeanor for any person to wilfully deface or injure a voting booth or compartment, or to remove any of the supplies or conveniences therefrom during an election or town meeting, or to wilfully deface or destroy any pasted list of candidates to be voted for before the closing of the polls, or to remove or deface the cards for the instructions of voters. The law was also amended making any election officer or watcher liable to imprisonment for not less than six months nor more than one year who reveals to another person the name of any candidate for whom a voter has voted; who communicates to another any information as to how or for whom a voter has voted, or places a mark upon any ballot or does any other act by which one ballot can be distinguished from another or can be identified, or before the closing of the polls unfolds a ballot which a voter has prepared for voting. Any person who acts as inspector of election, poll clerk, or ballot clerk is declared guilty of misdemeanor who can neither read nor write the English language; who permits any person to vote who is not entitled to vote; who unlawfully obstructs, hinders or delays any elector on his way to registration or polling place, or while attempting to register or to vote; who electioneers within a polling place or in any public manner within 150 feet of a polling place, or removes any official ballot from a polling place before the closing of the polls, or unlawfully goes within the guard rail of a polling place or remains within the guard rail after being warned not to do so; who enters a voting booth with any voter while it is occupied, or even opens the door while it is occupied by another with intent to learn how he votes; or who, being or claiming to be a voter, permits any other person to be in a voting booth with him while engaged in the preparation of his ballot; who persuades or induces a voter to vote any particular ballot or for any particular candidate, or, directly or indirectly, reveals to another the name of any candidate voted for by such voter; who shows his ballot after it is prepared for voting to any person so as to reveal its contents, or solicits another to do so; who places any mark upon or does any other act in connection with a ballot or pasted ballot so that it may be identified as having been voted by any particular person; or who receives an official ballot from any other than one of the clerks having charge of the ballots; or, not being a ballot clerk, delivers an official ballot to a voter. It is also made a misdemeanor for any one to pay or offer to pay any voter to induce him to vote or refrain from voting at any election; or to procure or promise to procure any employment or office to or for any person who shall be induced to vote or not to

vote, or to exercise bribery of any sort; or, if an employer, uses any device or motto intended or calculated to influence the political opinions or actions of his employes.

The Legislature also enacted a non-partisan election board bill. It provides that all inspectors of election, poll-clerks and ballot clerks in the various cities of this State, except the cities of New-York and Brooklyn, shall hereafter be appointed by the Mayor of such city. One-half of each branch of the board is to be of the same political faith and opinion on State and National issues as the political party which shall have polled the highest number of votes for State officers at the last preceding election, and the others are to be representatives of the other political party which shall have polled next to the highest number of votes for State officers at the last preceding general election. The election boards in New-York County are to represent the political parties in the same way, but the appointments are to be made by the Police Board. The lists for appointment in New-York City are to be presented by the chairman of the Executive Committee of the General Committee of each of the political parties on or before August 15. For other cities the lists are to be furnished before August 10 by the chairman and secretary of the General City Committee or, where there is no city committee, of the General County Committee.

On January 1, 1895, a new law took effect, which provides that on all notes, drafts, checks, acceptances, bills of exchange, bonds or other evidences of indebtedness made, drawn or accepted by any person or corporation, and in which there is no expressed stipulation to the contrary, no grace shall be allowed, but the same shall be due and payable without grace.

The Legislature enacted a law forbidding a stable to be built within 100 feet of a church.

NORTH DAKOTA—On June 4, 1894, Attorney-General Standish gave an opinion declaring the coal-rate law, passed by the Legislature in a hurried way during the long Senatorial struggle in February, 1893, as unconstitutional. He took the ground that it discriminated against coal mined in other States.

OHIO—The Senate and House of Representatives on March 13 adopted a joint resolution providing that the sessions of the Legislature should be biennial in the future. An act was also passed giving women the right to vote at school elections, and making women eligible to school boards.

RHODE ISLAND—The plurality amendment to the State Constitution was adopted by popular vote November 28, 1893. The official count stood thus: Approve, 26,703; reject, 3,331. A declaration of the count was made by the Governor on December 4, 1893. A three-fifths vote was required for approval. It is therefore evident that there were 8,682 more votes than the necessary number in favor of

the amendment. The amendment reads as follows:

Article X.

"Section 1. In all elections held by the people for State, city, town, ward or district officers, the person or candidate receiving the largest number of votes cast shall be declared elected.

"Sec. 2. This amendment shall take in the Constitution of the State the place of Section 10 of Article VIII, 'Of Elections,' which said section is hereby annulled."

SOUTH CAROLINA—The Supreme Court, on April 19, 1894, declared the act approved December 24, 1892, giving the State control of the liquor traffic, to be unconstitutional. Following this Governor Tillman closed all the dispensaries and discharged the constabulary. Subsequently, on July 23, 1894, Governor Tillman issued a proclamation to the effect that, the Supreme Court having adjourned without, and in anywise, giving expression in regard to the act approved December 23, 1893, which reaffirmed the act of 1892, the act was in full force and effect, and ordered that the dispensaries in the various counties should be reopened on August 1, and that the law should be enforced until the court shall have passed upon the question, or the Legislature shall repeal the act. A warning was given that importation of liquors should be at the risk of seizure and prosecution. The Supreme Court, on October 8, 1894, filed

its decision in the dispensary cases, Justices Pope and Gary declaring the law unconstitutional, and Chief Justice McIver dissenting.

On December 11, 1894, Hon. Benjamin R. Tillman (Dem.), was elected U. S. Senator for six years from March 3, 1895, to succeed Hon. Matthew C. Butler (Dem.). The vote was: Senate—Tillman 29, Butler 6. House—Tillman 102, Butler 15, Geo. W. Murray (Rep.) 2, Wm. D. Crum (Rep.) 1.

UTAH—The General Assembly expired by statute on Thursday, March 8, but it remained in regular session throughout Sunday, March 11, the members stopping the clock in each house at 11:20, and pasting a placard over its face, which read: "Thursday, March 8." A recess was taken each night instead of adjournment. Almost all of the really important legislation was rushed through after the legal expiration of the session, because almost the entire sixty days' limit of the session was wasted in partisan wrangling.

VIRGINIA—The effort continues to provide for a settlement by West Virginia of its share of the debt of Virginia to be adjusted by commissioners. The House of Delegates rejected, 10 to 71, the bill to amend the local option law so as not to apply to towns or cities of over 5,000 population. The Senate had passed it, 17 to 10.

WORK OF THE LEXOW COMMITTEE.

A resolution authorizing the appointment of a committee to investigate the Police Department in New-York City was offered by Senator Lexow in the State Senate on January 29, 1894, and was passed by a unanimous vote of the Senate on the following day. The action was taken in response to a general public demand for an investigation, and followed recommendations by the Chamber of Commerce in view of the charges affecting the police which had been made publicly by the Rev. Dr. Charles H. Park-

hurst. On January 31, Clarence Lexow, chairman; Edmund O'Connor, George W. Robertson, Charles T. Saxton, Cuthbert W. Pound, Daniel Bradley and Jacob Cantor were appointed as the committee. The original resolution authorized the committee to investigate the Police Department only, but an amendment gave authority to investigate the Excise Department, the Department of Charities and Correction, and the police justices. The committee had authority to engage counsel, and a bill appropriating \$20,000 for

the expenses of the investigation was passed by the Legislature later, but it was vetoed by Governor Flower.

The committee first selected Joseph H. Choate as counsel, who declined to serve. After some delay, through the aid of the Chamber of Commerce and Dr. Parkhurst, the Senate committee appointed John W. Goff and William A. Sutherland as counsel. It was soon evident that Mr. Goff and Mr. Sutherland could not agree, and that Dr. Parkhurst and his friends would not co-operate with Mr. Sutherland, and for a time there was doubt that Mr. Goff would act as the committee's counsel. On Friday, March 9, the investigation was begun, the committee sitting in one of the courtrooms of the County Courthouse, in New-York, and being attended by Mr. Sutherland, who had agreed to proceed only with one branch of the inquiry, which concerned the interference by the police with the elections in the city. The investigation proceeded on Friday and Saturday of each week for a few weeks, the Legislature being in session. Mr. Goff did not appear at the sittings of the committee, but Mr. Sutherland examined many witnesses, being assisted by Henry Grasse, of New-York. De Lancey Nicoll acted as counsel for the Police Department in the investigation. It was made plain that the New-York police had persistently interfered with the rights of voters in some parts of the city, and had permitted gross violations of the election law by Tammany thugs and repeaters. By the examination of Morris Tekulsky, president of the Liquor Dealers' Association, who had been elected a delegate to the Constitutional Convention, it was shown that there had been an arrangement between Tammany Hall and the liquor dealers by which the dealers had been allowed to violate the law forbidding the sale of liquor on Sundays in return for contributions to the Tammany campaign fund. President James J. Martin, of the Police Board, was examined on April 6 and on the following days, and made damaging admissions as to the influence which Tammany politicians exerted over the police in the elections. It was shown that many policemen had been admitted to membership in Tammany clubs. On April 13 Mr. Goff appeared as counsel for the committee and claimed that he had not been allowed to procure a subpoena for a police captain who was about to go to Europe. On the following day the committee decided to take an adjournment until the Legislature had concluded its session. Mr. Sutherland did not again take an active part in the investigation.

Mr. Goff began the examination of witnesses in the investigation, with the assistance of Frank Moss and W. Travers Jerome, on May 21. Rastus S. Ransom appeared with Mr. Nicoll as counsel for the Police Department. Police Commissioner John McClave was in the witness chair for several days and allowed a searching examination of his private and business accounts. Gideon Granger, his son-in-law, charged him with having received money for the appointment and promotion of policemen, and Mr. McClave broke down and became seriously ill. He afterward resigned as Police Commissioner and left the city. His secretary, Charles Grant, also implicated in the bargaining

for appointments and promotions, also resigned and left the city. A number of witnesses testified that they had kept disorderly houses in the city and had paid bribes to police captains and ward men. The investigation on that line of the inquiry was continued until the end of June, and when the committee took an adjournment for the summer the Police Commissioners began the trials of members of the force who had been implicated by the testimony before the committee, and dismissed Police Captains Michael Doherty, William S. Devery, Adam A. Cross and John T. Stephenson, and a number of sergeants and ward men. The Commissioners also abolished the office of ward man. The dismissed captains were afterward indicted, and Captain Stephenson was convicted of bribery. The investigation by the committee was resumed for a few days on September 10. It was shown that "greengoods" swindlers in the city had been protected by the police in several precincts, and that large sums of money had been paid to police captains and to Central Office detectives by the swindlers.

The committee continued the investigation on October 1. A number of witnesses testified that policy shops and poolrooms and even street vendors had paid tribute to the police, and that the police courts were controlled by Tammany politicians. Policemen of the Steamboat Squad, who had received extra pay for services rendered to steamship companies at the North River piers, testified that they had been compelled to give up most of the money to Police Captain Max F. Schmittberger. Augustin F. Forget, agent of the French Line, testified that he had given \$500 to the captain.

The examination of Police Commissioner John C. Sheehan was begun on October 25 and was continued for several days. He admitted that he was interested in contracts which had been awarded by a board of which a brother of Police Inspector Alexander S. Williams was a member, and that he had tried to have Inspector Williams appointed a Police Commissioner. Witnesses testified against the Commissioner, and one declared that the Commissioner had been a defaulter as Controller of Buffalo. When asked to produce his bank books for the examination of the committee's counsel, Commissioner Sheehan refused. For such refusal he was indicted later for contempt. A woman who had been paid by the police to leave the city implicated several police captains who had received money for the protection of her disorderly houses. Dr. Newton Whitehead, an abortionist, who had saved himself from punishment by bribing officials, gave testimony which implicated Police Justice Joseph Koch and members of the police force. The committee took another recess on November 3.

Mr. Goff was elected Recorder before the committee resumed the investigation on December 3, but continued to act as counsel. Proof was established that able-bodied policemen had been retired on pensions. William S. Andrews, the Commissioner of Street Cleaning, was accused of receiving a bribe of \$500 when he was Excise Commissioner, and admitted that he had borrowed large sums of money from brewers and contractors. One witness produced

checks which had been paid to Richard Croker, the Tammany leader. Police Captain Timothy J. Creeden admitted on the witness stand that he had paid \$15,000 for his appointment as captain. He was immediately suspended by the Police Board, but was restored to duty after President Martin and Superintendent Byrnes had been called to make an explanation to the committee. Creeden's testimony implicated John Martin, a close political friend of Police Justice John R. Voorhis. The latter, who had been a Police Commissioner, denied that he had received money from Creeden, and offered his books for examination. Sergeant John J. Taylor, of the Steamboat Squad, confessed that he

had collected money from the policemen at the steamboat piers, and had paid a large share to Inspector Henry V. Steers. His testimony also implicated Inspector Thomas F. McAvoy. Inspector William McLaughlin was accused of assaulting a prisoner with brass knuckles in a police station, when he was a captain. On December 21, Captain Schmittberger, who was under indictment for bribery, confessed that he had paid some of the money collected as blackmail to Inspectors Williams and McAvoy. He also accused Police Commissioners Martin and Sheehan of protecting disorderly houses and gambling houses. The committee decided to continue the investigation after Christmas.

*Wanting all returns for the latter part of December. The returns yet to be received will probably add about 700 to the number of commercial failures, and about \$7,000,000 to the aggregate of liabilities. While the number was but little smaller in 1894 than in 1893, the aggregate of liabilities was not half as large. In the aggregate of liabilities, failures of banks and financial institutions are not included, and the total for the year thus far reported is shown by sections in the following table:

NEW YORK CITY.

FIFTH AVENUE HOTEL,

Madison Square, New-York.

THE LARGEST, BEST APPOINTED AND MOST LIBERALLY
MANAGED HOTEL IN THE CITY, WITH THE MOST
CENTRAL AND DELIGHTFUL LOCATION.

A. B. Darling. **HITCHCOCK, DARLING & CO.** E. A. Darling.
Charles N. Vilas. Hiram Hitchcock.

This noble pile of white marble, Corinthian architecture, covering eighteen full city lots and accommodating one thousand guests, marks a place in the heart of the great City of New-York, and an era in the history of the Nation's wealth and advancement. It is located in the centre of the City, upon the charming Madison Square and at the intersection of the two great streets, Broadway and Fifth Avenue, and convenient to the most important points of interest in the Metropolis.

Its patrons include the names of the most prominent men and women in America—The Presidents, hundreds of Government Officials, Senators, Congressmen, Judges, Army and Navy Officers, Divines, Physicians, Authors, and in fact all who have attained prominence and celebrity in public and private life, both at home and abroad; and the most distinguished Europeans of rank and title who have visited this country,

It has been the centre of all the great public occasions which the City has witnessed for thirty years.

Years have come and gone, new hotels have multiplied with innovations and features introduced to affect and influence patronage, but the Fifth Avenue is as new and fresh as the most recent hotel construction, with more liberal accommodations than any of them, and its well-earned reputation as the leading hotel of the world is more and more assured.

A RECORD TELEGRAM.

To the Editor of the Manchester Courier (England).

Sir,—It may perhaps be of interest to your readers to know how quickly a message may be sent to and a reply be received from British Columbia. We had occasion to telegraph our manager at Victoria, B. C., yesterday, and the sending of the message and the reply only occupied 90 seconds. This was by the Commercial Cable Company. We may state that this is the record. It has never been beaten or equalled in the annals of telegraphic history. The total distance by the wires, out and return, is 13,000 miles.

Yours &c., WILSON HODKINSON.

THE MUTUAL Life Insurance Company

OF NEW YORK.

RICHARD A. McCURDY, . . . President.

Assets over \$190,000,000.

The Income Life Policy offered by this company, combines in a simple form of contract, all the best features of insurance and investment, and at rates easily within the reach of the man of modern means. The premiums on this form of policy are payable either for life or for a definite term of years, as may be selected by the applicant, while the many options offered to the insured at the termination of the distribution period place this policy in a conspicuous place among the many contracts offered.

The unquestioned financial strength of the Mutual Life, backed by assets of over \$190,000,000, leaves no doubt as to the security offered, and the fact that this great company has paid to policy-holders and beneficiaries the enormous sum of over \$367,000,000 since its organization, has given it a world-wide reputation for equity and justice.

JOHN A. McCALL, - - - President.

COMMISSIONERS' CERTIFICATE.

New York City, November 28, 1894.

WE, the Insurance Commissioners and Superintendents of the States of Massachusetts, Illinois, Kansas, Kentucky, Missouri, Ohio and Texas, pursuant to the invitation of the President of the Company, dated June 1, 1894, do hereby certify that we have been for the past four months engaged in a thorough and searching official investigation into the affairs of the New-York Life Insurance Company of the City of New York.

We further certify that each Stock and Bond owned, each Collateral Loan, each Bond and Mortgage Loan made, the Cash and each Bank Certificate of Deposit was carefully examined, checked and verified; that the Policy Loans and Premium Notes were examined and checked with the Reserve on each Policy; that Interest and Rents due and accrued, unreported and deferred Premiums, were also verified; that the Values of Stocks and Bonds owned, and Real Estate owned, were individually and closely scrutinized and conservatively made; that the title to each piece of property secured, and Bond and Mortgage Loan made since the 1891 New-York State Insurance Department Investigation, was examined and found satisfactory. That the Policy Reserve was checked and verified by the Actuaries of our several State Insurance Departments, and that every Policy and its Reserve, on the books of the Company, was checked individually with the Valuation Policy Registers of the Massachusetts Department; that all Sundry Liabilities were also verified; that each debit and credit entry in the Company's books was checked from the date of the said New York State Investigation; and that as a result, on the most conservative basis of valuation, we found the Company possessed of ASSETS satisfactory to us, amounting to

\$155,453,428.73

And that, after providing for all possible Liabilities, including \$135,058,291.00 for outstanding Policy Reserve, as per the "Combined Experience Table of Mortality," with 4 per cent. interest, the total of the same amounted to \$138,124,363.81.

We further certify that, by the severest test, the NET SURPLUS to policy-holders, after providing for every Liability, and deducting Agents' Balances, was on June 30, 1894.

\$17,329,064.92

IN WITNESS WHEREOF, we have hereunto subscribed our respective names, in the City of New York, the day and year above written.

G. S. MERRILL,

Insurance Commissioner, State of
Massachusetts. Chairman.
